

# Changing in-person meetings to virtual meetings

## See how collaboration fuels creativity

Teamwork and collaboration doesn't just happen when everyone is in the same room. True collaboration happens when teams are focused. Conversation breeds excitement, one person's idea sparks another's insight, perspectives are changed – and the final results are so much stronger than any individual effort.

Collaborative Board (CB Series)

Even when working remotely, true collaboration is possible. NEC's family of software tools and devices empower teams to connect, share and create together. IT's a flexible set of solutions that can be customized to meet your individual needs and environment. Add only the features you need, and collaborate as easily as if you were in the same room – with simple tools that transform your ideas into reality.
