## Things to know

Before placing an order, please review the following:

- The Cisco Catalyst 9300 Series offer structure has three main components: the switch hardware, a Network stack perpetual license, and choice between a Cisco DNA or Cisco Catalyst Software subscription license.
- The software subscription licenses and Network Stack perpetual licenses are smart product IDs (SKUs). The subscription license, which comes with a perpetual license, is required with a hardware purchase.
- A Smart Account is mandated during purchase (for more information, please see the Smart Accounts section).
- Available service options:
  - Solution support
  - Enhanced Limited Lifetime Warranty (E-LLW)
  - Smart Net Total Care support
  - Success Tracks
  - Included base product-level support

## Common terminology

- Network Stack: NW
- Cisco Digital Network Architecture: DNA
- Cisco Catalyst Software subscription: DNX
- Essentials: -E
- Advantage: -A
- Smart Account: SA
- Smart License: SL

## Purpose of this document

This document is aimed at providing a detailed overview of the ordering process for Cisco Catalyst 9300 Series switches on Cisco Commerce Workspace.

## Hardware and software order overview

Cisco Catalyst 9300 Series switches can be ordered through Cisco Commerce Workspace as a Cisco DNA or Catalyst Essentials or Advantage subscription. Both options include switch hardware coupled with Cisco IOS and the Network Stack software.

---

What is the difference between the Catalyst and Cisco DNA software subscription for Switching?

The Catalyst software subscription for Switching includes base software and now hardware support for the Essentials and Advantage tiers. This support delivers a four-hour TAC response objective for severity 1 and 2 service requests. In addition, if you opt for the Advantage tier, you also receive ISE licenses (quantity dependent on switch model). Catalyst 9300 series receive 10 endpoint sessions per Catalyst Advantage license.

The Cisco DNA software subscription for Switching includes base support for software only, delivering a one-hour TAC response objective for severity 1 and 2 service requests. RMAs are also accessed through the Catalyst warranty program. In addition, the Cisco DNA software subscription does not include ISE licenses.

Note that for both the Cisco DNA and Catalyst software subscriptions for Switching:

- Cisco DNA features and tier levels (Essentials, Advantage) remain the same.
- Hardware replacements are accessed separately through the Catalyst warranty program.<sup>1</sup>

## Cisco Catalyst software subscription Overview

	Network Essentials	Network Advantage	Catalyst Essentials	Catalyst Advantage
<b>Audience</b>	Entry level with full switching	Entry level with full routing and switching	Entry level to small or midsize looking for base automation and monitoring	Small to midsize looking to upgrade to advanced automation and monitoring
<b>License type</b>	Perpetual license, one-time purchase	Perpetual license, one-time purchase	3/5/7 year term subscription, license portability, hardware and software support	Includes Cisco DNA Essentials, 3/5/7 year term subscription, license portability, hardware and software support
<b>Management options</b>	CLI, WebUI	CLI, WebUI	CLI, WebUI, Cisco Catalyst Center	CLI, WebUI, Cisco Catalyst Center

## Catalyst software subscription feature matrix

For the latest features, please view the [Switching feature matrix](#).

---

<sup>1</sup> Hardware replacements via the Catalyst warranty program provides a best effort next business day response for the United States, Canada, Countries of the European Union, Australia, and New Zealand. Elsewhere, Cisco will ship the advance replacement on the next business day, but actual delivery times might vary depending on customer location. Taxes and duties might apply and must be paid by the recipient of the replacement part.

## How to order a Cisco Catalyst 9300 Series switch

Both Network Stack licenses and Cisco DNA or Catalyst software subscription licenses are mandatory at the time of purchase and come in two licensing tier options: Advantage and Essentials. The Network Stack licenses, Network Advantage or Network Essentials is included with the hardware, while a Cisco DNA or Catalyst software subscription term license needs to be selected at the time of order.

To order in the Cisco Commerce Workspace, follow these steps:

1. Select the appropriate Network Stack license type -A or -E
2. Choose the preferred consumption model - Cisco DNA Advantage (default) or individual.
3. Choose the Cisco DNA Software subscription term license (3, 5 or 7 years).
4. Add other components (for example: secondary power supply, power cables, etc).

