CREATIVE AURVANA ACE 2

TRUE WIRELESS IN-EARS WITH *BLUETOOTH®*
LE AUDIO, APTX™ LOSSLESS, AND XMEMS DRIVER

EXPERIENCE GUIDE

INTRODUCTION

Enter a realm where audio precision intertwines with cutting-edge style—a true testament to acoustic excellence, further empowered by xMEMS technology. The Creative Aurvana Ace 2 invites you to embark on an elevated aural journey, brought together through the fusion of innovation and professional craftsmanship.

Encased in an aesthetically pleasing translucent compact charging case, the premium true wireless earbuds feature Snapdragon Sound™ with Qualcomm® aptX™ Lossless technology, and more. Our dedication to quality goes beyond the ordinary, guaranteeing an audio experience that rivals superior CD-quality clarity and precision.

The Aurvana Ace 2 earbuds further aims to please with the inclusion of Qualcomm® Adaptive Active Noise Cancellation (ANC), ensuring that you are shielded from unwanted distractions while making sure every note, beat, and melody is delivered with unparalleled fidelity and purity.

As you explore the intricacies and performance of this premium earbuds, prepare to be captivated by the harmonious blend of precise audio and sophisticated style unlike any other.

KEY FEATURES

KEY FEATURES

UNPARALLELED SOUND QUALITY

Working jointly on the Creative Aurvana Ace 2, the premium true wireless earbuds bring an exceptional two-driver system, seamlessly bridging the prowess of xMEMS technology with custom-tuned 10 mm dynamic drivers. The dynamic duo excels in not only a comprehensive spectrum of natural sounds with exceptional precision, spanning from crystal-clear highs, thundering bass, and dynamic treble, but also in the deliverance of high-fidelity audio at 16-bit / 44.1 kHz with Snapdragon Sound's aptX Lossless technology.

All carefully packed in a compact true wireless system, unfold and enter an auditory realm that mirrors CD-quality, faithfully recreating the subtle nuances of original recordings, as how they are intended to be heard, directly into your ears.

NEXT-GENERATION *BLUETOOTH* AUDIO

Experience the future of wireless audio with the next generation of wireless streaming technology, *Bluetooth LE Audio*¹, setting new standards by offering exceptional sound quality at lower bitrates and reduced power consumption. With Ucast (CIS) mode, immerse yourself in a more captivating, high definition listening experience that redefines the possibilities of wireless audio.

¹Unlocking of LE Audio requires a separate purchase of a Bluetooth LE Audio transmitter.

NOISE CONTROL REIMAGINED

Seamlessly adapting noise cancellation levels in real-time, Qualcomm Adaptive ANC featured in the Creative Aurvana Ace 2 ensures a tranquil listening experience, effectively cancelling out background noises while ensuring high-definition clarity wherever you go.

To tune in to the outside world, simply activate Ambient mode to effortlessly connect to your surroundings, allowing the perfect amount of your surroundings to reach your ears for a customized audio experience.

MARVEL IN DESIGN

To further cement our commitment to deliver a comprehensive premium audile experience on-the-go, the Creative Aurvana Ace 2 underwent a detailed product design overhaul from the ground up, emerging as a work of art. The earbuds reside in a translucent charging case with copper core, elevating the entire experience to newer heights.

The earbuds also feature built-in voice assistant support, touch controls, and multiple ear tips sizes for optimal comfort, fit, and proper noise isolation.

EFFORTLESS COMMUNICATION

With a total of six built-in microphones—three per side—further enhanced by Qualcomm's cVc Noise Cancellation technology, the Creative Aurvana Ace 2 prioritizes capturing your voice with precision. The additional microphones are included to ensure crystal-clear voice calls and superior call quality, providing an exceptional communication experience.

The more the mics are used, the more intelligent they become. The algorithm dynamically adjusts to your environment, continuously adapting to the changing noise around you. This results in uninterrupted conversations and increasingly effective noise reduction, regardless of your location. Now you can truly experience the evolution of seamless communication with the Creative Aurvana Ace 2.

BATTERY LIFE UNLEASHED²

Discover the freedom of uninterrupted playback with Creative Aurvana Ace 2. Enjoy a continuous playback of up to 6 hours on a single charge. To further extend the playback time, the charging case offers up to a total playtime of 24 hours, ensuring that your music stays with you throughout the day. If you require a quick battery boost, a mere 10 minutes of charging offers up to 1 hour of playback, allowing you to get back to your music in no time.

²Based on moderate volume level. Actual battery life will vary with use, settings, songs and environmental conditions.
