4-Port USB-C Hub, USB 3.2 Gen 2 (10 Gbps), 4x USB-C Ports, 100W PD Charging, Thunderbolt 3 Compatible, Gray

MODEL NUMBER: **U460-004-4C-G2C**

Adds 4 new USB-C ports to the USB-C or Thunderbolt 3 port on your MacBook, Chromebook, Windows laptop, PC, tablet or smartphone.

Features

USB-C Hub Connects 4 USB Peripherals to Your Computer's USB-C or Thunderbolt 3 Port
This USB-C hub with PD charging connects up to four USB-C peripherals to your MacBook, Chromebook, Windows laptop, PC, tablet or smartphone. Expand the potential of your device by connecting multiple USB peripherals that can help you do your job faster, easier and better, such as external storage (M.2 SATA or NVMe enclosures), USB-C thumb drives, digital cameras, wireless headsets and other podcasting equipment. An ideal choice for Work From Home and Work From Anywhere professionals, the U460-004-4C-G2C also charges your smartphones, tablets and other mobile devices.

Transfers Data at Lightning-Fast USB 3.2 Gen 2 Speeds
All four USB ports transfer data at speeds up to 10 Gbps, which is double the rate of USB 3.2 Gen 1. The USB ports are backward compatible with previous USB generations, so you can continue using older peripherals while getting high-speed performance from new devices. Three fast-charging ports provide up to 5V 1.5A (7.5W) for charging smartphones and other mobile devices.

PD Charging Port Charges Host Device via AC Wall Charger
The USB-C Power Delivery port supports power output up to 20V 5A (100W), which is more than sufficient for charging and powering the connected source device, such as a MacBook Pro, Windows laptop or Chromebook, or a handheld gaming device like a Steam Deck, Nintendo Switch or ASUS ROG. Just connect the device's wall charger to both the USB-C PD port and an AC outlet. ***Note****: 15W is reserved for powering the hub. User-supplied power adapter and Type-C cable must support 100W charging to reach full charging output of PD charging port.*

Ready to Use Right Out of the Package
The plug-and-play USB-C hub requires no software, drivers or external power. The lightweight unit fits easily into a pocket, briefcase or laptop bag for connecting on the go.
