

ThinkSmart Core Gen 2 for Zoom

Upgrade your meeting spaces with the ThinkSmart Core Gen 2 for Zoom, the first AI-optimized device designed for video conferencing room systems. Powered by Intel® Core™ Ultra 5 processors with integrated Intel® Arc Graphics, it accelerates compute tasks, enhances AI performance and streamlines operations—all while reducing power consumption by up to 40%. Running on Windows 11 IoT, it offers flexibility with a wide range of Zoom Rooms-certified peripherals. For effortless setup, it includes either the Lenovo IP Controller or ThinkSmart Controller, ensuring compatibility with various room configurations.

Purpose-built to improve productivity and collaboration

Combining innovative technology with personalized services, ThinkSmart solutions will improve the way employees work together in today's work-from-anywhere world.

Upgrade your Zoom Rooms experience with the intelligent ThinkSmart Bar 180. Its expansive 180° field of view ensures everyone is visible, while dual woofer and dual tweeter speakers delivers crystal-clear sound using zero-vibration technology. The triple cameras and 8 beamforming mics boost collaboration, making remote participants feel involved.

The versatile built-in cable management system secures wires in place or can be completely detached for a sleeker, more compact setup, and multiple USB-A and USB-C ports facilitate improved connectivity with room displays.

The integrated cable management system streamlines installation and maintenance, allowing for effortless cable adjustments while keeping the setup organized. This minimizes downtime and enhances overall operational efficiency.
