

# AllyCare Support

## Premium Support Services

AllyCare is a comprehensive support and maintenance service for NetAlly’s Network Tools and AirMagnet® software.

### Membership Benefits

Upgrades	Repairs	Support
Change is a constant, and whether it’s new features or functions, new industry standards, or a better way to troubleshoot, only AllyCare membership ensures your product is enabled with the latest features and enhancement software and firmware updates.	Our testers are designed for use in the toughest environments, but if damage from normal wear and tear does happen, only AllyCare membership ensures your product (including accessories) is covered by our repair service.	While our tools have earned a reputation for simplicity and ease-of-use, at some point you may need assistance with a product’s operation. Because NetAlly makes the hardware and software, our technical support experts understand how everything works and can help resolve most issues in a single conversation.

### Key Features\*

- AllyCare Advantage vs Standard Warranty**  
 By maintaining your AllyCare membership throughout the life of your product you can ensure your NetAlly handheld network tester or AirMagnet software is kept up to date with the latest features and functionality. AllyCare members receive access to all software upgrades that deliver major new features and enhancements.
- AllyCare-Enabled Product Features**  
 Only members with active AllyCare support will enjoy the additional benefits of AllyCare-enabled features, giving your NetAlly products enhanced testing and analysis capabilities.
- Repair/Replacement**  
 AllyCare members gain peace of mind from knowing that if their NetAlly tester is damaged from normal wear and tear NetAlly will repair or replace the unit, including shipping costs. *(Repairs require prior qualification troubleshooting by our Technical Assistance Center.)*
- Accessory Replacement**  
 Some accessory parts are essential to your NetAlly Handheld Network Tester or AirMagnet product. Standard warranty on accessories is 90 days, but with AllyCare membership, accessories that ship with your unit are covered under the terms of repair (once qualified as defective by our Technical Assistance Center). With a value of \$100-500, upgrading from warranty to AllyCare can save you significant expense if your battery or other accessory should fail.
- Priority Technical Support**  
 AllyCare includes priority access to our world-class Technical Assistance Center (TAC) with online case submission and tracking of your support calls and resolution.

\*See AllyCare Restrictions page 2.

**3-year AllyCare provides a 20% savings when compared with current AllyCare pricing along with 3-year price protection.**
