

Flexible & Convenient Power, Right Where You Need It

The dash Power Tower is designed to supply your space with convenient access to power and charging in a slim, modern design. A standard, ready-to-purchase offering is provided as a 36" power tower with two outlets and two combo USB A/C ports, available in either graphite or white finishes to compliment your interior space.

With the full line of dash™ power solutions from Legrand, expand beyond the standard offering by designing your own solution with a set of cubes that can be assembled at the factory to match your unique specifications. The Power Tower can be configured with up to 6 cubes and can be customized from 24" to 36" tall.

dash™ Power Tower

Easily Within Reach:

With a standard height of 3 feet tall, the tower is designed to complement seated areas for convenient power access.

Highly Configurable:

With so many potential options/configurations, the Dash offering is designed to be easily configured with support of up to 6 cubes and varying heights from 24" to 36" tall. Choose the right mix for your space.

Slim, Modern Design:

The dash Power Tower is designed to blend right into any space, complementing existing decor with a minimalist design that's right on target with high end environments.

Retractable Cord:

8 foot self-retracting cord makes cable management easy.

Tamper-Resistant Receptacles:

Protect users and devices from damage or risk of injury.

USB Charging:

Allow for users to charge smaller electronic devices with the combo USB A/C cubes. Each cube supports up to 15W of total device charging.

Standard Configurations:

The dash™ Power Tower is offered in a stocked, ready-to-purchase configuration that is designed to meet the needs of most spaces.

P4HUHUWH: 2 15A outlets, 2 USB-A ports, 2 USB-C ports, White

P4HUHUGR: 2 15A outlets, 2 USB-A ports, 2 USB-C ports, Graphite

Custom Configurations:

The dash™ Power Tower offers designers a higher degree of customization with the ability to specify cube selections and arrangements to fit any environment.

Step 1:

Select a Color.

Available in both White and Graphite finishes.

Step 2:

Select Cube Functions

Available with both power and charging cubes. Specific conditions apply when configuring, please consult your Legrand sales representative on potential configuration options and availability. An integrated circuit breaker is included at the base of the tower with units containing four or more outlets.

15A Tamper-Resistant Outlet

15A Tamper-Resistant Rotated Outlet

15W Combo USB A/C Port

Step 3:

Select Height

Available in heights between and including 24 & 36 inches.

designed to be better.
