IntelliSkin® Thin-Case™ for the Samsung Tab A9+

FEATURES & BENEFITS

Two-piece Device Enclosure

A robust, two-piece polycarbonate shell makes it easy to install and deters from unwanted removal—simply slide the device in, plug the bottom half into the USB-C port, and secure with included hardware.

Slim, Low-profile Design

The two-piece shell sports a slim design, with fewer cutouts and grooves compared to the original IntelliSkin®, and is made of a smooth polycarbonate material, making it easy to sanitize.

Connect with Rear Pogo Pads

Up until now, IntelliSkin® has been recognized for its Distinctive D-Shape™ connector located on the bottom of the sleeve. The new IntelliSkin® Thin-Case™ with Rear Pogo Pads features a powered Uni-Conn™ adapter that unlocks the low-profile GDS® Ecosystem™ of docks.

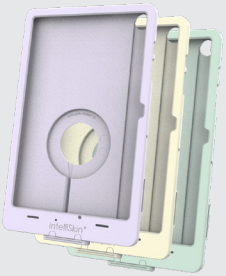

Easy to Clean

Connection interruptions are unavoidable. The main cause is excessive debris buildup, this is easily addressed with regular cleaning. The pogo pad contacts built-in to IntelliSkins® are intentionally flat to reduce the debris buildup and are easier to clean.

Custom Color Options

Seamlessly integrate your device into retail & medical settings with the sophisticated Light Gray collection.
