WHAT IS FRAME TO FURNITURE?

WHERE FUNCTIONALITY
MEETS DESIGN

OVERVIEW

Frame to Furniture is Middle Atlantic’s hallmark furniture design and integration solution drawing on four decades of market-leading expertise in supporting and protecting audiovisual systems.

BUILT TO LAST

The Frame to Furniture approach protects your investment by providing system longevity. The built in passive or active thermal management and cable management ensures consistent system uptime. The removable wood kit means that if a panel gets damaged, the room gets updated or you just want a new finish, simply order a different wood kit to replace the previous one without disturbing the already installed equipment.

HOW IT WORKS

The majority of our collaboration furniture is built around a robust steel frame to properly support AV systems and then is concealed by the wood kit, elegantly hiding the AV system in plain sight.

The frame is delivered first to allow for unobstructed integration of the system and prevent any accidental on-site damage to the wood. The frame provides proper thermal and cable management for maximum uptime of the equipment inside. The wood arrives shortly after and completely conceals the system in the environment.

SEAMLESS WORKFLOW

We understand the integration and commissioning workflow of an AV system to get a room up and running in a timely manner. Our limitless options for wood kits meet the aesthetic requirements of any space and are designed to be easily installed once the system is in place.

INSPIRATIONAL LEARNING SPACES

INSPIRE

INSPIRE

- Flexible lecterns that enhance & simplify the educator's experience with technology
- Broad range of solutions for a variety of education environments, from lecture halls to classrooms and everything in between
- Multitude of finish options available to complement any learning environment, traditional to contemporary
- Pre-configured and custom lectern solutions available to meet any need

L7 SERIES

LEARNING SPACES

THE MOST ELEGANT SOLUTION IN HEIGHT ADJUSTABILITY

L7 LECTERNS

Innovative modern, height-adjustable ADA compliant design, available in two elegant finishes that complement most modern learning environments. L7 Lecterns enhance educator comfort while supporting modern education technologies to create innovative learning environments. Lectern frame + woodkit ship fully assembled for easy of installation and integration, with support for Crestron 760 & 1060 touchscreens for room control; and with integrated power, cable & thermal management to ensure ultimate system reliability.

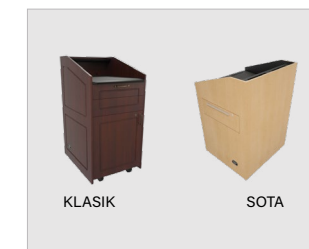

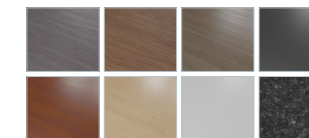

L5 SERIES

LEARNING SPACES

OUR MOST FLEXIBLE SOLUTION IN DESIGN AND STORAGE
TO MAKE IT PERFECT IN ANY SPACE.

L5 LECTERNS

The L5 Series accentuates the latest trends in room aesthetics with stylish designs and finishing options, but is still built around the industry's most trusted rack. Flexibility in sizing, finishes, and options to make sure you get the perfect lectern. Choose from our two design collections or have your own created with the Woodworker's Kit. Frames are stocked for quick delivery allowing the integrator to immediately start the installation.

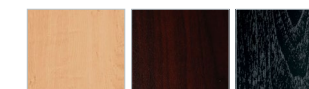

L2 SERIES

LEARNING SPACES

THE ONLY BUDGET FRIENDLY LECTERN SOLUTION THAT
DELIVERS SUPPORT AND SECURITY FOR AV SYSTEMS

L2 LECTERNS

The L2 Series is the only budget friendly lectern solution that delivers support and security for AV systems, complete with a patented rack, thermal and cable management, and connectivity. The 12RU removable rack boasts a tool free experience for easy access to rear connections or removal for simple servicing, yet locks in place for transportation and usage. Sleek Sota style with a durable melamine finish for an attractive mobile solution to house AV equipment. Simplified selection of easy-to-order, pre-configured models available in 3 popular colors knotted maple, grained dark cherry and grained ebony ash.

COLLABORATE

INNOVATIVE COLLABORATION SPACES

COLLABORATE

- Flexible meeting space furniture solutions to enhance conferencing and collaboration technologies and experiences
- Broad range of tables, technology support and storage solutions to enhance any meeting environment, from board room to huddle space
- Multitude of styles and finish options to complement meeting environments for holistic design and integration of AV technologies

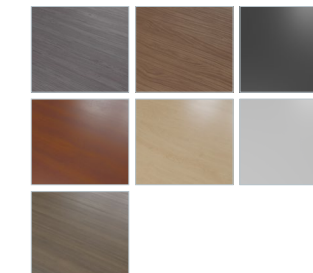

C5 SERIES

CONFERENCE & COLLABORATION SPACES

THE MOST VERSATILE MEETING
SPACE STORAGE SOLUTION

C5 CREDENZAS

The C5 credenza is available in three styles and a wide variety of furniture finishes or design your own with the C5 Woodworker's Kit. Frames are stocked for quick delivery allowing the integrator to immediately start the installation. Models available in 3 depths: 22" shallow, 27" standard and 31" deep. Each depth is available in one, two or three bays for any storage need.

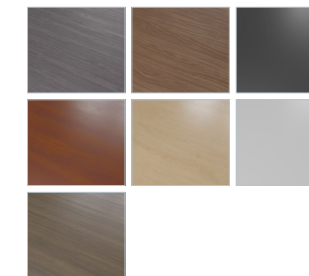

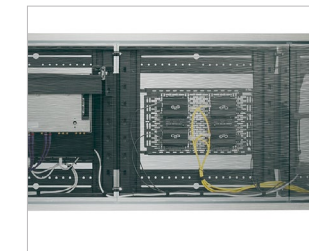

C3 SERIES

CONFERENCING & COLLABORATION SPACES

OUR SLIMMEST, MOST ELEGANT CREDENZA YET

C3 CREDENZAS

The low-profile 10" C3 Series Credenza features the series' hallmark welded steel frame designed specifically to house and protect technology in an ADA compliant low-profile design. It also features an elegant customizable wood kit with modern and classic finishes available.

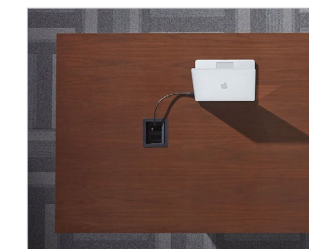

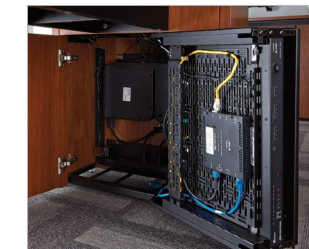

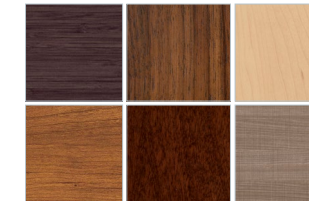

T5 SERIES

CONFERENCING & COLLABORATION SPACES

DISCREET STORAGE FOR AV GEAR WITHIN A BEAUTIFULLY DESIGNED CONFERENCE TABLE

T5 CONFERENCE TABLES

Featuring attractive styles and finishes reflective of commercial interior design trends in 8', 12' and 16' models. Each T5 includes a table top, support pedestals and a Tech Kit making it an all in one solution. Tech Kit includes: Wiremold InteGreat table boxes and HDMI cable retractors, 8 outlet power strips and a T5 Rack Kit. Patented swing-out Rack Kit allows for easy gear integration and access. The T5 features the Wiremold® InteGreat Table Boxes with retracting HDMI cables and 2 AC outlets for power and connectivity at the surface.
