IntelliSkin® with GDS® Tech™ for CT37

Upgrading to the GDS®/IntelliSkin® system introduces a universal D-shaped pogo pin design, ensuring seamless compatibility across all IntelliSkin®-enabled devices. This standardized connector streamlines workflows by eliminating the need for cords — simply dock the Honeywell CT37 to charge. When it is time to upgrade, the consistent interface allows for effortless transitions while retaining your existing docking infrastructure.

Belt Clip Accessory

Stay hands-free and mobile with a built-in belt clip that keeps your phone secure and easily accessible on the go.

USB-C Access

An integrated external USB Type-C port is conveniently accessible, providing a reliable connection option for charging or data transfer when a GDS® Dock™ is not available.

RAM-GDS-SKIN-HON14-C
IntelliSkin® for Honeywell CT37

RAM-GDS-DOCK-V15-CU
GDS® Powered Vehicle Dock

Fast & Efficient Charging

By sliding your device into an IntelliSkin®, an integrated USB connector converts power and data sync through pogo pad contacts. These contacts sync directly to the pogo pins on GDS® Docks™ for a seamless high-speed charging experience with peripheral support.

Easy to Clean

The pogo pad contacts on the bottom of the IntelliSkin® are intentionally flat to reduce the debris buildup, making it easy to clean.

RAM® Form-Fit Docks
for CT40 / CT45 / CT47

These rugged docks are designed to get the job done in the field while keeping your device charged and secure from theft. Each form-fit dock is RAM® Mounts Compatible™ and can be expanded with any B or C size diamond base, double ball mount, or any base for your desired mounting location. Choose from two spring-loaded phone holders: one designed for the CT40, CT45, and CT47 series, and another perfectly suited for the CT50, CT60, and CT60 XP series.

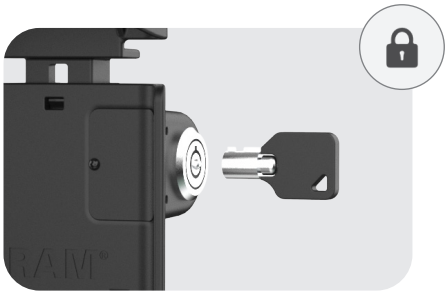

RAM-HOL-HON12PDHLU
RAM® Locking Powered Dock + USB-A for Honeywell CT40/45/47 - Heated Pins

Key Features

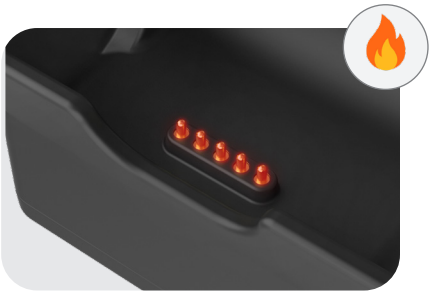

Power & USB-A Peripheral Support

Power to the device is delivered via a 1m long female 5.5mm DC barrel connector and the dock supports a single peripheral device via USB-A female connector.

Key Locking

Available in both locking and non-locking versions, RAM® form-fit docks offer flexible security options to help deter theft while keeping devices accessible and secure.

Heated Pins

Heating elements provide the necessary heat required to prevent pogo pins from locking up in cold temperatures.

Rugged Tablet Docks

for ScanPal™ EDA10A

To handle everyday tasks like inventory management, proof of pickup and delivery, or mobile point of sale, RAM® Mounts provide rugged docks that enable Honeywell's ScanPal™ EDA10A tablets for field use. Designed with cutouts for full access to the camera, buttons, and ports, these mounts preserve key functions like scanning and volume control while docked.

Locking Versions Available

Accessory Compatible

Intentionally designed with a concave area to accommodate tablet accessories such as hand straps and battery extensions.

Peripheral Support (USB-A & DB9)

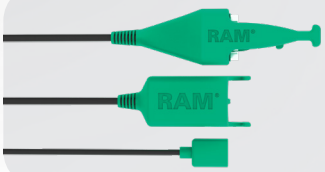

Mount It

Two dedicated side-mounting areas allow operators to mount up to two small devices such as an NFC Extender, scanner, or handheld.

Pogo Pin Connection

Protect the charge port and increase efficiency by utilizing the device's pogo pad docking contacts. All powered RAM® Docks come equipped with pogo pin technology to enable a seamless docking experience.

Connector Options

This form-fit powered dock can be customized to fit workforce needs. With multiple connector options, operators can configure the dock to charging only or include multiple peripheral support options with USB-A and DB9 Serial ports.

Rugged Tablet Docks
for RT10

Available in a variety of different configurations such as key or combo locking, power or non-powered, RAM®'s legacy tablet docks for the Honeywell RT10 Tablet keep the same ruggedized connectivity your enterprise relies on. These docks enable an efficient workflow with the ability to integrate peripherals into your entire solution such as scanners, printers, speakers and more.