## Step-by-Step Ordering in Cisco Commerce Workspace

Enter the hardware SKU in [Cisco Commerce Workspace](#).

The Network Stack license is perpetual and included with the hardware by default (it will not be visible in the selection menu) per the respective hardware SKU suffix (example: C9300-48P-E/C9300-48P-A).

The Cisco ThousandEyes Network and Application Synthetics license is included by default upon the selection of a Cisco DNA Advantage option with a 3 year, 5 year or a 7 year subscription. Each Catalyst 9300 or 9400 Cisco DNA Advantage subscription entitles the customer to run up to a maximum of 110,000 units per month of ThousandEyes test capacity per Customer Organization, regardless of the number of purchased Cisco DNA Advantage licenses. ThousandEyes Cloud Agent access is not included in the Cisco DNA license entitlement. Test capacity can be increased and Cloud Agents accessed with purchase of additional ThousandEyes Network and Application Synthetics. The Cisco DNA license entitlements will ONLY be provisioned in Customer Organizations on the usage billing model. Customer Organizations on the legacy metered billing model are ineligible. "Customer Organization" means Customer and its Affiliates (as defined in the Cisco End User License Agreement) collectively who are Cisco DNA Advantage license holders.

Expand to "View Full Summary" view to view the Cisco ThousandEyes Network and Application Synthetics license (TE-EMBEDDED-T). The TE-EMBEDDED-T is bundled with the Cisco DNA Advantage subscription and follow the same term as the Cisco DNA subscriptions.

<b>Subtotal</b>		<b>21,650.00</b>
<b>Estimated Lead Time</b>		<b>59 days</b>

On the right, the 'Option Search' section shows the selected 'Console Cables' for the C9300-48U-A switch:

SKU	Qty	Lead Time	Unit List Price (USD)
<input type="radio"/> CAB-CONSOLE-USB Console Cable 6ft with USB Type A and mini-B	1	14 days	30.00
<input type="radio"/> CAB-CONSOLE-RJ45 Console Cable 6ft with RJ45 and DB9F	1	14 days	30.00

Additional elements include a 'Warnings (5)' section with a recommendation for Solution Support, and a 'Configuration Summary' section with a 'View Full Summary' link. The interface also features a 'Reset Configuration' button and 'Cancel'/'Done' buttons at the bottom.

## Default accessories shipped with the switch

Cisco Catalyst 9300 Series switches ships with the following components and accessories by default:

- Switch
- Default power supply (based on selected switch)
- Secondary power supply (same as default primary)
- 2 Power cables (specific power cable needs to be selected)
- Stacking Kit (for C9300L SKUs only with 50cm stacking cable)
- Stack cable (50cm, 1M) unless not selected (for C9300/C9300X SKUs only)
- StackPower cable (30cm/ 150CM) unless not selected (for C9300/C9300X SKUs only)
- Mounting brackets

## Licensing

All Cisco Catalyst 9300 Series switches are available with two software options. Each software option includes two components, as shown in Table 1.

**Table 1.** License Levels and Options

License Level	Network Stack offer (Perpetual and embedded)	Cisco DNA or Catalyst software subscription offer (Term based)
-E	Network Essentials	Essentials (3, 5, or 7 years)
-A	Network Advantage	Advantage (3, 5, or 7 years)

## Upgrading license level

Customers will have the option to upgrade the Network Stack and Cisco DNA license levels (for example, -E to -A license upgrade) through a license upgrade, which will be available post launch. Customers will purchase the upgrade license and then reach out to CPS to initiate the upgrade process. The customer will be able to select term licenses using the C9300-LIC= or C9300L-LIC= SKU to upgrade a-la-carte Cisco DNA license. The Cisco Catalyst 9300 Series software license upgrade SKUs are listed in the “Ordering information” section.

Note that a license cannot be upgraded at the time of purchase.

