Finding information about the printer 6

1. Overview

About this document

This document contains basic safety, environmental, and regulatory information for your product. Some items may not be applicable to your printer. For more information, go to https://support.xerox.com.

Additional notices, legal, and licensing information associated with this product can be found in the Notices section of the printer *User's Guide* and in the Xerox support site.

Modified versions of source code covered by the GNU Lesser General Public License (LGPL) may be obtained by contacting customer support.

Document change history

Date	Changes
June 2026	Initial document release for the following products: C240, C2432, C245, C255, C300, C303, C305, XC2432, ZC364.

Finding information about the printer

What are you looking for?	Find it here
The latest supplemental information, updates, and customer support: • Documentation • Driver downloads • Live chat support • Email support • Voice support	Go to https://www.support.xerox.com **Notes** Select your country or region, and then select your product to view the appropriate support site. Support telephone numbers and hours of operation for your country or region can be found on the support website or on the printed warranty that came with your printer. Have the following information ready when you contact customer support: • Place and date of purchase • Machine type and serial number
Warranty information	Warranty information varies by country or region: • **In the U.S.**—See the Statement of Limited Warranty included with the printer, or go to https://www.support.xerox.com. • **In other countries and regions**—See the printed warranty that came with the printer.

What are you looking for?	Find it here
Xerox product environment, health, safety, and sustainability information: • Carbon footprint • Circular economy • Chemical management -Health and safety	Go to https://www.xerox.com/en-us/about/ehs. For country- or region-specific packaging information, go to https://www.xerox.com/en-us/about/ehs/reduce-waste/packaging-and-sorting.

Safety information

This chapter contains

Conventions 9
Product statements 9

2. Safety information

Conventions

Note: A *note* identifies information that could help you.

Warning: A *warning* identifies something that could damage the product hardware or software.

WARNING (in full capitals): A *WARNING* indicates a risk of death or serious injury if not avoided.

CAUTION: A *caution* indicates a potentially hazardous situation that could injure you.

Different types of caution statements include:

	CAUTION—POTENTIAL INJURY Indicates a risk of injury.
	CAUTION—SHOCK HAZARD Indicates a risk of electrical shock.
	CAUTION—HOT SURFACE Indicates a risk of burn if touched.
	CAUTION—PINCH HAZARD Indicates a risk of being caught between moving parts.

Product statements

	CAUTION—POTENTIAL INJURY To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.
	CAUTION—POTENTIAL INJURY To avoid the risk of fire or electrical shock, use only the power cord provided with this product or the manufacturer's authorized replacement.
	CAUTION—POTENTIAL INJURY Do not use this product with extension cords, multioutlet power strips, multioutlet extenders, or UPS devices. The power capacity of these types of accessories can be easily overloaded by a laser printer and may result in a risk of fire, property damage, or poor printer performance.
	CAUTION—POTENTIAL INJURY Only a Lexmark Inline Surge Protector that is properly connected between the printer and the power cord provided with the printer may be used with this product. The use of non-Lexmark surge protection devices may result in a risk of fire, property damage, or poor printer performance.
	CAUTION—POTENTIAL INJURY To reduce the risk of fire, use only a 26 AWG or larger telecommunications (RJ-11) cord when connecting this product to the public switched telephone network. For users in Australia, the cord must be approved by the Australian Communications and Media Authority.

CAUTION—SHOCK HAZARD

To avoid the risk of electrical shock, do not place or use this product near water or wet locations.

CAUTION—SHOCK HAZARD

To avoid the risk of electrical shock, do not set up this product or make any electrical or cabling connections, such as the power cord, fax feature, or telephone, during a lightning storm.

CAUTION—POTENTIAL INJURY

Do not cut, twist, bind, crush, or place heavy objects on the power cord. Do not subject the power cord to abrasion or stress. Do not pinch the power cord between objects such as furniture and walls. If any of these things happen, a risk of fire or electrical shock results. Inspect the power cord regularly for signs of such problems. Remove the power cord from the electrical outlet before inspecting it.

CAUTION—SHOCK HAZARD

To avoid the risk of electrical shock, make sure that all external connections (such as Ethernet and telephone system connections) are properly installed in their marked plug-in ports.

CAUTION—SHOCK HAZARD

To avoid the risk of electrical shock, if you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

CAUTION—SHOCK HAZARD

To avoid the risk of electrical shock, do not use the fax feature during a lightning storm.

CAUTION—SHOCK HAZARD

To avoid the risk of electrical shock when cleaning the exterior of the printer, unplug the power cord from the electrical outlet and disconnect all cables from the printer before proceeding.

CAUTION—POTENTIAL INJURY

If the printer weight is greater than 20 kg (44 lb), then it may require two or more people to lift it safely.

