Cleaning Solutions for...

# Laundry

Many traditional laundry chemicals can contain hazardous ingredients like phosphates, nonylphenol ethoxylates (NPEs), volatile organic compounds (VOCs), and other harsh chemicals that can be harmful to human health and the environment. Rochester Midland, however, prioritizes safe, sustainable formulations with our laundry products, distinguishing them from many conventional options. Here's how:

- Non-Toxic Ingredients
- Reduced VOCs
- Biodegradable Formulations
- Hypoallergenic & Gentle
- Safer Manufacture Process

Rochester Midland brings an innovative approach to industrial and institutional laundry care. Our products are crafted with responsibility and integrity, using ingredients sourced from sustainable resources and produced with the same environmental care we uphold daily.

## HIGH-EFFICIENCY FORMULATIONS

Rochester Midland's laundry products are high-efficiency formulations designed to complement other environmentally smart practices, including:

- Using high-efficiency equipment
- Implementing automatic dispensing systems
- Reducing wash cycle times
- Increasing the use of ozone injection systems

These sustainable solutions work best when paired with effective laundry practices, such as:

- Proper collection & handling
- Sorting
- Pre-spotting
- Tailored chemical usage

# Elevate Your Laundry Performance

Hard working products for a complete, high-efficiency program.

\*All products compatible with HE (High-Efficiency) & Standard Washing Machines\*

**1**  
**Enviro Care Fresh Laundry Detergent**  
 All Temp, Hard Water Tolerant  
 12060845 5 gal  
 12060857 55 gal

11767914 6x1 qt  
 11767927 4x1 gal  
 11767945 5 gal  
 11767957 55 gal

# Equipment & Resources

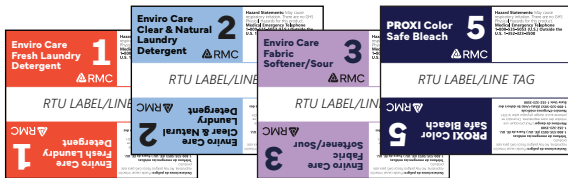

## EvoClean Dispenser

The EvoClean is a low maintenance, programmable water-powered laundry unit with an integrated control system for one to four products, plus a built-in flush manifold, out-of-product alarm, and optional remote formula selection.

1-4 Product Dispenser: 35851200

## Line Tags/RTU Labels

Color and number coded labels for laundry lines and tubes that clearly identify the correct product, and can also be used as RTU labels when repackaging into secondary containers.

## Laundry Washing Procedures Wall Chart

Multilingual wall chart that reinforces laundry process basics to help standardize procedures and ensure consistent results.

**Drum Pump**  
Manual drum pump for 55 gal barrels.  
Product Code: 30258000

**Pail & Gallon Pump**  
Manual pump for pails and gallon jugs.  
Product Code: 35717100
