

UC workstation

All-in-One Voice Device Solutions

Redefine Your Workspace

Have you suffered from a table covered by different devices and cables? Yealink created the UC Workstation family to help users redefine their workspace in terms of boosting productivity and work flexibility. The family contains two DECT Wireless Headsets (WH66 & WH67), and a USB Phone (MP50). With unified design concept of plug-and-play and all-in-one, the UC Workstation is ideal for hot desking, work from home and co-working spaces. It supports connection with multiple devices like mobile phone and PCs so that you can manage communications from a single device. By integrating devices like speakerphone, 4 inch touch console, and USB hubs, it offers incredible set of features, and allows you to meet, connect and collaborate seamlessly and intelligently.

All-in-one UC Workstation

Acoustic shield technology

Multiple devices connection

Customizable busylight

All Devices in One Simplify Your Workspace, Boost Productivity

Mobile Phone Station

The UC Workstation supports Bluetooth connection for mobile devices, which allows multi-device collaboration and transform phone a meeting terminal.

Full-Duplex Speakerphone

Equipped with a full-duplex hands-free speakerphone with AEC, you can turn the conversation public through it, which is flexible enough for all-day meeting comfort.

Busylight Peripheral

The customizable busylight can be paired with the UC Workstation and show your working status obviously. Minimizing the interruption and enlarge your productivity.

USB Hub

Transform one of your computer's USB ports into 2 or 3 for peripherals connection, data transmission, and bring more convenience in case.

Integrating All Your Devices in One UC Workstation

All Connection in One Perfect Compatibility for Plug-and-Play

By using only one USB cable, the UC Workstation provides a plug-and-play working experience, allows you to easily manage calls from phones, mobile phone and computers. Users can enjoy a consistent call experience across UC platforms, which promises better voice quality, higher productivity and lower IT costs. Certified for Microsoft Teams, the series provides a Teams version with a dedicated Teams button for activating Microsoft Teams with one touch.

All Control in One User-Friendly Operation Experience

On a 4-inch touch screen, you can manage several devices and realize call control such as call answering, holding, muting and turn to speaker mode with a single touch, which provides a well-ordered working experience and delivers a unified, simple and visible user experience of operation and management.
