Workspaces Made Simple

This dock provides the essential connectivity that most users need, in the smallest possible package.

The dock has the ability to connect a monitor, three USB-A peripherals and Gigabit Ethernet as well as an audio jack that can be used with speakers or headsets for listening to music or making video calls. The Essentials Dock also features a USB-C port that supports USB data and USB Power Delivery (PD) passthrough – the dock can charge the computer when a USB PD power adapter is connected to the USB-C port.

Stunning 4K Video

Small but powerful, the Essentials Dock can extend your laptop's screen to an external HDMI monitor at up to 4K resolution*, providing an instant boost to your computer's capabilities and productivity.

* Video resolutions and refresh rates that can be achieved are dependent on the capabilities of the connected computer and monitor. Check the FAQ's below for guidance in the resolutions you can expect to achieve with your equipment.

Small and Robust

This multi-purpose hub is just as at home on a desk or on the road. Its compact design is perfect when space is at a premium and makes it a logical choice for mobile users – road warriors, educators, students and professionals who work between the office and home.

A robust and elegant mix of Aluminium and impact resistant ABS ensure the hub is strong so it can live in a laptop bag while taking up minimum space and without fear of being damaged.

| 1 | 3 x USB-A | 2 | 3.5mm Audio | 3 | USB-C: Data, Video, PD In | 4 | HDMI | 5 | Ethernet |

Video Resolution Table

Computer DisplayPort Alt Mode Version	Maximum Output Rate
DP 1.4	4K UHD 60Hz
DP 1.2	4K UHD 30Hz, or 1920x1080 Full HD 60Hz

Physical Characteristics

Product Dimensions	130 x 55 x 17.5mm (L x W x H excluding cable)
Cable Length	230mm
Weight (product)	133g approx
Materials	Aluminium and ABS

Power

Device can operate powered from the host computer or by connecting a USB-C Power Delivery (USB PD) power adapter (not included).

The hub will accept up to 100W of power when a suitable USB PD power supply is connected; up to 15W is reserved for use by the hub and connected devices and the remaining power will be made available to charge the computer (up to 85W, dependent on the size of the power supply).

Input

1 x Integrated USB-C cable for connection to computer

1 x USB-C power input; supports USB Power Delivery (USB PD) power sources up to 100W (shared with USB 2.0 data)

Output

1 x HDMI 2.0

3 x USB-A 3.2 Gen 1 5Gbps

1 x USB-C 2.0 with PD power passthrough

1 x 3.5mm Audio

1 x RJ45 Ethernet 1Gbps

Video Resolution

Maximum refresh rate is dependent on the capability of the host computer and resolution of the connected display.

Audio Support

Supports HDMI audio output

Supports stereo audio out and mic/line in via 3.5mm connector

Device Compatibility

Compatible with Windows, MacOS, ChromeOS computers.

USB-C port on the computer that the device is connected to must support DisplayPort Alternate Mode video output for the video port on the dock to work.

USB-C port on the computer that the device is connected to must support USB Power Delivery charging for passthrough charging from the dock to work.

Package Includes

1 x FUPHD1 USB-C 7-in-1 Essential Dock

1 x User Manual

Warranty

2 years