## Smart accounts

As with all Catalyst 9000 family switches, Smart Accounts are mandatory when ordering a Catalyst 9300 Series switch. A [Smart Account](#) is a central data repository that provides visibility and access control to all the Cisco software licenses and entitlements across an organization. Smart Accounts allow customers to store, manage, and move assets across locations and devices and begin to use them immediately. Smart Accounts are required for enabling Cisco Smart Software Licensing.

After a Smart Account has been set up, customers have the flexibility to create subaccounts (virtual accounts) to help manage licenses for departments, areas, or locations within their organization. Licenses can be pooled within virtual accounts as needed. Smart Accounts support role-based user access controls, which allow the delegation of authority to account administrators at the Smart Account level or at the virtual account level. In addition, customers can assign partner visibility and management rights to their virtual or enterprise-level accounts.

## Introduction to Smart Licensing

Cisco Smart Licensing is a flexible licensing model that provides you with an easier, faster, and more consistent way to purchase and manage software across the Cisco portfolio and across your organization. And it's secure – you control what users can access. With Smart Licensing you get:

- **Easy Activation:** Smart Licensing establishes a pool of software licenses that can be used across the entire organization—no more PAKs (Product Activation Keys).
- **Unified Management:** My Cisco Entitlements (MCE) provides a complete view into all of your Cisco products and services in an easy-to-use portal, so you always know what you have and what you are using.

- 
- **License Flexibility:** Your software is not node-locked to your hardware, so you can easily use and transfer licenses as needed.

To use Smart Licensing, you must first set up a Smart Account on Cisco Software Central ([software.cisco.com](https://software.cisco.com)).

For a more detailed overview on Cisco Licensing, go to [cisco.com/go/licensingguide](https://cisco.com/go/licensingguide).

## Cisco Smart Software Manager

Cisco Smart Software Manager enables the management of software licenses. The interface allows you to activate your product, manage entitlements, and renew and upgrade software. An active Smart Account is required to complete the Smart License registration process. To learn more about end-to-end Smart Account and Smart License management, visit <https://www.cisco.com/c/en/us/buy/smart-accounts/software-manager.html>.

## Smart Account and Smart License availability

Important information about smart account and smart license availability.

- Cisco Catalyst 9300 Series switch SKUs are smart SKUs. License entitlements will be deposited in the Cisco Smart Software Manager and the Smart Accounts.
- In addition to viewing entitlements, customers will also be able to track consumption.

Smart Accounts are mandatory at the time of the order of a Cisco Catalyst 9300 Series switch. If a customer does not have a Smart Account set up prior to the purchase, a new Smart Account must be created at the time of purchase.

## Deploying Smart Licenses for Cisco Catalyst 9300 Series switches

Cisco Catalyst 9300 Series switches come in different licensing packages in comparison to existing Cisco Catalyst platforms. After Smart Licensing technology (available later) is enabled on the switch, the ordering process will include a requirement to establish a Smart Account where software licenses will be deposited. Smart Licenses are transferable between the same types of devices (for example, from one Cisco Catalyst 9300 Series switches to another). (See Figure 1.)

**Figure 1.**  
Deploying Smart Licenses

In the deployment model shown in Figure 2, the Smart Account Cisco back end and Cisco Catalyst 9300 Series switches do not have a communication channel to report usage and consumption. They operate as separate entities. The switches must be configured in RTU mode with correct license level to enable the purchased feature set.

- Possible deployment modes:
  - **RTU:** The licensing mode on Cisco Catalyst 9300 Series switches remains RTU in Cisco IOS XE 16.5.1a. However, the licensing structure in RTU has been modified to match the same packaging model that will be used with Smart License mode in the future. Unified licensing modes between RTU and Smart License mode will help to simplify the migration and reduce the time for implementing Smart License with usage report
- **Consumption reporting:** License usage and consumption reporting is performed on Cisco Smart Software Manager only when the device has capability to report Smart License usage. Cisco IOS XE 16.5.1a release does not include the license reporting infrastructure to Cisco Smart Software Manager on the switches

For further information about the Cisco Catalyst 9000 RTU licensing, model, see the Configuration Guide.

