Jabra Video Solutions Guide

2023 May

START

We used to start meetings with a handshake. Today we start with an on-screen hello

Jabra as a video brand

At Jabra, we have 150 years of experience developing technology that brings people closer together. You may know us from our world-leading professional audio solutions, which range from premium office headsets, to innovative speakerphones, to consumer true wireless earbuds, and more.

With the move to flexible working, video meetings offer a more efficient way to collaborate. Which is why these days, we create, award-winning video solutions too.

Innovation front and center

We've made it our mission to reinvent your video experience with our cutting-edge range of PanaCast video solutions that feature the very latest 4K AI-based video technology along with our outstanding audio engineering.

Our unique 180° field-of-view enables everyone in the room to be clearly seen without any distortion, while AI-enabled intelligent features automatically follow the action of a meeting and help reduce virtual fatigue. Offering inclusive meeting experiences that make everyone feel equal no matter where they call in from, our PanaCast solutions are intelligently engineered to make hybrid working work.

Don't just take our word for it

PanaCast video solutions are enabling effective collaboration and making a real difference to how dispersed teams work together.

We make a point of working closely with leading collaboration platform partners to ensure a seamless user experience. That's why our solutions are extensively tested and certified for Microsoft Teams. So you can be confident of effective and reliable meetings from the minute you hit 'Join.'

We can't replace the real-life handshake. But we come real close.

It's video collaboration. Reinvented.

JABRA PANACAST
Technology for life's new rhythm

Microsoft has installed PanaCast 50 video bars in its meeting rooms around the world to provide a better hybrid meeting room experience.*

* PanaCast 50 is installed in selected Microsoft office locations

WHY JABRA

Hybrid work is simply work now

The way we work and use office space has changed with hybrid working.

Optimizing Teams collaboration

With Microsoft Teams hitting more than 300 million monthly active users¹, companies are reimagining their online and in-person meeting technology and spaces to optimize Teams collaboration for hybrid working teams. From meeting rooms to home offices, open-plan spaces to co-working hot desks, helping employees stay productive and collaborative is a leading priority for companies around the world.

Innovative video experiences

This is where Jabra comes in. Jabra and Microsoft have a long and successful track record of working together, developing industry-leading experiences and innovative solutions. Our PanaCast family of video devices combine outstanding video experiences with simple set up, deployment and management, to enable you to get the most from your collaboration investment from the word go.

Certified solutions

Jabra video solutions are fully certified for Microsoft Teams, showing they are proven to deliver superior performance and reliability with the Teams platform.

WHY JABRA

Introducing the PanaCast series

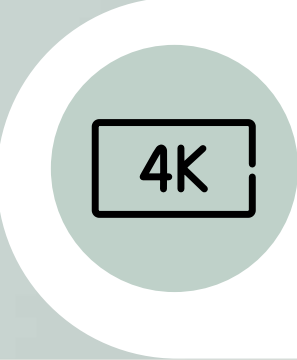

Video like you've never seen before

From all-in-one room systems to personal video devices, the Jabra PanaCast series offers a unique combination of intelligence-driven video experiences, and outstanding audio and AI capabilities to completely reinvent collaboration wherever you work.

The PanaCast series offers a range of solutions for every business need with next-generation features.

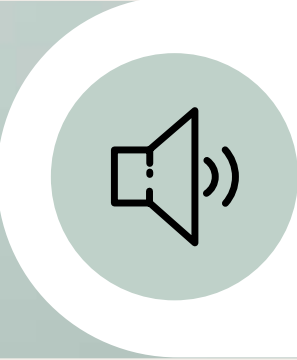

1 PanaCast 50, PanaCast 50 Room System for Microsoft Teams Rooms and PanaCast 50 Video Bar System only. For PanaCast and PanaCast 20, choose a Jabra Speak2 speakerphone or Evolve2 headset for outstanding audio.

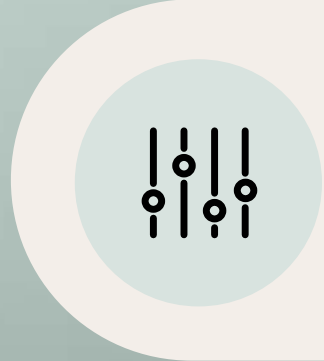

4K HD video quality for a picture perfect view of everyone in the meeting

AI-powered intelligent video experiences, with powerful features including Intelligent Zoom for immersive collaboration to keep everyone engaged

Incredible sound with advanced microphone technology so everyone always sounds sharp, including beamforming microphones, precision voice detection, and full duplex technology to let conversations flow freely¹

Straightforward set up so whichever solution you choose, from plug-and-play portable devices to room systems, it's quick to get started.

