Using HP Engage Catalog

With HP Engage Catalog you can discover, install, and update apps that are provided by HP partners.

HP Engage Catalog is regularly updated for new vendors and new available app updates so that you can keep your device up to date with new apps.

Installing apps

Use this procedure to install an app.

1. Select **Install** on the app tile that you want to install.
2. To verify that an app was installed, swipe down on the screen.

Updating apps

Use this procedure to update an app.

- If an app update is available, select the **Update** button.

Removing apps

Use this procedure to remove an app.

- To remove an installed app, select the **Remove** button on the app tile.

NOTE: If the app tile displays **Update**, you must update the app before you can remove it through HP Engage Catalog. To bypass updating, use the app removal method on your device.

Updating the server location

Use this procedure to check or refresh the server location.

- Open the menu tab on the upper left corner of the screen, and select **Update server location**.