## Software-Defined Access (SD-Access)

Software-Defined Access (SD-Access) enables Policy-based Automation from edge to Cloud with foundational capabilities leveraging controller-based architecture including: Design with Validated Design Templates, Simplified device deployment, Unified management of Wired and Wireless, Network Virtualization with Segmentation, Group Based Policies and Contextual based analytics.

SD-Access can be enabled with Cisco DNA Advantage. Note that customers will need to additionally purchase ISE, which is available in the [Cisco DNA Expansion Pack](#).

---

## Services and Warranty

The Solution Support service option is strongly recommended; it provides coverage for a Cisco DNA Essentials and Advantage software licenses. Additional product-level hardware support options are available: Smart Net Total Care support, partner service support, and enhanced limited lifetime hardware warranty. It is strongly recommended that the term of the hardware support contract match the software subscription license term to avoid any service support gaps for the duration of the term.

With a Catalyst Software subscription, base product-level hardware and software support is included.

How does the base product-level support for software and hardware included in the Catalyst Switch software subscription differ from Cisco Smart Net Total Care and Software Support Services?

The base product-level support for software and hardware support included in the Catalyst Switch software subscription delivers the same features and benefits you experience today with Smart Net Total Care and Software Support Basic **except** as follows:

- **The Cisco TAC response objective** for severity 1 and 2 service requests is:
  - **Four hours**, compared to one hour for Smart Net Total Care and Software Support Basic), and
  - **Next Business Day (NBD)** where commercially available for severity 3 and 4 service requests, compared to one hour for Smart Net Total Care during business hours and next business day outside of business hours, and next business day for Software Support Basic during and outside of business hours).
- **Hardware replacements** are accessed through the Catalyst warranty program<sup>1</sup>, compared to a choice of eight RMA service-level options offered through Smart Net Total Care and Software Support Basic.

What are my support service options if I need faster response objectives for critical issues, more hardware RMA options, and/or higher levels of support than what's included in the Catalyst Switch software subscription?

Because your enterprise network is the cornerstone of your IT and business, we recommend Cisco Success Tracks and CX Cloud, which is the one-stop, unified digital interface to Success Tracks.

Success Tracks is designed to accelerate adoption and maximize value for the security, automation, and assurance capabilities in your Cisco enterprise network. It also fulfills your need for faster response objectives (30 minutes for severity 1 and 2 service requests) and all of Cisco's RMA options (eight, as fast as two hours).

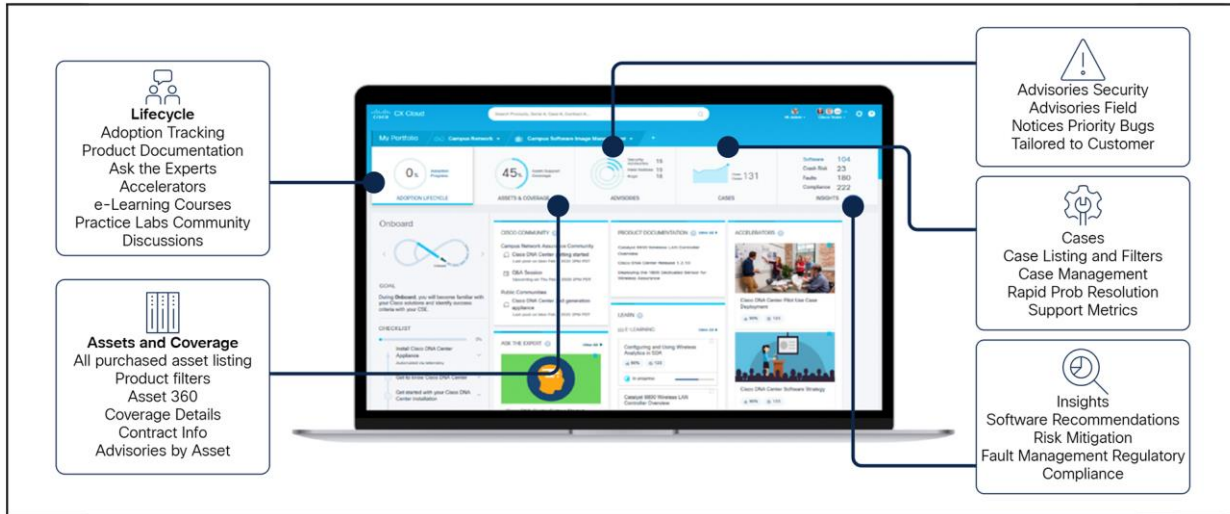

Can you tell me more about Success Tracks and CX Cloud?

