

HyperX Solocast 2 BLK Mic (AR0A0AA)

Overview

Simple setup. Superior sound.

HyperX SoloCast 2 – an upgraded USB gaming microphone designed to make professional-grade voice capture simple and convenient. A smarter, sleeker upgrade from the previous iteration, it's been designed from the ground up to offer all the features you loved before, now with even more functionality, without the need for extra accessories. With a streamlined, compact form factor, this mic is fully functional and ready for use. It features an internal shock mount, built-in pop filter, and integrated mounting threads, eliminating the need to add separate accessories. Whether you're chatting with teammates or sharing gameplay, SoloCast 2 will simplify your setup without compromising performance. Unlock audio personalization with HyperX NGENUITY Software and easily switch between high-pass, low-pass, and voice enhancement filters that are saved between sessions. Combining plug-and-play simplicity with a cardioid pattern for focused vocal clarity, SoloCast 2 is your go-to microphone for gaming communications, streaming, and everything else.

Designed to capture less unwanted noise

Engineered from the inside to reduce vibrations from the outside, with a built-in suspension system that delivers shock mount benefits in a compact, no-fuss design.

Fits in any gaming setup

Tilt-adjustable with a weighted base for stability, ready to use out of the box. Built-in 3/8 in. and 5/8 in. threads offer easy mounting to compatible mic arms for added versatility.

An All-In-One mic that doesn't ask for more

Everything you need is built in — foam pop filter, tiltable stand, and mic arm threads. No extras required. Just clear sound and a smart design for a setup that keeps things simple.

Audio Filters Customizable via HyperX NGENUITY

Customize sound with high-pass, low-pass, or voice enhancement filters - reduce rumble, soften sharp tones, and boost voice clarity. Save settings to the mic for consistent sound anywhere.
