Easy Video Conferencing for Every Meeting Room

TeamJoin™ Solutions
for Microsoft Teams Rooms

Make Every Meeting Count

Poor audio, clunky setups, and lack of visibility can turn even short meetings into time-wasters—especially when remote participants can't hear or see clearly. Add in the challenge of finding an available room, and it's no wonder meeting fatigue is on the rise. Technology should enable collaboration, not hold it back.

Experience Better Meetings with ViewSonic® TeamJoin™ Solutions

ViewSonic® TeamJoin™ for Microsoft Teams Rooms is a secure, easy-to-use, all-in-one solution that helps you run smarter meetings in any space. With integrated hardware, intuitive touch controls, and seamless Microsoft 365 compatibility, TeamJoin simplifies collaboration from start to finish.

One-touch start, clear audio and video, and built-in security ensure that every participant—remote or in-room—can be seen, heard, and involved. From huddle rooms to large conference spaces, TeamJoin adapts to your needs with scalable, plug-and-play performance.

Scalable Video Conferencing for Every Meeting Room

Choose from a full portfolio of components including computing engines, touch consoles, 4K PTZ cameras, and speakerphones. Each solution is designed to simplify setup, enhance communication, and scale to match the size and needs of your meeting spaces.

For Large, Customizable Conference Rooms

ViewSonic® TeamJoin™ TRS50

Designed for high-performance collaboration in larger spaces, the TeamJoin TRS50 solution delivers powerful computing and immersive visuals with support for up to two 5K ultra-wide displays or three 4K 16:9 displays.

MPC51WT Computing Engine

- 12th generation Intel Core i5 processor with TPM 2.0 ensures stable and secure meeting environment
- Support for HDMI v2.1
- Pre-installed Microsoft Teams Rooms
- Support for three HDMI outputs and up to three displays

MRC111T Touch Console

- High clarity, anti-glare 11.6” Full HD touchscreen
- Direct USB-C support for BYOD presentations
- Auto on/off with human presence sensor for instant meetings
- Daisy chain up to two units via Cat5e

ViewSonic® TeamJoin™ TRS50-UC

This enhanced solution includes everything in the TRS50 and adds an advanced 4K PTZ camera for more natural, dynamic video during hybrid meetings.

MPC51WT Computing Engine

MRC111T Touch Console

UMC211T 4K PTZ Camera

- Dual-eye 4K panoramic and PTZ coverage
- Power over Ethernet (PoE), built-in mount, and USB connectivity
- 12× optical zoom with a 90° wide FOV
- AI auto framing
- Real-time speaker and presenter tracking

For Smaller Meeting Rooms and Huddle Spaces

ViewSonic® TeamJoin™ TRS10

This is a cost-effective, compact solution for deploying Microsoft Teams Rooms in smaller spaces.

MPC310-W31-TU Computing Engine

- 12th generation Intel Core i3 processor with TPM 2.0 ensures stable and secure meeting environment
- Pre-installed Microsoft Teams Rooms

MRC1010-TN Touch Console

- High clarity, anti-glare 10.1” Full HD touchscreen
- Direct HDMI-in support for BYOD presentations
- Auto on/off with human presence sensor for instant meetings

ViewSonic® TeamJoin™ TRS10-UB

Ideal for enterprises looking to completely upgrade and transform their smaller meeting rooms and huddle spaces, this enhanced solution includes everything in the TRS10 and adds a 4K video bar for advanced audio-visual capabilities.

MPC310-W31-TU Computing Engine

MRC1010-TN Touch Console

UMB202 4K Video Bar System

- Ultra HD camera
- Smart auto framing
- 6-mic array
- 11W speaker

Optional Accessories

For a fully immersive video conferencing experience, we also offer a UMS301T speakerphone that can be easily added to any of our TeamJoin solutions:

UMS301T Speakerphone

- 8-beam, 360° mic array
- Super-wideband audio with echo suppression
- AI noise suppression
- Full-duplex conversations
- Daisy chain up to six units via Cat5e
- Driver-free plug-and-play

What's more, you can combine any TeamJoin bundled solution with any ViewSonic® ViewBoard® interactive display, commercial display or projector. With a variety of screen sizes to choose from, you can build your ideal Microsoft Teams Rooms meeting space—no matter the size.

Secure Collaboration

ViewBoard IFPG1 Interactive Displays

Without an integrated operating system, ViewBoard® IFPG1 interactive displays is a secure communications solution that enhances security standards while reducing cyber vulnerabilities and potential attack vectors.