Success Tracks is a set of comprehensive services accessed through the unified digital platform, CX Cloud. It offers streamlined, personalized access to Cisco experts and customized content that can help you simplify solution adoption, resolve complex issues faster than single product-focused support, and optimize your IT environment through:

- **Expert Resources:** Expert guidance, best practices, and proven methodologies for a successful path to adoption.
- **Trusted Support:** Prescriptive support to detect, prevent, and efficiently solve complex hardware, software, and multi-product, multi-vendor issues through a Cisco primary point of contact who streamlines the support experience across your Cisco enterprise network.
- **Insights and Analytics:** Telemetry and intelligence with analytics that provide proactive and predictive insights and guided recommendations to help you solve problems faster and optimize operations.

- **Contextual Learning:** Digital learning resources, tailored instructor-led training, certification prep and virtual practice labs, designed to expand a workforce’s skillset and capacity to achieve business outcomes faster and more efficiently.

## CX Cloud

To see how Success Tracks can drive faster adoption and ROI for your Catalyst-based enterprise network, connect with your Cisco representative and request a CX Cloud demo.

## How to order Cisco ThousandEyes internet and cloud intelligence with your existing Catalyst 9300 switches

Customers with existing Catalyst 9300 switches can claim the credits to Cisco ThousandEyes by following the steps mentioned in this document.

Link to [CSSM Activation guide](#) hosted on cisco.com

## How to order Cisco Spaces Indoor IoT Services with your Catalyst 9300 switches

Customers ordering new Catalyst 9300 switches with Cisco DNA Advantage licensing:

The Cisco Spaces Onboarding team does proactive outreach to customers that order Cisco DNA Advantage on eligible Catalyst 9300 switches. Customers may also contact the Cisco Spaces team to request account activation by following the format below

Customers with existing Catalyst 9300 switches with Cisco DNA Advantage licensing:

Customers should contact the Spaces team to request account activation. Customers contacting Cisco to activate a Cisco Spaces account should provide the following information to the Cisco Spaces Support and Onboarding team:

- Send email to [spaces@cisco.com](mailto:spaces@cisco.com)
- Title the Subject Heading as “Activate Cisco Spaces for Catalyst Switching”
- Provide Company / Account name

- Smart account domain:
  - Contact name for Account Provisioning
  - Contact email for Account Provisioning
  - Contact phone for Account Provisioning
  - Quantity for activation: # of switches (based on quantity of DNA Advantage ordered)
  - Provide Web Order/ Sales #
  - New/Existing Cisco Spaces account

## Ordering information

Tables 2 through 7 provide ordering information for switches, network modules, stacking cables, Cisco DNA 24-port licenses, and Cisco DNA 48-port licenses, and Cisco Catalyst licenses respectively.

<b>C9300LM-48T-4Y-A</b>	Catalyst 9300 mini 48-port 1G data, 4x 25G uplinks, Network Advantage
<b>C9300LM-24U-4Y-E</b>	Catalyst 9300 mini 24-port 1G UPOE, 4x 10G uplinks, Network Essentials
<b>C9300LM-24U-4Y-A</b>	Catalyst 9300 mini 24-port 1G UPOE, 4x 25G uplinks, Network Advantage

