Australia and New Zealand Supplier's Declaration of Conformity

Product details and date of manufacture

Product description – brand name, type, current model, lot, batch or serial number (if available), software/firmware version (if applicable)

Brand Name: DELL	Equipment Type: Portable Computer
Regulatory Model Number (RMN): P148G	Regulatory Type Number (RTN):P148G002
Software/Firmware Version ¹ : NA	

Note: Products are controlled by RMN and where applicable, RTN. The RMN and RTN are affixed to the products regulatory label and traceable to this SDoC. This product may be sold under multiple Marketing Model Names all covered by the product assigned RMN and RTN. Where needed the date of manufacture of a product may either be determined via decoding of the products Service Tag Number or via actual date in some instances on product labelling

Compliance – applicable standards and other supporting documents

Evidence of compliance with applicable standards may be demonstrated by test reports, endorsed/accredited test reports, certification/competent body statements.

Having had regard to these supporting documents, I am satisfied the above mentioned product complies with the requirements of the relevant regulatory authority standards made under the Australia *Radiocommunications Act 1992* and the *Telecommunications Act 1997*, the New Zealand *Radiocommunications Act 1989*.

List the details of the documents the above statement was made, including the standard title, number and, if applicable, number of the test report/endorsed test report or certification/competent body statement

Electromagnetic Compatibility (EMC):

Applied Technical Standard: Class B

AS/NZS CISPR 32:2015 AMD 1:2020

Note: This Class B equipment is designed to provide reasonable protection against harmful interference when the equipment is operated in a residential or business environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the manufacturer's instruction manual, may cause harmful interference with radio communications.

EMC Supporting Document/Test Report Number: CBEDV-WTW-P24050031

Product Safety ERAC/EESS:

Applied Technical Standard:

AS/NZS 62368.1:2022

Safety Supporting Document/Test Report Number: REP044402

Electromagnetic Radiation – Human Exposure (EMR):

ARPANSA Radiation Protection Standard for Limiting Exposure to Radiofrequency Fields – 100 kHz to 300 GHz

Applied Technical Standard:

AS/NZS 2772.2:2016

¹ Where Software/Firmware is noted it is the version utilized on issue date of this SDoC. This version may be revised for product functionality or features and the supplier shall determine that product remains in compliance. Software/firmware revision shall not result in SDoC update unless such revision impacts the compliance of the described product, declared standards, or emissions class.
