# Getac

Using the Carrying Case

Assembly

1. Pull the elastic strap off the front lid and open the lid.

2. Pull the two fastener pieces apart from each other.

3. Take the stylus out of its slot on F110/RC11.

4. Note the orientation and fit F110/RC11 into the case.

5. Engage the fasteners.

6. Put the stylus in the pen holder.

7. Close the lid and secure it with the elastic strap.

8. To use the shoulder strap, attach the snap hooks to the buckles.

Applications

This carrying case protects F110/RC11 while keeping access to controls and functions.

Besides carrying F110/RC11 around, the shoulder strap is convenient when you need to operate and hold F110/RC11 at the same time.

You can use the front lid as a stand for F110/RC11. Two angles are available for positioning F110/RC11.