Locking Versions Available

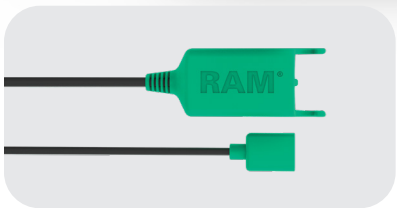

Accessory Compatible

This form-fit dock securely accommodates add-ons like a scanner, hand strap, and extended battery pack.

Peripheral Support
(USB-A)

Connector Options

Connect up to two desired peripherals while keeping the device charged through the pogo pin contacts when the device is docked.

Pogo Pin Connection

Streamline workflows and reduce wear on physical ports by leveraging the device's pogo pad contacts—included pogo pins deliver both power and peripheral connectivity when docked and connected to a power source.

Mount It

Take the solution a step further by taking advantage of the built-in 2-hole mounting plate compatible with RAM® 2-hole diamond base for additional device mounting such as a phone, or other handheld device.

Universal Holders

for Scanners, Printers, and Voice Devices

Keeping Honeywell scanners, printers, and voice devices secure and within reach is essential for maintaining productivity in fast-paced environments. Ergonomically designed universal holders provide a stable, reliable mounting solution that protects devices from drops and damage while ensuring they are always accessible when needed. Whether deployed on workstations, carts, or forklifts, these mounts help streamline workflows, reduce repetitive motion and physical strain, and support a more organized, hands-free work environment.

Vehicle Mount Computer Solutions

When it comes to heavy duty equipment, RAM® Mounts is the most trusted brand for keeping these devices mounted without fault. For large Honeywell vehicle computers, take advantage of the ultra-rugged forklift and vehicle mounts with VESA ball adapters designed to install directly into the back of the computer.

This wrench provides the extra leverage needed to tighten the mount in cold weather or in small spaces

About RAM® Mounts

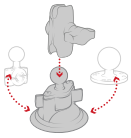

RAM® Mounts manufactures rugged and versatile mounting systems for phones, tablets, and other mobile devices that can be attached nearly anywhere. Unlike other mounts on the market, RAM® allows you to secure devices where you need them most. The unique design of the RAM® Mounts system provides quick installation, adjustability, strength, vibration damping, and durability—all at a low cost. Backed by a lifetime warranty, RAM® uses powder-coated, marine-grade aluminum with lightweight and high-strength composites, stainless steel hardware, and rubber balls.

The RAM® Difference

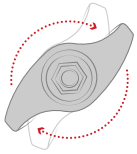

Premium Design

The rubber ball and socket design of our mounting systems offers a secure hold, with near-infinite adjustability and vibration damping for the most demanding environments. With thousands of components trusted by users around the world, we've been able to design and develop mounting solutions that consumers and companies previously only dreamed were possible.

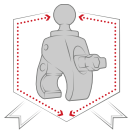

Customizable

Built to adapt to diverse environments and industries, these mounting solutions offer the flexibility needed to create your ideal mount. Because of the modularity of the RAM® system, you can customize your solution to fit your specific needs in almost any application.

Quality Materials

A premium design deserves the highest quality materials available, from rubber and stainless steel to high-strength composites and marine-grade aluminum. Our facilities— including powder coating, die casting, rubber injection molding, and shock and vibration testing—help us deliver on this promise to bring you inventive mounting solutions.

Lifetime Warranty

It's simple. Our reputation as the leader of premier mounting systems means if we build it, then we guarantee it. We're confident in the quality of our products, and with our warranty, you can be too.

*1-3 year warranty on electronics, including powered docks

National Products, Inc. (NPI)

Introduced in 1990, National Products, Inc. (NPI) quickly became the leading manufacturer of rugged and versatile mounting solutions. RAM® Mounts has grown to offer approximately 5,000 modular components—the most innovative product line of its kind for nearly any application and device, including phones, tablets, GPS systems, laptops, marine electronics, printers, radios, and much more.

In addition to RAM® Mounts, NPI is also the creator of award-winning IntelliSkin® sleeves and GDS® Technology™ products. IntelliSkin® sleeves ruggedize a wide range of consumer phones and tablets, while the GDS® Ecosystem™ provides users the ability to securely charge, dock, and sync devices in the most demanding environments.

NPI is proudly located in Seattle, Washington in the same neighborhood where the company was started.

Partner with RAM® Mounts

Here at RAM® Mounts, we believe that unfathomable things are possible with ingenuity. With a portfolio of more than 5,000 SKUs paired with innovative engineers and in-house product experts, we have the tools and expertise needed to create solutions that you didn't know were possible. We have the ability to solve your mounting challenges quickly, efficiently, and cost effectively.