**Table 3.** Network Module Ordering information

Product ID	Product Description
<b>C9300X-NM-8M</b>	Catalyst 9300 8 x 10G mGig Network Module
<b>C9300X-NM-8M=</b>	Catalyst 9300 8 x 10G mGig Network Module, spare
<b>C9300X-NM-8Y</b>	Catalyst 9300 8 x 25G/10G/1G multi-rate SFP Network Module
<b>C9300X-NM-8Y=</b>	Catalyst 9300 8 x 25G/10G/1G multi-rate SFP Network Module, spare
<b>C9300X-NM-2C</b>	Catalyst 9300 2 x 100G/40G dual rate QSFP Network Module
<b>C9300X-NM-2C=</b>	Catalyst 9300 2 x 100G/40G dual rate QSFP Network Module, spare
<b>C9300X-NM-4C</b>	Catalyst 9300 4 x 100G/40G dual rate QSFP Network Module
<b>C9300X-NM-4C=</b>	Catalyst 9300 4 x 100G/40G dual rate QSFP Network Module, spare
<b>C9300-NM-4G</b>	Cisco Catalyst 9300 4 x 1GE network module
<b>C9300-NM-4G=</b>	Cisco Catalyst 9300 4 x 1GE network module, spare
<b>C9300-NM-8X</b>	Cisco Catalyst 9300 8 x 10GE network module
<b>C9300-NM-8X=</b>	Cisco Catalyst 9300 8 x 10GE network module, spare
<b>C9300-NM-2Q</b>	Cisco Catalyst 9300 2 x 40GE network module
<b>C9300-NM-2Q=</b>	Cisco Catalyst 9300 2 x 40GE network module, spare

Product ID	Product Description
NM-BLANK-T1=	Cisco Catalyst Type 1 Network Module Blank, spare

**Table 4.** Stacking Cable Ordering information

Product ID	Product Description
<b>Catalyst 9300 Series switches: modular uplink models (C9300 SKUs)</b>	
STACK-T1-50CM	50CM type 1 stacking cable
STACK-T1-50CM=	50CM type 1 stacking cable, spare
STACK-T1-1M	1M type 1 stacking cable
STACK-T1-1M=	1M type 1 stacking cable, spare
STACK-T1-3M	3M type 1 stacking cable
STACK-T1-3M=	3M type 1 stacking cable, spare
<b>Catalyst 9300 Series switches: fixed uplink models (C9300L SKUs)</b>	
C9300L-STACK-KIT	Stacking Kit - includes 2 Stack Adaptors and 1 Stack Cable (50cm by default)
STACK-T3-50CM	50CM type 1 stacking cable
STACK-T3-50CM=	50CM type 1 stacking cable, spare
STACK-T3-1M	1M type 1 stacking cable
STACK-T3-1M=	1M type 1 stacking cable, spare
STACK-T3-3M	3M type 1 stacking cable
STACK-T3-3M=	3M type 1 stacking cable, spare

## Software SKUs (Cisco DNA)

**Table 5.** Cisco DNA 24-Port License Ordering Information

License Type	SKU	Description
<b>Catalyst 9300 Switches: modular uplink models (C9300 SKUs)</b>		
<b>Essentials</b>	C9300-DNA-E-24	C9300 Cisco DNA Essentials, 24-port term licenses
	C9300-DNA-E-24-3Y	C9300 Cisco DNA Essentials, 24-port, 3-year term license
	C9300-DNA-E-24-5Y	C9300 Cisco DNA Essentials, 24-port, 5-year term license
	C9300-DNA-E-24-7Y	C9300 Cisco DNA Essentials, 24-port, 7-year term license
<b>Advantage</b>	C9300-DNA-A-24	C9300 Cisco DNA Advantage, 24-port term licenses
	C9300-DNA-A-24-3Y	C9300 Cisco DNA Advantage, 24-port, 3-year term license
	C9300-DNA-A-24-5Y	C9300 Cisco DNA Advantage, 24-port, 5-year term license
	C9300-DNA-A-24-7Y	C9300 Cisco DNA Advantage, 24-port, 7-year term license
<b>Catalyst 9300 Switches: 1G Fiber modular uplink models (C9300 SKUs)</b>		
<b>Essentials</b>	C9300-DNA-E-24S	C9300 Cisco DNA Essentials, 24-port term licenses
	C9300-DNA-E-24S-3Y	C9300 Cisco DNA Essentials, 24-port, 3-year term license
	C9300-DNA-E-24S-5Y	C9300 Cisco DNA Essentials, 24-port, 5-year term license
	C9300-DNA-E-24S-7Y	C9300 Cisco DNA Essentials, 24-port, 7-year term license
<b>Advantage</b>	C9300-DNA-A-24S	C9300 Cisco DNA Advantage, 24-port term licenses
	C9300-DNA-A-24S-3Y	C9300 Cisco DNA Advantage, 24-port, 3-year term license
	C9300-DNA-A-24S-5Y	C9300 Cisco DNA Advantage, 24-port, 5-year term license
	C9300-DNA-A-24S-7Y	C9300 Cisco DNA Advantage, 24-port, 7-year term license
<b>Catalyst 9300L Switches:</b>		
<b>Essentials</b>	C9300L-DNA-E-24	C9300L Cisco DNA Essentials, 24-port term licenses
	C9300L-DNA-E-24-3Y	C9300L Cisco DNA Essentials, 24-port, 3-year term license
	C9300L-DNA-E-24-5Y	C9300L Cisco DNA Essentials, 24-port, 5-year term license
	C9300L-DNA-E-24-7Y	C9300L Cisco DNA Essentials, 24-port, 7-year term license
<b>Advantage</b>	C9300L-DNA-A-24	C9300L Cisco DNA Advantage, 24-port term licenses
	C9300L-DNA-A-24-3Y	C9300L Cisco DNA Advantage, 24-port, 3-year term license