Certification for Microsoft Teams. All our room system solutions are also Microsoft Teams Rooms certified.

Easy-to-use with plug-and-play solutions enable you to simply walk into your next meeting and get going straight away

Easy to manage and easy to keep updated with our future-ready architecture.

WHY JABRA

PanaCast 50 Video Bar System

Inclusive meetings at your fingertips.

Our award-winning PanaCast 50 video bar is now available as an all-in-one room system with a touchscreen control tablet, intelligent AI experiences and a state-of-the-art onboard Android compute for an engaging and easy-to-use meeting room solution.

Imagine meetings that start smoothly and keep everyone engaged from the word go. Now stop imagining it and start enjoying future-ready, no-PC-needed instant collaboration with the PanaCast 50 Video Bar System.

ANDROID • ALL-IN-ONE VIDEO BAR SYSTEM • TABLET

- **Unique 180° field-of-view** covers every part of the room so everyone in your meeting space is on camera in high-definition Panoramic-4K
- **Intelligent features including Dynamic Composition, Intelligent Zoom, and Virtual Director** respond in real-time to what's happening in the room, so everyone watching can follow the on-screen action more easily
- **Touchscreen-activated PanaCast Control touchscreen tablet** lets you tap into an easier meeting experience so you can start, join, share content, and end meetings with one quick tap. Tablet comes pre-loaded with Microsoft Teams Rooms software.
- **Four powerful speakers in a zero-vibration stereo setup** flood the room with premium high-definition sound
- **Eight beamforming microphones**, precision voice detection, and intelligent algorithms remove interference such as echo and static to ensure whoever's speaking will be heard in the best way possible
- **Seven Edge and three Edge AI-enabled processors** power the system and support future feature updates and new platform experiences
- **Real-time anonymous People Count and environmental sensors** provide valuable room usage data insights to help organize and manage resources
- **Multiple mounting options** including wall mount, screen mount or table stand*
- **Certified** for Microsoft Teams and Microsoft Teams Rooms

*Table stand and screen mount sold separately.

PERSONAL VIDEO

WHY JABRA

World-class collaboration. Anywhere.

If you're looking for portable video conferencing solutions, Jabra has a choice of award-winning PanaCast solutions.

Choose from PanaCast 20, an intelligent, personal video conferencing device that delivers an incredible range of video experiences, or our Meet Anywhere+ solution that has everything you need to transform any space into an effective collaboration zone.

PANACAST 20

- **4K Ultra-HD image quality** with a 13-megapixel camera for a crystal-clear video
- **Intuitive AI-powered features.** Intelligent Zoom automatically follows your movements, perfectly framing you in real time. Intelligent Lighting Optimization automatically adjusts your lighting in poorly lit rooms. Picture-in-Picture enables you to share a close-up as your main image while continuing to present in a smaller window
- **Plug-and-play portability.** PanaCast 20 is designed to fit on any screen, with an integrated foldable clip. Comes with a protective carry case
- **Add outstanding audio:** choose from our world-leading Evolve2 headsets or Speak2 speakerphones
- **Microsoft Teams certified** so you can connect easily in seconds, for an amazing Teams meeting experience

MEET ANYWHERE+

- **Unique 180° field-of-view** from three 13-megapixel cameras giving a wall-to-wall view of the room in Panoramic-4K
- **Intelligent features** include Intelligent Zoom to automatically frame the active speaker, and Vivid HDR to enhance the best video experience in varying lighting conditions
- **Outstanding seamless premium audio** with the Jabra Speak 750 speakerphone. Full duplex technology ensures both everyone can speak and be heard, even if they talk at the same time
- **Plug-and-play flexibility.** The PanaCast unit can be mounted on top of a laptop or monitor with the adjustable mounting bracket, or on top of the table stand included
- **Fully portable,** Meet Anywhere+ lightweight solution comes with a premium travel case. Ideal for on-the-go professionals
- **Contains:** Jabra PanaCast, Speak 750, 1m USB-A to C cable, premium travel case, table stand, 15% off voucher for Jabra Hub

WHY JABRA

Why Jabra

We're Jabra and we've been engineering technology that makes life look and sound better for over 150 years. So we know to bring people closer, technology must deliver a more natural and inclusive experience. There's nothing like being together in the same room, but video collaboration is the next best thing. We also know that feeling comfortable and being ourselves on video is the key to effective remote working. Presenting on video from your home office in Toronto? Talking your customers through the latest business plan from a Tokyo board room? Whatever you've got going on, we've got you. We call it video collaboration, reinvented with our advanced, intelligent video and superior audio technology. All designed to bring hybrid work and life together in perfect harmony.

Jabra. Technology for life's new rhythm.