CAUTION—POTENTIAL INJURY

When moving the printer, follow these guidelines to avoid personal injury or printer damage:

- Make sure that all doors and trays are closed.
- Turn off the printer, and then unplug the power cord from the electrical outlet.
- Disconnect all cords and cables from the printer.
- If the printer has separate floor-standing optional trays or output options attached to it, then disconnect them before moving the printer.
- If the printer has a caster base, then carefully roll it to the new location. Use caution when passing over thresholds and breaks in flooring.
- If the printer does not have a caster base but is configured with optional trays or output options, then remove the output options and lift the printer off the trays. Do not try to lift the printer and any options at the same time.
- Always use the handholds on the printer to lift it.
- Any cart used to move the printer must have a surface able to support the full footprint of the printer.

- Any cart used to move the hardware options must have a surface able to support the dimensions of the options.
- Keep the printer in an upright position.
- Avoid severe jarring movements.
- Make sure that your fingers are not under the printer when you set it down.
- Make sure that there is adequate clearance around the printer.

CAUTION—HOT SURFACE

The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

CAUTION—PINCH HAZARD

To avoid the risk of a pinch injury, use caution in areas marked with this label. Pinch injuries may occur around moving parts, such as gears, doors, trays, and covers.

CAUTION—POTENTIAL INJURY

This product uses a laser. Use of controls or adjustments or performance of procedures other than those specified in the *User's Guide* may result in hazardous radiation exposure.

CAUTION—POTENTIAL INJURY

Do not use aerosol cleaners. Aerosol cleaners can cause explosions or fires when used on electromechanical equipment.

CAUTION—POTENTIAL INJURY

When handling cartridges, for example toner cartridges, avoid skin and eye contact. Eye contact with toner can cause irritation and inflammation. Do not attempt to disassemble the cartridge, which can increase the risk of skin or eye contact.

CAUTION—POTENTIAL INJURY

The lithium battery in this product is not intended to be replaced. There is a danger of explosion if a lithium battery is incorrectly replaced. Do not recharge, disassemble, or incinerate a lithium battery. Discard used lithium batteries according to the manufacturer's instructions and local regulations.

WARNING

- **INGESTION HAZARD**: This product contains a button cell or coin battery.
- **DEATH** or serious injury can occur if ingested.
- A swallowed button cell or coin battery can cause **Internal Chemical Burns** in as little as **2 hours**.
- **KEEP** new and used batteries **OUT OF REACH of CHILDREN**.
- **Seek immediate medical attention** if a battery is suspected to be swallowed or inserted inside any part of the body.

Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do not dispose of batteries in household trash or incinerate. Even used batteries may cause severe injury or death. Call a local poison control center for treatment information.
Battery type: MS621
Nominal battery voltage: 3V

Do not force discharge, recharge, disassemble, heat above 60°C (140°F), or incinerate. Doing so may result in injury due to venting, leakage, or explosion resulting in chemical burns.
For the latest battery information, go to https://www.xerox.com/downloads/usa/en/e/environment_batterydirectivematrix.pdf.
This product is designed, tested, and approved to meet strict global safety standards with the use of specific manufacturer's components. The safety features of some parts may not always be obvious. The manufacturer is not responsible for the use of other replacement parts.
Refer service or repairs, other than those described in the user documentation, to a service representative.
SAVE THESE INSTRUCTIONS.

Specifications

This chapter contains

Power requirements 14
Product power consumption 14
Sleep Mode 14
Hibernate Mode 14
Off mode 15
Total energy usage 15
Información de la energía de México 15

3. Specifications

Power requirements

The following nominal voltage ranges are supported in applicable countries or regions: 100–110 V / 50Hz, 110–127 V / 60Hz, and 220–240 V / 50Hz (not dual-voltage).

Product power consumption

The following table documents the power consumption characteristics of the product in watts (W).

Note: Some modes may not apply to your product.

Model	Operating mode						
	Print	Copy	Scan	Ready	Sleep	Hibernate	Off
C240	398 W	N/A	N/A	14.5 W	0.76 W	0.1 W	0.1 W
C2432, C300	432 W	N/A	N/A	14.5 W	0.81 W	0.1 W	0.1 W
C245, C255	386 W	392 W	27.6 W	15.1 W	0.77 W	0.1 W	0.1 W
C303	436 W	381 W	28.0 W	16.4 W	0.80 W	0.1 W	0.1 W
C305, XC2432, ZC364	432 W	394 W	27.1 W	17.5 W	0.78 W	0.1 W	0.1 W

The power consumption levels listed in the previous table represent time-averaged measurements. Instantaneous power draws may be substantially higher than the average. Values are subject to change.

