

Large Format Trimmers

Professional Rotary Series

Rotary Trimmers are the new generation of paper cutters. Designed for safety and accuracy, the cutting blades are encased in a plastic housing that virtually eliminates the chance of injury. The rotary action of these trimmers allows the blade to cut in either direction and sharpen itself as it cuts. It's this self-sharpening action that produces a clean burr-free cut and guarantees many years of smooth, precise cutting.

Dahle now offers a line of large format rotary trimmers designed for performance and accuracy. This Professional Series offers a cutting capacity of up to 14 sheets (model 556 S) or 12 sheets (model 558 S) of paper at a time. These commer-

cial grade trimmers feature a self sharpening blade and automatic clamping system to securely hold your work in place. A metal stand with paper catch offers a stable and secure mounting solution for the trimmer. This stand also maximizes floor space while providing an optimal and comfortable height for trimming. This trimmer is the perfect solution for cutting oversize paper, large format images, and press sheets.

Dahle Professional Series large format rotary trimmers are available in 37 3/4" and 51 1/8" cutting lengths. They are the preferred choice among professional photographers, print shops, and graphic design agencies.

Features

- Blade is encased in protective housing
- Cuts up to 14 sheets of paper at a time (556 S)
- Self sharpening blade cuts in both directions
- Automatic paper clamp holds work securely
- Sturdy metal base with preprinted guides
- Includes stand for optimal trimming height
- Imprinted protractor for angled cuts
- German Engineered for precision & accuracy

Features a ground self-sharpening rotary blade that cuts in either direction.

Automatic clamp holds work securely and prevents shifting while trimming.

Large Format Trimmers

472 S Premium Rotary Trimmer

Dahle's 472S Premium Rotary Trimmer offers six feet of superior cutting performance. It features all the benefits you'd expect from our Premium Series, along with a sturdy metal stand and paper catch. This stand is set at the perfect height for trimming, and is ideal for those with limited work space.

The Dahle 472 S is a German Engineered commercial grade tool, with the ability to cleanly cut oversize banners, mat board, and fine art paper with the highest level of accuracy. It features a ground rotary blade, and a self-sharpening cutting system that cuts and sharpens in either direction. This action maintains the blade's precision graduated edge, allowing it to remove even the tiniest sliver of paper, and produce a clean, burr free cut – each and every time.

As with all Dahle products, safety is at the forefront of design. To keep hands in the safe zone, the trimmer's blade is almost entirely enclosed – which virtually eliminates the chance of injury. Holding your work securely is no longer necessary. The integrated, automatic clamping system provides even pressure, and prevents your work from shifting. For measuring, this base contains carefully screened guides, and an adjustable backstop – which is the easiest way to ensure consistent accuracy during repetitive cutting.

The included metal stand (Dahle 799) offers a stable base for this six foot trimmer. The Dahle 472 S Premium Rotary Trimmer is the preferred choice among professional photographers, sign makers, and print & copy shops.

Features

- Cuts up to 12 sheets of paper at a time
