HP products tested with Windows 10

Object name	**comcon_win_genpc_c_HP_Products_Tested_with_Windows_10**
GUID	**GUID-80D91B33-812F-49BB-AA16-821D01DDAA07**
Version	**3**

The information below lists HP products that have been tested with the Windows 10 22H2 Update. Any PC product that is not listed in the Windows 10 22H2 Update table was not tested by HP for this update and may not be supported by HP for Windows 10.

For more information from Microsoft on the Windows 10 22H2 Update, go to https://support.microsoft.com/en-us/windows#WindowsVersion=Windows_10 (in English).

If you still want to proceed with using Windows 10 on an untested system, go to the Microsoft Windows support site (in English) for information and support.

Locate the model and series information of your HP PC

Object name	**comcon_win_genpc_e_locate_model_and_series_number_PCs_notebooks_simple_step**
GUID	**GUID-56B43C77-F0C9-4B67-981D-06820E1113DF**
Version	**1**

If you do not know the model of your HP PC, use one of these methods and write down the information.

- **Notebook PCs**: You can find the model number on a label located on the outside of the notebook. On some computers, the label is inside the main battery compartment, and you must remove the battery to read the label. When you have found the product identification label, find the model number shown next to **Model**.

  The model number provides the necessary series number to identify your computer. For example, if your model number is **HP 15-af102us**, then the series name for your computer is **HP 15-af100**.

  For configure-to-order PCs (CTO) the model number may contain a "t" or "z" prior to the hyphen. For example, if your model number is **HP 15t-af102us**, then the series name for your computer is **HP 15-af100**.

- **Desktop and All-in-One PCs**: In Windows, press ctrl + alt + s. The **Product Name** is displayed in the results.

Business notebooks, desktops, and workstations

Object name	**com_win_genpc_c_Business_notebooks_desktops_and_workstations**
GUID	**GUID-A4054152-9082-443E-B43C-E115E826A78F**
Version	**1**

You need to know the product model and series of your device to determine if it has been tested for use with Windows 10.

To quickly locate your PC model, press ctrl + f. In the search box that displays, type the device model number (example: `15-af100`) and press enter to find your device.

Windows 10 extended testing for versions 1709, 1803, and 1809

Object name	**com_win_genpc_e_Windows_10_extended_testing_for_versions_1709_1803_and_1809**
GUID	**GUID-010C5E2B-87BB-4C6E-A29D-693965E26672**
Version	**2**

To better align with the Microsoft Windows as a Service (WaaS) 30-month support model for Enterprise and Education editions, HP is immediately adding support for previous versions of Windows 10 from the Semi-Annual Channel (SAC) on select new product platforms, enabling a more seamless transition from one supported Windows 10 release version to the next.

All HP Pro 600, Elite series, ZBook, and Z Desktop PCs, shipping with an 8th generation Intel® CPU ending in 5U or 5UE editions and newer, will receive support for the current Windows 10 release and two previous releases of Windows 10 versions.

For example, the HP EliteBook 840 G6 series platform that began shipping in May 2019 will be tested with the then-current version of Windows (1903), as well as the previous two versions (1809 and 1803). Windows 10 volume license holders who are standardizing on the previous fall release of Windows version 1809 will be able to maintain their deployed version of Windows 10 on this new hardware.

Additionally, select new notebook platform releases with a 2019 8th generation Intel CPU ending in 5U or 5UE editions will receive support for Windows 10 May 2021 Update release version 1709, enabling customers to manage their entire fleet of devices using a single version of Windows 10.

Complete details on the Windows 10 SAC versions tested on each device can be found in this document. For more information, a full list of HP products and the Windows 10 versions tested is provided.

For more information about Microsoft Windows 10 Life Cycle Management, see the Microsoft Windows lifecycle fact sheet.

For more information regarding Intel's 8th generation CPUs, go to the Intel website (in English).

NOTE: Not all configurations of hardware components are compatible with Intel 8th generation CPUs ending in 5U and Windows 10 release versions.

HP Commercial Service Statement for Windows 10 Semi-Annual-Channel Support

Object name	**com_win_genpc_e_HP_Commercial_Service_Statement_for_Windows_10_Semi_Annual_Channel_Support**
GUID	**GUID-8CB389AB-20C3-4EBA-AB97-E6F97C63C3E8**
Version	**2**

HP is committed to Microsoft's Windows 10 Windows as a Service (WaaS) operating system (OS) update model to help commercial customers keep their devices current with the latest security and feature releases from Microsoft.

For more information on WaaS and Microsoft's definition of 'Semi-Annual Channel,' go to Microsoft's Quick guide to Windows as a Service (in English).