License Type	SKU	Description
	C9300L-DNA-A-24-5Y	C9300L Cisco DNA Advantage, 24-port, 5-year term license

## Distribution ordering addendum

This section details the steps necessary to order Cisco Catalyst 9300 Switches through distribution partners.

**Figure 2.** Distribution ordering options for Cisco Catalyst 9300 Series switches

# Cisco Catalyst 9300 Series switches for stocking

By selecting “Stocking” as “Intended Use”, the system will show only hardware and does not include the Cisco DNA subscription (the subscription must be ordered at point of sale).

### Distributor stocking order

C9300 configuration without Cisco Catalyst software

**1** Select intended use as “stocking”

**2** Select appropriate PID: -E or -A

**3** The DISTRIBUTOR-STOCKING SKU defaults. SW attach not enforced since the intent is to stock

Items	Discounts	Shipping and Install	Billing	Review and Submit
PURCHASE ORDER # 12345   WEB ORDER ID 87654321   STATUS UNSUBMITTED   SMART ACCOUNT   AUSTRALIA Price List in AUDs Ex-Tax (AUD)				
Hardware, Software and Services				
<input checked="" type="checkbox"/>				
<input checked="" type="checkbox"/>				
<input type="checkbox"/>				

**Figure 3.** Distributor ordering Cisco Catalyst 9300 Series switches for stocking

Figure 4 shows the scenario where the distributor will dropship the entire order from Cisco to the end customer. The intended-use drop-down menu is set to Resale, which allows the default options for hardware support and software to become available. Hardware support can be changed to premium Solution Support or Smart Net Total Care, or it can be removed completely.

### Distributor dropship entire order

Catalyst 9300 Series switches with Cisco DNA Premier Software subscription

- 1 Select intended use as "resale"
- 2 Select appropriate PID: Cisco DNA Essentials (-E) or Cisco DNA Advantage (-A)
- 3 Select the consumption model: Cisco DNA Premier, Advantage and Essentials Software subscription
- 4 Select the term of the license, 5 years default (can be changed)
- 5 ISE Base added automatically during configuration. (Cisco DNA Premier)
- 6 Solution support is selected as default service, but can be changed

· Subscription offset to 60 days\*

**Figure 4.** Distributor drop shipping the entire order

Figure 5 shows the distributor drop-shipping the entire order from Cisco to the end customer using Cisco DNA Essentials or Advantage software subscriptions.

