Thinking about giving your workers a smartphone? The TC22/TC27 mobile computer is a smarter choice.

Boost productivity in retail, sports and entertainment, transit, hospitality, field mobility/field service and warehousing.

10 reasons to choose the business-class TC22/TC27 over a consumer smartphone

Built for work Go ahead — drop it. The TC22/TC27 is IP68 dustproof and waterproof, drop-proof to 5 ft./1.5 m with the protective boot, plus a shatter- and scratch resistant Corning® Gorilla display and scan window.

The fastest, most dependable wireless connections With 5G[1], Wi-Fi 6/6E[1], global private 5G and CBRS[2], no matter where your workers are, the TC22/TC27 will keep them connected and productive.

Power every minute of every workday With a removable battery, you're never out of power — just swap batteries and keep on working. Choose the standard single-shift, BLE or extended multi-shift battery.

Easy one-hand scanning The built-in scanner captures barcodes in any condition at virtually any angle with point-and-shoot simplicity — from near contact to as far as 40 ft./12 m.

Transforms into five other devices Turn the TC22/TC27 into a two-way radio, a PBX handset, a lightning-fast RFID reader and a mobile-driven workstation or hybrid Point-of-Sale (POS).
Purpose-built accessories Every job is easier. Accessories simplify backroom device management for IT, increase task simplicity and device durability for workers — and make carrying the TC22/TC27 so easy.

Contactless ready Accept non-payment items in digital wallets with a quick tap, including loyalty card, coupons, tickets and passes — and integrate easily with your tap-to-pay app.

Less than half the total cost of a smartphone When you add up the cost of replacement devices, repairs and technical support time, you'll save a lot of money in the long run with the TC22/TC27.[3]

Run all your apps — all at once Voice, data, artificial intelligence, augmented reality, machine learning — run them all with the next generation processor, plus class-leading memory and data storage options.

Complimentary Mobility DNA Professional tools for unmatched value This no-cost toolkit makes data capture easier for workers — and security, deployment and everyday management easier for IT personnel.