Go to www.xerox.com for current values.

Sleep Mode

This product is designed with an energy-saving mode called **Sleep Mode**. The Sleep Mode saves energy by lowering power consumption during extended periods of inactivity. The Sleep Mode is automatically engaged after this product is not used for a specified period of time, called the **Sleep Mode Timeout**.

Factory default Sleep Mode Timeout for this product (in minutes):	15

By using the configuration menus, the Sleep Mode Timeout can be modified between 1 minute and 120 minutes, or between 1 minute and 114 minutes, depending on the printer model. If the printer speed is less than or equal to 30 pages per minute, then you can set the timeout only up to 60 minutes or 54 minutes, depending on the printer model. Setting the Sleep Mode Timeout to a low value reduces energy consumption, but may increase the response time of the product. Setting the Sleep Mode Timeout to a high value maintains a fast response, but uses more energy.
Some models support a **Deep Sleep Mode**, which further reduces power consumption after longer periods of inactivity.

Hibernate Mode

This product is designed with an ultra-low power operating mode called **Hibernate mode**. When operating in Hibernate Mode, all other systems and devices are powered down safely.

The Hibernate mode can be entered in any of the following methods:

- Using the Hibernate Timeout
- Using the Schedule Power modes

Factory default Hibernate Timeout for this product in all countries or regions	3 days

The amount of time the printer waits after a job is printed before it enters Hibernate mode can be modified between one hour and one month.

Notes on EPEAT-registered imaging equipment products:

- Standby power level occurs in Hibernate or Off mode.
- The product shall automatically power down to a standby power level of ≤ 1 W. The auto standby function (Hibernate or Off) shall be enabled at product shipment.

Off mode

If this product has an off mode which still consumes a small amount of power, then to completely stop product power consumption, disconnect the power supply cord from the electrical outlet.

Total energy usage

It is sometimes helpful to estimate the total product energy usage. Since power consumption claims are provided in power units of Watts, the power consumption should be multiplied by the time the product spends in each mode in order to calculate energy usage. The total product energy usage is the sum of each mode's energy usage.

Información de la energía de México

Modelo	Consumo de energía en operación	Consumo de energía en modo de espera	Cantidad de producto por unidad de energía consumida
C240	398 Wh	0.1 Wh	3.92 páginas/Wh
C2432, C300	432 Wh	0.1 Wh	4.44 páginas/Wh
C245, C255	392 Wh	0.1 Wh	3.98 páginas/Wh
C303	436 Wh	0.1 Wh	4.40 páginas/Wh
C305, XC2432, ZC364	432 Wh	0.1 Wh	4.44 páginas/Wh

4. Environment and sustainability notices

Waste from Electrical and Electronic Equipment (WEEE) directive

The WEEE logo signifies specific recycling programs and procedures for electronic products in countries of the European Union. We encourage the recycling of our products.

If you have further questions about recycling options, visit the Xerox website at www.xerox.com for your local sales office phone number.

India E-Waste notice

This product including components, consumables, parts and spares complies with the "India E-Waste Rules" and prohibits use of lead, mercury, hexavalent chromium, polybrominated biphenyls or polybrominated diphenyl ethers in concentrations exceeding 0.1 % by weight and 0.01 % by weight for cadmium, except for the exemption set in the Rule.

Lithium-ion rechargeable battery

This product may contain a coin-cell, lithium-ion rechargeable battery, which should only be removed by a trained technician. Crossed-out wheelie bin means the product should not be discarded as unsorted waste but must be sent to separate collection facilities for recovery and recycling. In the event the battery is removed, do not dispose of the battery in your household waste. There may be separate collection systems for batteries in your local community, such as a battery-recycling drop-off location. The separate collection of waste batteries assures appropriate treatment of waste including reuse and recycling and prevents any potential negative effects on human health and environment. Please responsibly dispose of the batteries.

Regulation (EU) 2023/1542

This product may contain a coin-cell lithium rechargeable battery. This battery complies with Regulation (EU) 2023/1542. Compliance is indicated by the CE marking:

This product may contain one of the following coin-cell batteries:

- Battery identification: Seiko Model Number MS621FE
  Manufacturer: Seiko Instruments Inc.
  Manufacturer address: 8, Nakase 1-chome, Mihama-ku, Chiba-shi, Chiba 261-8507, Japan
- Battery identification: Panasonic Model Number ML621
  Manufacturer: Panasonic Energy Co., Ltd.
  Manufacturer address: 1-1 Matsushita-cho, Moriguchi City, Osaka 570-8511, Japan
- Battery identification: FDK Model Number ML621
  Manufacturer: FDK Corporation
  Manufacturer address: Shibaura Crystal Shinagawa, 1-6-41 Konan, Minato-ku, Tokyo 108-8212 Japan

For the latest battery information, go to https://www.xerox.com/downloads/usa/en/e/environment_batterydirectivematrix.pdf.