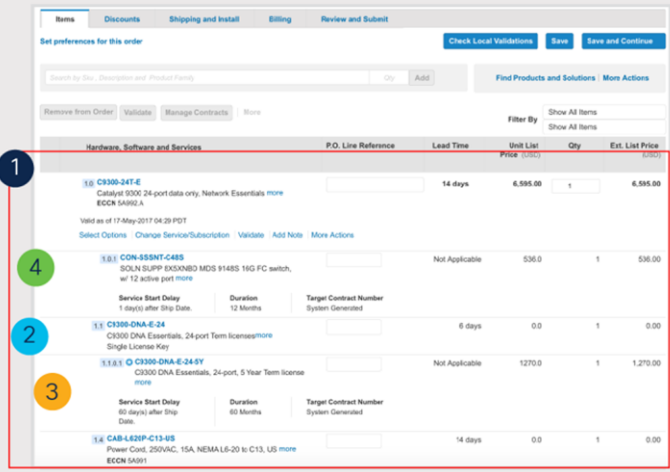

# Distributor dropship entire order

Catalyst 9300 Series switches with Cisco DNA Premier Software subscription

- 1 Select appropriate PID: Cisco DNA Essentials (-E) or Cisco DNA Advantage (-A)
- 2 Select the consumption model: Cisco DNA Premier, Advantage and Essentials Software subscription
- 3 Select the term of the license, 5 years default (can be changed)
- 4 Select support is selected as default service, but can be changed

• Subscription offset to 60 days\* after ship date

**Figure 5.**

Distributor drop-shipping entire Cisco Catalyst 9300 Series switch Cisco DNA Essentials or Advantage software subscription order

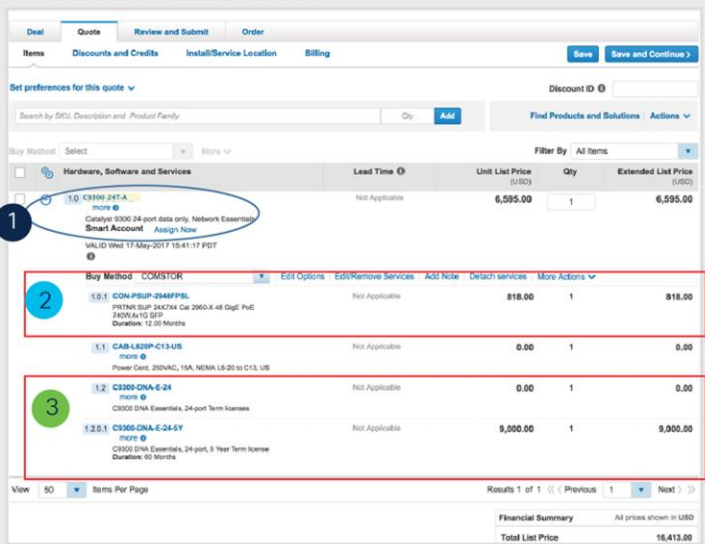

Figure 6 shows the partner quote request to the distributor. The distributor can choose to fulfill the entire order by drop-shipping or fulfill the hardware from stock and create a dropship order for Cisco DNA software.

# Distributor - partner quote request

Catalyst 9300 Series product quote with Cisco DNA Software subscription and hardware support

- Distributor receives quote from Partner
- Distributor fulfills the hardware from stock and will create a dropship for the Cisco DNA Team software and HW support services

- 1 Partner select appropriate PID: Cisco DNA Essentials (-E) or Advantage (-A)
- 2 Partner selects the HW support during configuration. Defaults to solution support, but can be changed
- 3 Cisco DNA term license selected during configuration. The distributor will order the C9300-DNA-E-24-5 years= instead of the SKU in the configuration

**Figure 6.**

Distributor fulfilling partner quote

Figure 7 shows the SKUs that the distributor has to use when ordering software as a dropship in Cisco DNA Essentials or Advantage subscription option scenarios.

## SKU details for distributor ordering software as dropship

A la Carte			
Product type	Reseller quote	Distributor stock	Distributor dropship
Switch	C9300-24T-E	C9300-24T-E	C9300-24T-E
Cisco Catalyst Essentials	C9300-DNA-E-24		C9300-DNA-E-24=
Cisco Catalyst Advantage	C9300-DNA-A-24		C9300-DNA-A-24=

1 Distributor fulfills the hardware from stock for the quote from partner and creates a dropship for the Cisco Catalyst term software. When placing the order for Cisco Catalyst Term software, the Distributor will use C9300-DNA-E-24= or C9300-DNA-A-24=

**Figure 7.**
