

RS6100 Low Temperature Mount Installation Guide

The Low Temperature Mount mounts the RS6100 on the back of your right or left hand and provides a remote finger trigger. It is adjustable to accommodate work gloves.

To attach the mount:

1. Install the hand and trigger straps to the mount assembly for a right or left-handed user.
2. Snap the trigger strap onto the trigger assembly.
3. Position the mount on your hand.
4. Install the RS6100 onto the mount.

Install Straps for Right-Handed User

To install the hand and trigger straps to the mount for a right-handed user:

1. Hold the back of hand mount with the trigger assembly toward you.
2. On the Y-shaped hand strap, locate the two ends that include a snap, and slide them up through the top and bottom right slots on the back of hand assembly. Snap them into place.
3. Slide the long end of the strap up through the left center slot of the back of hand assembly, and press in place.
4. Slide the end of the trigger strap with the snap through the left trigger slot (as it faces you), and snap it in place.
5. Slide the other end of the trigger strap through the right trigger slot and leave slack.

Install Straps for Left-Handed User

To install the hand and trigger straps to the mount for a left-handed user:

1. Hold the back of hand mount with the trigger assembly toward you.
2. On the Y-shaped hand strap, locate the two ends that include a snap, and slide them up through the top and bottom left slots on the back of hand assembly. Snap them into place.
3. Slide the long end of the strap up through the right center slot of the back of hand assembly, and press in place.
4. Slide the end of the trigger strap with the snap through the right trigger slot (as it faces you), and snap it in place.
5. Slide the other end of the trigger strap through the left trigger slot and leave slack.

Position Mount on Hand

To position the mount on your hand:

1. Slide your hand through the hand strap, with your thumb through the smaller opening between the two snaps and remaining four fingers through the larger opening.
2. Insert your finger(s) through the loose trigger strap based on the size of the strap:
 - Small trigger strap: insert index finger.
 - Medium trigger strap: insert index and middle fingers.
 - Large trigger strap: insert four fingers.

3. Adjust the hand strap to a comfortable position.

4. Place the trigger against your index finger, adjust the trigger strap to a comfortable position, and secure in place.

Install RS6100

To install the RS6100 onto the mount:

1. Engage the bump at the front of the RS6100 (on the underside) with the slot on the top of the mount.

2. Pivot the RS6100 downward until it snaps into place.

Detach RS6100

To detach the RS6100 from the mount, press the release buttons on both sides of the mount using your thumb and middle finger, and lift the RS6100 off the mount using your index finger.