WEEE (Turkey)

Türkiye Cumhuriyeti: AEEE Yönetmeliğine Uygundur.

Environmental labeling for packaging

Per Commission Regulation Decision 97/129/EC Legislative Decree 152/2006, the product packaging may contain one or more of the following symbols.

	This symbol indicates that the packaging may contain corrugated fiberboard.
	This symbol indicates that the packaging may contain non-corrugated fiberboard.
	This symbol indicates that the packaging may contain paper.

For more information, go to www.xerox.com/en-us/about/ehs/reduce-waste/packaging-and-sorting, and then choose your country or region. Information on available packaging recycling programs is included with the information on product recycling.

Product disposal

Do not dispose of the printer or supplies in the same manner as normal household waste. Consult your local authorities for disposal and recycling options.

Returning Xerox supplies for reuse or recycling

The Xerox Cartridge Collection Program allows you to return used cartridges and other used supplies for free to Xerox for reuse or recycling.
To return Xerox cartridges for reuse or recycling, do the following:

1. Go to www.xerox.com/recycling.
2. Select your country or region.
3. Follow the instructions on the screen.

Using genuine Xerox supplies

Your Xerox printer is designed to function best with genuine Xerox supplies. Use of third-party supplies can affect the performance, reliability, or life of the printer and its imaging components. It can also affect warranty coverage. Damage caused by the use of third-party supplies is not covered by the warranty.

All life indicators are designed to function with Xerox supplies and can deliver unpredictable results if third-party supplies are used. Imaging component usage beyond the intended life can damage your Xerox printer or associated components.

Warning—Potential Damage

Supplies without Return Program agreement terms can be reset and remanufactured. However, the manufacturer's warranty does not cover any damage caused by non-genuine supplies. Resetting counters on the supply without proper remanufacturing can cause damage to your printer. After resetting the supply counter, your printer may display an error indicating the presence of the reset item.

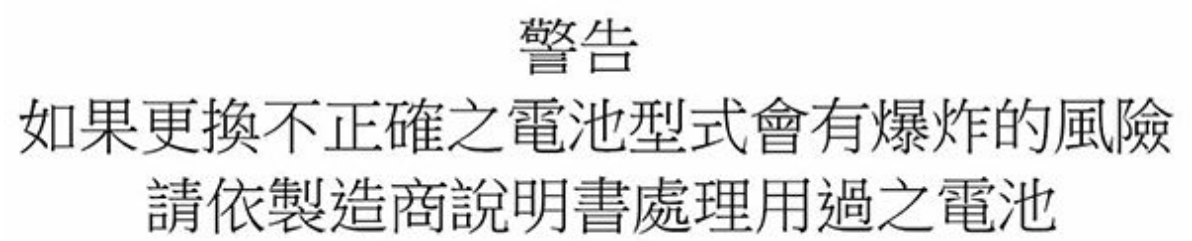

環境保護署廢乾電池回收標誌注意事項

依環境保護署公告之廢棄物清理法第十五條應負回收、清除、處理責任之乾電池製造或輸入業者，乾電池裝配於物品中，且隨該物品銷售、贈送或促銷予消費者，得於該物品之個包裝、標籤或說明書上，標示回收標誌及回收標誌相鄰處說明「廢電池請回收」字樣。廢乾電池之回收標誌圖樣及回收標誌相鄰處說明字樣如下所示。請您將廢棄之乾電池送到標示可提供廢電池回收的廠商以提供正確的廢電池處理方法。

廢電池請回收

經濟部標準檢驗局 (BSMI) 電池聲明

BSMI RoHS information 限用物質含有情況標示

適用於印表機、雷射印表機、多功能複合機或多功能印表機。
Applies to Printer, Laser Printer, Multifunction Machine, or Multifunction Printer.
型號（型式）：請參閱「注意事項」章節或「控管資訊」章節。
Type designation (Type): Please see the "Notices" section or the "Regulatory information" section.

Notices for fax products

This chapter contains

Regulatory notices for telecommunication terminal equipment 25
Notice to users of the US telephone network: FCC requirements 25
Notice to users of the Canadian telephone network 26
Notice to users of the New Zealand telephone network 26
Japanese telecom notice 26
Verwendung dieses Produkts in Deutschland 27
Using this product in Switzerland 27

5. Notices for fax products

Regulatory notices for telecommunication terminal equipment

This section contains regulatory information pertaining to products that contain an analog facsimile card.