HP support activities for HP commercial notebook, desktop, and workstations under the WaaS operating system (OS) update model include:

- When a new HP commercial notebook, desktop, or workstation is released, HP tests both the current and previous versions of the Windows 10 semi-annual channel. The device receives the "Preinstalled" support rating.
- During the manufacturing life of each HP commercial notebook, desktop, and workstation, HP continues to test each newly introduced Windows 10 semi-annual channel. The device receives the "Preinstalled" support rating.
- With certain current products and after manufacturing of a specific product has ended, HP continues to test each newly introduced Windows 10 semi-annual channel for a period of three years. During this time, the device may receive either a support rating of "Web Support" or "Compatible Driver Support."
- Z branded desktops and workstations will continue to test each newly introduced semi-annual channel for a period of five years after the end of manufacturing. During this time, the device may receive either a support rating of "Web Support" or "Compatible Driver Support" and are signified with a single asterisk *.
- Select products are not eligible for three years testing following the end of manufacture. These products are tested for two years following the last released version of Windows 10 during the time of manufacturing and are signified with two asterisks **.

Definitions of Tested, Preinstalled, and Limited Support for HP products

Object name	**comcon_win_genpc_c_Definitions_of_Tested_Preinstalled_and_Limited Support**
GUID	**GUID-0F02F359-439F-4B00-9CBE-92CF3C793506**
Version	**1**

Use this information to understand the support definitions of preinstalled, web support, compatible driver support, tested and documented, and tested - not documented.

Preinstalled definitions for HP products

Object name	**comcon_win_genpc_e_Preinstalled_software_support_definitions**
GUID	**GUID-4257411D-CC36-4372-A436-A65D14438A2C**
Version	**1**

Support definitions for the Preinstalled support rating on HP products.

- **System Compatibility and Integration Testing (SCIT)**:
  - HP will conduct full testing with preinstalled OS and preinstalled drivers and apps.
  - Manual installation and testing of OS, drivers, and apps (included in above full testing).
  - Manual installation and testing of drivers directly provided by vendors (included in above full testing).
- **WHQL** (Windows Hardware Certified (in English)): System Certification (WHQL) testing by HP.
- **Critical Issues**:

  - HP will fix all critical issues.
  - HP will support base hardware configurations at a minimum (included in above critical issues fixing).
- **Certified Drivers**: HP will support the preinstalled apps and certified drivers.
- **Stress Test**:
  - HP will perform automated stress testing.
  - HP will perform manual stress testing.
- **Hardware Enabling Issues**:
  - HP will fix hardware enabling issues (subject to component providers).
  - HP will document hardware enabling issues via issue tracking system for later documentation.
- **Upgrade**: HP will perform upgrade testing.
- **Publications**: HP will post whitepapers and product advisories (when appropriate).

Web support definitions for HP products

Object name	**comcon_win_genpc_e_Web_support_definitions**
GUID	**GUID-BF9F7210-A015-4618-8409-F592F4B9A575**
Version	**1**

Support definitions for the Web Support support rating.

- **System Compatibility and Integration Testing (SCIT)**:
  - Manual installation and testing of OS, drivers, and apps (included in above full testing).
  - Manual installation and testing of drivers directly provided by vendors (included in above full testing).
- **Critical Issues**:
  - HP will fix all critical issues.
  - HP will support base hardware configurations at a minimum (included in above critical issues fixing).
- **Certified Drivers**: HP will support the preinstalled apps and certified drivers.
- **Stress Test**:
  - HP will perform automated stress testing.
  - HP will perform manual stress testing.
- **Hardware Enabling Issues**:
  - HP will fix hardware enabling issues (subject to component providers).
  - HP will document hardware enabling issues via issue tracking system for later documentation.

- **Upgrade**: HP will perform upgrade testing.
- **Publications**: HP will post whitepapers and product advisories (when appropriate).

Compatible driver support definitions for HP products

Object name	**comcon_win_genpc_e_Compatible_driver_support_definitions**
GUID	**GUID-D78939EC-F141-4BFB-8409-4D64F62133D5**
Version	**1**

Support definitions for the Compatible Driver Support support rating..

- **System Compatibility and Integration Testing (SCIT)**: HP will perform manual installation and testing of drivers directly provided by vendors.
- **Critical Issues**: HP will support base hardware configurations at a minimum, critical issues will be fixed.
- **Stress Test**: HP will perform manual stress testing.
- **Hardware Enabling Issues**:
  - HP will fix hardware enabling issues (subject to component providers).
  - HP will document hardware enabling issues via issue tracking system for later documentation.
- **Upgrade**: HP will perform upgrade testing.
- **Publications**: HP will post whitepapers and product advisories (when appropriate).

