

In the box

- SN550 Compute Node
- Printed documentation

If any item is missing or damaged, contact your place of purchase. Ensure that you retain your proof of purchase. They might be required to receive warranty service.

First glance

Front view: Two 2.5-inch hot-swap HDD or SSD compute node model

1 USB 3.0 connector	5 Power button/LED (green)
2 KVM connector	6 Identification LED
3 Drive activity LED (green)	7 Fault LED (yellow)
4 Drive status LED (yellow)	8 USB management button

Setting up the system

1. Install the required compute node components.
2. Install the compute node into the chassis.
3. Make sure the chassis is connected to power.
4. Connect the management controller to the network.
5. Power on the compute node.
6. Configure the system.

For detailed information about installing hardware options and configuring the system, see the following website:

<http://thinksystem.lenovofiles.com/help/topic/7X16/introduction.html>

Technical specifications

Dimensions and weight

- Height: 55.5 mm (2.2 inches)
- Depth: 492.7 mm (19.4 inches)
- Width: 215.5 mm (8.5 inches)
- Weight:
 - Minimum: 4.7 kg (10.4 lbs)
 - Maximum: 7.0 kg (15.5 lbs)

Processor

Your compute node comes with the following processor:

- Intel Xeon®

Memory

- Minimum: 8 GB
- Maximum:
 - 6.9 TB (with DC Persistent Memory Module)
- Type:
 - DDR4 RDIMM, LRDIMM, and 3DS RDIMM
 - DC Persistent Memory Module (DCPMM)
- Slots: 24 DIMM slots that support up to 12 DCPMMs

Storage

- Supports up to two 2.5-inch drive bays
- Supported drives:
 - SAS/SATA hot-swap hard disk drives/solid-state drives
 - NVMe solid-state drives

Networking

- Supports up to two I/O adapter slots for connecting to chassis switch bays