To determine if your product contains facsimile capability, see the *User's Guide* or go to https://support.xerox.com.

Notice to users of the US telephone network: FCC requirements

This equipment complies with Part 68 of the FCC rules and the requirements adopted by the Administrative Council for Terminal Attachments (ACTA). On the back of this equipment is a label that contains, among other information, a product identifier in the format US:AAAEQ##TXXXX. If requested, this number must be provided to your telephone company.
This equipment uses the RJ-11C Universal Service Order Code (USOC) jack.
A plug and jack used to connect this equipment to the premises' wiring and telephone network must comply with the applicable FCC Part 68 rules and requirements adopted by the ACTA. Use a compliant telephone cord (RJ-11) that is 26 AWG or larger when connecting this product to the public switched telephone network. See your setup documentation for more information.
The Ringer Equivalence Number (REN) is used to determine the number of devices that may be connected to a telephone line. Excessive RENs on a telephone line may result in the devices not ringing in response to an incoming call. In most but not all areas, the sum of RENs should not exceed five (5.0). To be certain of the number of devices that may be connected to a line, as determined by the total RENs, contact your local telephone company. For products approved after July 23, 2001, the REN for this product is part of the product identifier that has the format US:AAAEQ##TXXXX. The digits represented by ## are the REN without a decimal point (for example, 03 is a REN of 0.3). For earlier products, the REN is shown separately on the label.
If this equipment causes harm to the telephone network, the telephone company will notify you in advance that temporary discontinuance of service may be required. If advance notice is not practical, the telephone company will notify the customer as soon as possible. You will also be advised of your right to file a complaint with the FCC.
The telephone company may make changes in its facilities, equipment, operations or procedures that could affect the operation of this equipment. If this happens, the telephone company will provide advance notice in order for you to make necessary modifications to maintain uninterrupted service.
If you experience trouble with this equipment, for repair or warranty information, contact Xerox Corporation at www.xerox.com or your Xerox representative. If the equipment is causing harm to the telephone network, the telephone company may request that you disconnect the equipment until the problem is resolved.
This equipment contains no user serviceable parts. For repair and warranty information, contact Xerox Corporation. See the previous paragraph for contact information.
Connection to party line service is subject to state tariffs. Contact the state public utility commission, public service commission, or corporation commission for information.
If your home has specially wired alarm equipment connected to the telephone line, ensure the installation of this equipment does not disable your alarm equipment. If you have questions about what will disable alarm equipment, consult your telephone company or a qualified installer.
The Telephone Consumer Protection Act of 1991 makes it unlawful for any person to use a computer or other electronic device, including fax machines, to send any message unless said message clearly contains in a margin at the top or bottom of each transmitted page or on the first page of the transmission, the date and time it is sent and an identification of the business or other entity, or other individual sending the message, and the telephone number of the sending machine or such business, other entity, or individual. (The telephone number provided may not be a 900 number or any other number for which charges exceed local or long-distance transmission charges.)
See your user documentation in order to program this information into your fax machine.

Notice to users of the Canadian telephone network

This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.
The Ringer Equivalence Number (REN) indicates the maximum number of devices allowed to be connected to a telephone interface. The termination of an interface may consist of any combination of devices subject only to the requirement that the sum of the RENs of all the devices not exceed five. The REN is located on the product label.
This equipment uses CA11A telephone jacks.

AVIS RÉSERVÉ AUX UTILISATEURS DU RÉSEAU TÉLÉPHONIQUE DU CANADA

Ce produit est conforme aux spécifications techniques d'Innovation, Sciences et Développement économique Canada.

Le numéro REN (ringer equivalence number : numéro d'équivalence de sonnerie) indique le nombre maximum d'appareils pouvant être connectés à l'interface téléphonique. En bout de ligne, le nombre d'appareils qui peuvent être connectés n'est pas directement limité, mais la somme des REN de ces appareils ne doit pas dépasser cinq. Le numéro REN est indiqué sur l'étiquette produit.

Cet équipement utilise des prises de téléphone CA11A.

