

MiVue™ SMART TRUE 4K

Drive and Park Smarter with Unmatched 4K Footage

Whether you're driving on dark roads, facing harsh sunlight, or parked at night, the MiVue™ Smart True 4K captures every detail in True 4K Ultra HD (2160P at 30 FPS) with an 8 megapixel sensor—four times the resolution of Full HD. It records number plates and street signs, clearly, day or night. Integrated Smart Parking Mode provides sentry-style 4K protection against hit-and-runs. While Extended Recording Mode doubles your video recording capacity. Share footage with EZYSHARE via Wi-Fi. Plus, there's Super MP4 Recording and get warnings for speed cameras and school zones that adjust based on your speed (the faster you're driving, the earlier the alert).
