

Poly Studio E60

You may have a Poly system or device that contains software from the open source community that must be licensed under the specific license terms applicable to the software. For at least three years from the date of distribution of the applicable product or software, we will give to anyone who contacts us using the contact information provided below, for a charge of no more than our cost of physically distributing, one of the following items (a) A copy of the complete corresponding machine-readable source code for programs listed in this document or (b) A copy of the corresponding machine-readable source code for the libraries listed in this document, as well as the executable object code of the Poly work with which that the library links.

The software included or distributed for the systems, including any software that may be downloaded electronically via the internet or otherwise (the "Software") is licensed, not sold.

Open Source Software

The Poly Studio E60 uses several open source software packages. The packages containing the source code and the licenses for all of the open-source software are available upon request by contacting ipgoopensourceinfo@hp.com.

License Information

The following table contains license information for the open source software packages used in the Poly Studio E60. Note that the source code and the licenses for all the open-source software are available upon request. This list is provided as a convenient reference.

Open Source Software License Information

Software	Version	License	Link
alsa-lib	1.2.4	LGPL v2+	http://www.alsa-project.org/

Get Help

Poly is now a part of HP. The joining of Poly and HP paves the way for us to create the hybrid work experiences of the future. Information about Poly products has transitioned from the Poly Support site to the HP Support site.

The [Poly Documentation Library](#) is continuing to host the installation, configuration/administration, and user guides for Poly products in HTML and PDF format. In addition, the Poly Documentation Library provides Poly customers with information about the transition of Poly content from Poly Support to [HP Support](#).

The [HP Community](#) provides additional tips and solutions from other HP product users.

Privacy Policy

Poly complies with applicable data privacy and protection laws and regulations. Poly products and services process customer data in a manner consistent with the Poly Privacy Policy. Please direct comments or questions to privacy@poly.com.