Notice to users of the New Zealand telephone network

The following are special conditions for the Facsimile User Instructions. The grant of a telepermit for any item of terminal equipment indicates only that Spark has accepted that the item complies with minimum conditions for connection to its network. It indicates no endorsement of the product by Spark, nor does it provide any sort of warranty. Above all, it provides no assurance that any item will work correctly in all respects with another item of telepermitted equipment of a different make or model, nor does it imply that any product is compatible with all of Spark's network services.
This equipment shall not be set up to make automatic calls to the Spark "111" Emergency Service.
This equipment may not provide for the effective hand-over of a call to another device connected to the same line.
This equipment should not be used under any circumstances that may constitute a nuisance to other Spark customers.
This equipment is not capable, under all operating conditions, of correct operation at the higher speeds for which it is designed. Spark will accept no responsibility should difficulties arise in such circumstances.
The decadic (or pulse) dialing on this device is unsuitable for use on the Spark network in New Zealand.
For correct operation, the total of all the Ringer Equivalence Numbers (RENs) of all parallel devices connected to the same telephone line may not exceed 5. The REN of this device is located on the label.
This device uses an RJ-11C modular connector. Contact your point of purchase if a BT adapter is required.
The Lexmark part number is 80D1873.
Some parameters required for compliance with Spark's telepermit requirements are dependent on the equipment associated with this device. The associated equipment shall be set to operate within the following limits for compliance to Spark's specifications:

- There shall be no more than 10 call attempts to the same number within any 30 minute period for any single manual call initiation, and
- The equipment shall go on-hook for a period of not less than 30 seconds between the end of one attempt and the beginning of the next call attempt.
- The equipment shall be set to ensure that automatic calls to different numbers are spaced such that there is not less than 5 seconds between the end of one call attempt and the beginning of another.

Japanese telecom notice

The installed optional modem is in compliance with Japanese Telecommunication Law and has been certified by JATE, with the following Certification Number:

	Lexmark International, Inc.

Product name	Lexmark regulatory type/ model number of the installed fax card	Certification number
C245, C255, C303, C305, XC2432, ZC364	LEX-M14-002 or LEX-M03-002	A18-0046001 or A11-0160001JP

Verwendung dieses Produkts in Deutschland

Für dieses Produkt muss ein deutscher Billing Tone Filter zur Zählzeichenübertragung (Lexmark Teilenummer 80D1888) für jede Leitung installiert werden, über die in Deutschland Zeitsteuertakte übertragen werden. Zeitsteuertakte sind in analogen Leitungen in Deutschland möglicherweise nicht vorhanden. Der Teilnehmer kann die Bereitstellung von Zeitsteuertakten veranlassen oder beim deutschen Netzanbieter telefonisch deren Deaktivierung beantragen. Im Regelfall werden Zeitsteuertakte nur dann bereitgestellt, wenn dies vom Teilnehmer bei der Installation ausdrücklich erwünscht wird.

Using this product in Switzerland

This product requires a Swiss billing tone filter (Lexmark part number 80D1877) to be installed on any line which receives metering pulses in Switzerland.

UTILISATION DE CE PRODUIT EN SUISSE

Cet appareil nécessite l'utilisation d'un filtre de tonalité de facturation suisse (n° de référence Lexmark : 80D1877) devant être installé sur toute ligne recevant des impulsions de comptage en Suisse.

VERWENDUNG DIESES PRODUKTS IN DER SCHWEIZ

Für dieses Produkt muss ein schweizerischer Billing Tone Filter zur Zählzeichenübertragung (Lexmark Teilenummer 80D1877) für jede Leitung installiert werden, über die in der Schweiz Zeitsteuertakte übertragen werden.

USO DEL PRODOTTO IN SVIZZERA

Questo prodotto richiede un filtro toni Billing svizzero, (codice Lexmark 80D1877) da installare su tutte le linee che ricevono impulsi remoti in Svizzera.

6. Notices for wireless products

Regulatory notices for wireless products

This section contains regulatory information that applies only to wireless models.
If in doubt as to whether your model is a wireless model, go to https://support.xerox.com/.

Modular component notice

Wireless models contain one of the following modular components:
Lexmark Regulatory Type/Model Number LEX-M08-001; FCC ID:IYLLEXM08001; IC:2376A-LEXM08001
AzureWave Technologies, Inc. Model: AW-CM276NF; FCC ID:TLZ-CM276NF; IC:6100A-CM276NF
AzureWave Technologies, Inc. Model: AW-CM467-SUR; FCC ID:TLZ-CM467; IC:6100A-CM467
To determine which modular components are installed in your particular product, refer to the labeling on your actual product.

Exposure to radio frequency radiation

The radiated output power of this device is far below the radio frequency exposure limits of the FCC and other regulatory agencies. A minimum separation of 20 cm (8 inches) must be maintained between the antenna and any persons for this device to satisfy the RF exposure requirements of the FCC and other regulatory agencies.

Innovation, Science and Economic Development Canada

This device complies with Innovation, Science and Economic Development Canada license-exempt RSS standards. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

INNOVATION, SCIENCES ET DÉVELOPPEMENT ÉCONOMIQUE CANADA

Cet appareil est conforme aux normes RSS exemptes de licence d'Innovation, Sciences et Développement économique Canada. Son fonctionnement est soumis aux deux conditions suivantes : (1) cet appareil ne doit pas causer d'interférences et (2) il doit accepter toutes les interférences, y compris les celles qui peuvent entraîner un fonctionnement indésirable.