Available in sizes ranging from 55" – 86", ViewBoard IFPG1 interactive displays are a flexible, future-proof presentation solution designed to help enterprise organizations enjoy streamlined collaboration for years to come. Plus, any of these displays can be easily combined with our Microsoft Teams Rooms solutions.

Easy Content Sharing

CDE31 Series Digital Displays

For organizations that do not require interactive touch capabilities, our CDE31 series of digital displays are what you need.

Featuring 4K resolution, 500-nit high brightness, and a 25% high haze anti-glare surface, these displays ensure crisp, clear visuals in any lighting condition. With instant-on functionality that boots up in under 10 seconds, you get immediate content delivery with zero downtime. Certified integration with leading AV control systems—including Crestron, AMX, Extron, Q-SYS, and Cisco—makes CDE31 displays a seamless fit in any professional AV environment.

We've got a CDE31 for every meeting room. From 43-inch models ideal for huddle spaces and to 98-inch screens that command any large boardroom, any of our CDE31 displays can be combined with our Microsoft Teams Rooms bundled solutions and provide a perfect fit for your different rooms.

Immersive Presentations on a Colossal 21:9 Screen

Ultrawide Displays

ViewSonic offers two ultrawide display lines ideal for collaboration: the ViewBoard® IFPUW series of interactive displays, and the CDEUW series of non-touch presentation displays. Both come in 92" (IFP92UW, CDE92UW) and 105" (IFP105UW, CDE105UW) options that feature colossal screens with a 21:9 aspect ratio perfect for meeting room collaboration and optimized for Microsoft Teams Rooms and Front Row.

Advanced Touchscreen Performance

ViewBoard IFP63 Interactive Displays

Taking notes, capturing ideas and sharing concepts during team huddles or brainstorming sessions can be difficult without the proper tools. With the ViewBoard IFP63 series of interactive displays, collaboration becomes seamless and intuitive thanks to responsive and accurate PCAP touchscreens that deliver an incredibly smooth writing experience.

Big-Screen Presentations for Training Rooms and Auditoriums

Direct View LED Displays

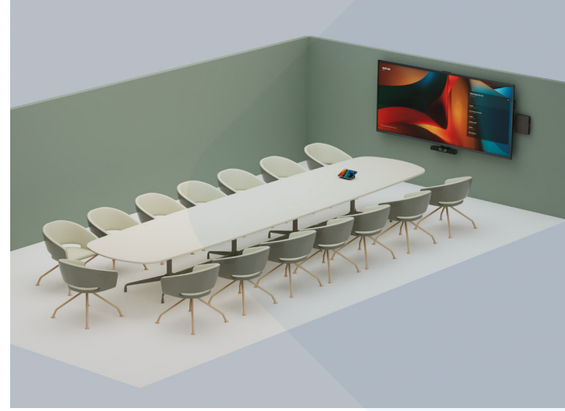

Seeing is believing with ViewSonic's innovative all-in-one Direct View LED displays. Unlike traditional video walls, our Direct View LED displays boast jaw-dropping screen sizes in standard aspect ratios, as well as configurable options to fit your specific space and needs. These bright displays make a sizable impression in any corporate lobby, training room or auditorium, boasting seamless and stunning video wall images.

Bright and Versatile for any Meeting Space

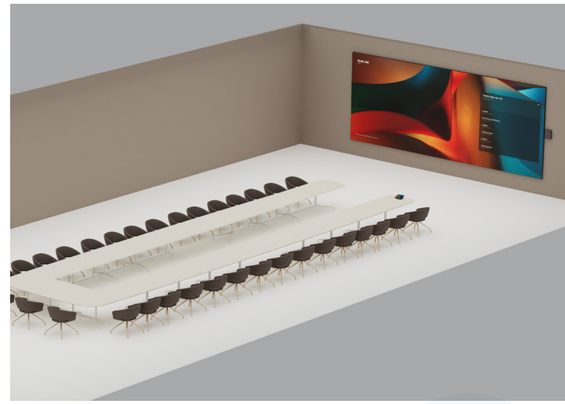

Projection Solutions

ViewSonic projection solutions are designed to be flexible for a variety of meeting space environments.

Featuring the latest laser phosphor technology, our LS740HD and LS740W projectors deliver 5,000 ANSI lumens of brightness to ensure crisp images even in rooms with ambient lighting. For a more cost-effective solution, our PA504W projector delivers 4,000 ANSI lumens of brightness.