Tested and documented definitions for HP products

Object name	**comcon_win_genpc_e_Tested_and_Documented_support_definitions**
GUID	**GUID-5944C8CC-1373-413C-9E3F-ADC7CDC6F8A4**
Version	**1**

Support definitions for the Tested & Documented support rating.

- **System Compatibility and Integration Testing (SCIT)**: HP will perform manual installation and testing of drivers directly provided by vendors.
- **Stress Test**: HP will perform manual stress testing.
- **Hardware Enabling Issues**: HP will document hardware enabling issues via issue tracking system for later documentation.
- **Publications**: HP will post whitepapers and product advisories (when appropriate).

Tested but not supported definitions for HP products

Object name	**comcon_win_genpc_e_Tested_but_Not_Supported_support_definitions**
GUID	**GUID-96D204A7-0999-4BDE-ACEA-3BC197AE11C3**

Version	**1**

Support definitions for the Tested - Not Supported support rating.

System Compatibility and Integration Testing (SCIT): HP will perform manual installation and testing of drivers directly provided by vendors.

Windows lifecycle information

Object name	**comcon_win_genpc_e_Windows_lifecycle_information**
GUID	**GUID-59EA3DBF-B9B7-4C33-AD4C-944D4A106D32**
Version	**1**

All products have a lifecycle; the date when a product is released to the date when it is no longer supported. This end date is also known as End of Service (EOS).

A product entry displaying **EOS of xxxx** means the product is not supported past that Windows version number. For more information on Windows lifecycles, go to the Windows lifecycle fact sheet (in English).

Commercial models tested with Windows 10

Object name	**com_win_genpc_r_Commercial_models_tested_with_Windows_10**
GUID	**GUID-F6DF9C69-949B-4580-AE95-26EF5F47EEA0**
Version	**9**

See the following table for commercial models tested with Windows 10.

NOTE: In the tables below, blank cells indicate that HP did not test the specified version of Windows on that computer model.

* Each newly introduced semi-annual channel of Z branded desktops and workstations are tested for five years after the end of manufacturing. During this time, the device may receive a support rating of either "Web Support" or "Compatible Driver Support."

** Select products are tested for two years following the last released version of Windows 10 during the time of manufacturing.

Table 1 Commercial models tested with Win10

HP printers supported with Windows 10

Object name	**comcon_win_genpc_e_HP_printers_supported_win10**
GUID	**GUID-74989C54-6268-488C-AFD4-3D9FA7E55B75**
Version	**2**

Find out if your HP printer is supported for Windows 10 and see which drivers can be used with your printer.

Go to *Windows 10 compatible HP printers* for a list of HP printers supported.

If you are having problems with your printer while running Windows 10, and you know it is supported, use HP Print and Scan Doctor to diagnose and fix the problem. Download and run the HP Print and Scan Doctor to automatically diagnose and resolve printer hardware and connection issues.

Windows 10 installation instructions for HP tested products

Object name	**comcon_win_genpc_e_Windows_10_installation_instructions_for_HP_tested_products**
GUID	**GUID-22941512-7B64-4BDD-9820-FC4277A5A5D3**
Version	**3**

After you have confirmed HP has tested the device, review the applicable update instructions.

HP PCs - Installing Windows 10

NOTE: Need help installing Windows 10? Call 1-888-215-8889 (press option 2) for more information on the HP SmartFriend premium service.

HP SmartFriend is available in the US and Canada only.

My PC was purchased before August 2013

Object name	**comcon_win_genpc_e_My_PC_was_purchased_before_August_2013**
GUID	**GUID-DA640ECA-8CF1-4BDE-A1FE-17364C6F8BD2**
Version	**3**

HP PCs manufactured before August of 2013 might not have a complete set of hardware and/or drivers required to use all of the features in Windows 10.

NOTE: If you are not sure when your PC was purchased, please check the Windows 10 22H2 Update table to see if HP has tested your device for this update.

- HP is not testing or developing Windows 10 drivers for these PC products.
- If you choose to use Windows 10 some features, applications, and connected devices might not work as expected.
- If you still wish to proceed with using Windows 10 on an untested system, go to Windows support site (in English) for information and support.
- Already running Windows 10 on an untested device? To find available, drivers for these products, go to *HP PCs - Where do I find Windows 11 drivers and software for my model?* for more information.

New HP PCs designed for Windows 10 provide the highest level of functionality and allow you to take full advantage of the new OS features. Shop for a new HP PC.