Para su uso en México

La operación de este equipo está sujeta a las siguientes dos condiciones: (1) es posible que este equipo o dispositivo no cause interferencia perjudicial y (2) este equipo o dispositivo debe aceptar cualquier interferencia, incluyendo la que pueda causar su operación no deseada.

European Community (EC) directives conformity

This product is in conformity with the protection requirements of EC Council directive 2014/53/EU on the approximation and harmonization of the laws of the Member States relating to radio equipment.
A declaration of conformity to the requirements of the Directives is available upon request from the Manufacturer or may be obtained at https://safetysheets.business.xerox.com/.
Compliance is indicated by the CE marking:

RESTRICTIONS

This radio equipment is restricted to indoor use only. Outdoor use is prohibited. This restriction applies to all the countries listed in the table below:

AT	BE	BG	CH	CY	CZ	DE	DK	EE
EL	ES	FI	FR	HR	HU	IE	IS	IT
LI	LT	LU	LV	MT	NL	NO	PL	PT
RO	SE	SI	SK	TR	UK (NI)			

EU AND OTHER COUNTRIES STATEMENT OF RADIO TRANSMITTER OPERATIONAL FREQUENCY BANDS AND MAXIMUM RF POWER

This radio product transmits in either the 2.4GHz (2.412–2.472GHz in the EU) or 5GHz (5.15–5.35, 5.47–5.725GHz in the EU) bands. The maximum transmitter EIRP power output, including antenna gain, is ≤ 20dBm for both bands.

United Kingdom (UK) conformity

This product is in conformity with the protection requirements of the Radio Equipment Regulations 2017. A declaration of conformity is available upon request from the UK Importer or may be obtained at https://safetysheets.business.xerox.com.
Compliance is indicated by the UKCA marking:

UKCA

RESTRICTIONS OR REQUIREMENTS IN THE UK

This radio equipment is restricted to indoor use only. Outdoor use is prohibited.

UK STATEMENT OF RADIO TRANSMITTER OPERATIONAL FREQUENCY BANDS AND MAXIMUM RF POWER

This radio product transmits in either the 2.4GHz (2.412–2.472 GHz in the UK) or 5GHz (5.15–5.35, 5.47–5.725 in the UK) bands. The maximum transmitter EIRP power output, including antenna gain, is ≤ 20dBm for both bands.

NCC Type Approval Devices Notice

Low-power Radio-frequency Devices Notice
NCC型式認證器材注意事項
依據低功率射頻器材技術規範
取得審驗證明之低功率射頻器材，非經核准，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。低功率射頻器材之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。前述合法通信，指依電信管理法規定作業之無線電通信。低功率射頻器材須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。
應避免影響附近雷達系統之操作。
高增益指向性天線只得應用於固定式點對點系統。

Notice to users in Thailand

ประกาศถึงผู้ใช้ในประเทศไทย

This radiocommunication equipment has the electromagnetic field strength in compliance with the Safety Standard for the Use of Radiocommunication Equipment on Human Health announced by the National Telecommunications Commission.

เครื่องวิทยุคมนาคมนี้มีระดับการแผ่คลื่นแม่เหล็กไฟฟ้าสอดคล้องตามมาตรฐาน ความปลอดภัยต่อสุขภาพของมนุษย์จากการใช้เครื่องวิทยุคมนาคมที่คณะกรรมการกิจการโทรคมนาคมแห่งชาติประกาศกำหนด

Federal Communications Commission (FCC) compliance information statement

This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
The FCC Class B limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult your point of purchase or service representative for additional suggestions.

The manufacturer is not responsible for radio or television interference caused by using other than recommended cables or by unauthorized changes or modifications to this equipment. Unauthorized changes or modifications could void the user's authority to operate this equipment.

Notes

To assure compliance with FCC regulations on electromagnetic interference for a Class B computing device, use a properly shielded and grounded cable such as Lexmark part number 1021231 for parallel attach or 1021294 for USB attach. Use of a substitute cable not properly shielded and grounded may result in a violation of FCC regulations.

Any questions regarding this compliance information statement should be directed to:
Responsible Party: Xerox Corporation

Address: 800 Phillips Road, Webster, NY 14580

Email: regulatory@lexmark.com

Innovation, Science and Economic Development Canada compliance statement

This Class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Standard ICES-003.

