Kensington®

Work flexibly.
With extra security.

Premium privacy
with crystal clarity.

Kensington
Privacy Screen Filters

Why Use a Privacy Screen Filter?

±30° VIEWING ANGLE

With a ±30° viewing angle, our privacy screen filters ensure only the person using the device will be able to see what's on screen, giving you and your staff complete peace of mind.

ANTI-REFLECTIVE COATING

Not only will our filters protect your data from prying eyes, they'll also cancel out annoying reflections from windows and bright lights – ideal for employees working in multiple locations.

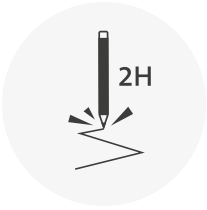

BLUE LIGHT REDUCTION

Why stop at privacy? Our range features built-in anti-glare and blue light filters to reduce eye strain and promote natural sleep.

REVERSIBLE VIEWING OPTIONS

One side has a matte finish to reduce glare and fingerprints. The other side is glossy and provides a clearer view of the screen.*

SCRATCH RESISTANT

A resilient, scratch-resistant surface that can withstand contact with objects as hard as a 2H-grade lead pencil, ensuring increased durability and protection.

LOCAL ASSEMBLY

Locally assembled in Germany. Fully recyclable card sleeves with reduced plastic.

* High clarity filters feature glossy surfaces only

Why Kensington?

UNBEATABLE CHOICE
Choose from a portfolio that supports more than 50,000 different laptops, tablets, 2-in-1s and monitors so you have the perfect solution for you and your business.

FLEXIBLE ORDERING
You can order through the reseller of your choice, with a low minimum order quantity.

SUPER-FAST DELIVERY
We'll pull out all the stops to ensure your employees are armed with their brand-new privacy screen filters with lead times as low as 7 days.

EVALUATION SAMPLES AND BID PRICING
Before you commit, we'll send you samples to evaluate. We can even support public tenders and large bids.

HAVE A SPECIFIC REQUIREMENT?
We know how fast the market moves - and we're agile enough to move with it. We can manufacture new filter designs on request with low minimum order quantities. We're also open to supporting bids for end users.

NEW High Clarity Privacy Screen Filters

Many professionals struggle to maintain privacy while working with sensitive information in public or shared spaces. Standard privacy screens can sacrifice clarity, hindering visibility.

Kensington High Clarity Privacy Screen Filters address these challenges with advanced nanolouvre technology for vibrant visuals, unleashing up to 40% more light transmittance compared to standard filters.

- Cutting-edge nanolouvre technology enhances light transmittance by up to 40% compared to standard privacy screens
- Narrows field of view to ±30°
- Eases eye strain and reduces the chances of natural sleep pattern interruptions by filtering out up to 28% of the laptop's blue light rays.
- Two installation options: mounting tabs allow repeated removal and re-attachment, or adhesive tape for a cleaner look
- Anti-reflective coating reduces glare from outside light sources for improved viewing clarity
- Scratch resistant 2H hardness rating
- Touchscreen compatible
- Locally assembled in Germany

UNIVERSAL FOR LAPTOPS

NEW EQ Privacy Screen Filters

Finding privacy screen filters that support sustainability goals while offering strong data protection can be a challenge. Kensington EQ Privacy Screen Filters are an innovative solution, utilising 54% post-consumer recycled (PCR) plastic.

With a limited viewing angle of ±30°, they help safeguard sensitive information in busy offices and public spaces. With easy installation options, touchscreen compatibility and military-grade protection, EQ Privacy Screen Filters are a more sustainable privacy solution for a wide range of laptops and monitors.

- Made from up to 54% post-consumer recycled (PCR) plastic and shipped in FSC® certified packaging
- Narrows field of view to ±30°
- Eases eye strain and may help reduce risk of natural sleep pattern interruptions
- Two installation options: mounting tabs allow repeated removal and re-attachment, or adhesive tape for a cleaner look
- Anti-reflective coating reduces glare from outside light sources for improved viewing clarity
- Matte side provides a clearer view without glare or fingerprints, while the glossy side enhances visibility for a sharper display
- Scratch resistant 2H hardness rating
- Locally assembled in Germany
