

Poly Sync 10 USB-A USB-C Speakerphone (772C3AA)

Instant conference room

Turn your home office into a conference room. The all-in-one Poly Sync 10 USB speakerphone delivers high-quality audio that's great for voice and music. Its two-microphone array reduces surrounding noise for better conference calls.

Simple to use

User-friendly, worry-free operation for the confidence of knowing your calls will go smoothly. Easy-to-use touch-sensitive controls, clear LED indicators, and clear, bright call status light bar.

Hear and be heard

Dynamic audio that makes conference calls seamless and clear. A two-microphone array keeps surrounding noise out of your call. And full-duplex audio enables simultaneous conversations so everyone on the call can be heard.

Works the way you do

Durable and space saving, this IP64 dust- and water-resistant speakerphone fits your workstyle. Use your favorite collaboration apps without hassle and free up table space with its slim, dynamic design.

Featuring

Two-microphone array

Experience conference calls with outside noise and distractions tuned out. A two-microphone array focuses on your voice — not the surrounding noise.

Full-duplex audio

Collaboration gets tough when one voice dominates the conversation. Full-duplex audio makes simultaneous conversations a breeze.

Touch-sensitive controls

It's easy to spot and control your call status directly on the device. Stay in control with easy-to-use, touch-sensitive controls and a clear LED indicator.

Dust-and-water resistant

Accidents happen — especially on the go. That's why durability is top of mind. Protect your investment from real-life hazards with a device that's IP64 dust and water-resistant.

Powered by USB connection

Don't let your calls get cut short because of a drained battery. The Poly Sync 10 is powered by USB connection to keep the conversation going.