AVIS DE CONFORMITÉ AUX NORMES DE L'INNOVATION, SCIENCES ET DÉVELOPPEMENT ÉCONOMIQUE CANADA

Cet appareil numérique de classe B est conforme aux exigences de la norme canadienne relative aux équipements pouvant causer des interférences NMB-003.

日本の VCCI 規定

製品にこのマークが表示されている場合、次の要件を満たしています。

この装置は、クラス B 情報技術装置です。この装置は、家庭環境で使用することを目的としていますが、この装置がラジオやテレビジョン受信機に近接して使用されると、受信障害を引き起こすことがあります。

取扱説明書に従って正しい取り扱いをしてください。

VCCI-B

한국 KC 인증서

제품에 이 기호가 있는 경우 다음 문구가 적용됩니다.

B급 기기 (가정용 정보통신기기)

이 기기는 가정용으로 전자파적합등록을 한 기기로서
주거지역에서는 물론 모든 지역에서 사용할 수 있습니다.

European Community (EC) directives conformity

This product is in conformity with the protection requirements of EC Council directives 2014/30/EU, 2014/35/EU, 2009/125/EC, and 2011/65/EU as amended by (EU) 2015/863 on the approximation and harmonization of the laws of the Member States relating to electromagnetic compatibility, safety of electrical equipment designed for use within certain voltage limits, the ecodesign of energy-related products, and on the restrictions of use of certain hazardous substances in electrical and electronic equipment.
A declaration of conformity to the requirements of the Directives is available upon request from the Manufacturer or may be obtained at https://safetysheets.business.xerox.com/.
This product satisfies the Class B limits of EN 55032 and safety requirements of EN 62368-1.

United Kingdom (UK) conformity

This product is in conformity with the protection requirements of the Electromagnetic Compatibility Regulations 2016, the Electrical Equipment (Safety) Regulations 2016, the Ecodesign for Energy-Related Products and Energy Information (Amendment) (EU Exit) Regulations 2019, and the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2012.
A declaration of conformity is available upon request from the UK Importer or may be obtained at https://safetysheets.business.xerox.com.
This product satisfies the Class B limits of BS EN 55032 and safety requirements of BS EN 62368-1.

Commission Regulation (EU) 2023/826

As part of this regulation, manufacturers are required to post information about the Off modes and Network Standby (“sleep”) modes of products, including the available network connections, the power consumption in sleep mode for each connection and the default timeout to sleep mode.
To view Xerox's declarations of product sleep modes, go to https://safetysheets.business.xerox.com/.

高溫警告標籤

	此符號表示該表面或元件會發熱。 請當心：為避免被發熱表面或元件燙傷的危險，請先讓該表面或元件冷卻之後再觸摸。

Applicability of Regulation (EU) 2019/2015 and (EU) 2019/2020

Per Commission Regulation (EU) 2019/2015 and (EU) 2019/2020, the light source contained within this product or its component is intended to be used for Image Capture or Image Projection only, and is not intended for use in other applications.

The UK Product Security and Telecommunications Infrastructure Act 2022 (PSTI Act)—Summary Statement of Compliance

Xerox Corporation, 800 Phillips Road Webster, NY 14580 USA, declares that this product complies with the applicable security requirements in Schedule 1 of The Product Security and Telecommunications Infrastructure (Security Requirements for Relevant Connectable Products) Regulations 2023. The defined support period for this product is a period of five (5) years post ceasing of production, unless otherwise notified to the market by Xerox Corporation.

A copy of the Statement of Compliance is available for download at the following web page: https://safetysheets.business.xerox.com/.

The Australia Security Standard for Consumer Grade Relevant Products—Summary Statement of Compliance

Xerox Corporation, 800 Phillips Road Webster, NY 14580 USA, declares that this product complies with the applicable security requirements of Part 1 of Schedule 1 of the Cyber Security (Security Standards for Smart Devices) Rules 2025. The defined support period for this product is a period of five (5) years post ceasing of production, unless otherwise notified to the market by Xerox Corporation.

GOVERNMENT END USERS

The Software and accompanying documentation are "commercial" as defined in FAR 2.101. For civilian agencies, consistent with FAR 12.212, commercial computer software or commercial computer software documentation are licensed to the U.S. Government under the vendor's standard commercial license(s) customarily provided to the public, and the Government shall have only those rights specified in such license(s), to the extent consistent with Federal law and otherwise meeting Government needs. For Department of Defense (DoD) agencies, consistent with DFARS 227.7202-1 and 227.7202-3, commercial computer software or commercial computer software documentation are licensed to DoD under the vendor's standard commercial license(s) customarily provided to the public, and the Government shall have only the rights specified in such license(s), unless additional rights are expressly negotiated and expressly stated in the contract or an addendum.
