

HP OEM Compute Solutions

A strong hardware foundation for OEM solutions

Build your solution on the high-performing and highly secure hardware foundation designed to meet the demands of challenging environments across industries.

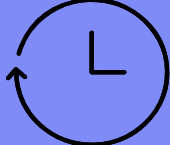

[Learn more about our solutions](#)

Why HP for OEM?

HP OEM Compute Solutions, powered by the latest processors, are built to delight your customers, inspire loyalty, and maximize your business potential. HP Engage devices are designed with long lifecycles, robust performance, and industry-leading security to strengthen your solution and better address your customers' needs. Z by HP further extends the efficacy of our device offering with reliable, high-performance laptops and workstations designed to take on your heaviest workloads and help you get more done.

This combined portfolio of highly adaptable devices offers a wide range of form factors, capabilities, and accessories that are ready for many OEM applications. And it's all backed by HP's global support network.

This combined portfolio of highly adaptable devices offers a wide range of form factors, capabilities, and accessories that are ready for many OEM applications. And it's all backed by HP's global support network.

Long Lifecycle

HP provides continued service past the typical five-year device lifecycle, with up to 10 years of service life.¹

- Enhanced platform consistency and stability
- Opportunity for extended five-year parts and service after discontinuation
- Track record of overlap across hardware generations
- LTSC (Long-Term Service Compliance) OS

Functional, Flexible Designs

Long Lifecycle

Functional, Flexible Designs

Reliability and Security

Global Service Availability

HP operates in 170+ countries, helping to ensure every endpoint is taken care of. In addition, the three-year standard warranty⁶ reduces TCO and maximizes uptime.

- Up to five years warranty and service⁷
- Upgrade protection length and service level through HP Care Packs⁸
- Global coverage, delivery service, and shipping certifications

Healthcare and Life Sciences

Support more efficient, reliable patient care

In their mission to help healthcare and life sciences professionals do their important work more efficiently, manufacturers face dated technology, intricate compliance standards and certifications, and ever-evolving security threats.

The adaptable portfolio of innovative HP OEM Compute Solutions devices is ready to support these professionals at each stage of the patient-care pathway and during organizational operations. HP Engage and Z by HP products help protect your solution by providing industry-leading security and reliability that help keep your patients, their data, and your reputation safe.

THE HP ADVANTAGE

Both HP Engage and Z by HP devices can be easily embedded within OEM medical solutions for long lifecycles, industry-leading security, and to deliver the power needed for healthcare applications with Windows 10 IoT support.

Clinical Laboratories Analysis Instrumentation

HP Engage Flex Pro

Manage microbiology or biochemistry instruments with an adapted power-to-design solution.

- Two size options

- Expansive connectivity ports

- Component stability

- 10-year lifecycle¹

- Powerful processors (up to Intel® Core™ i7)

- Hardened, durable design

- A choice of operating systems (including Windows 10 IoT LTSC 2019)

HP Z4

Reliable processing power in a flexible, easy-to-upgrade desktop form factor for real-time analytics workloads.

- Supports CPUs up to Intel® Xeon® W-2245 or Intel® Core™ i9-10980XE^{18,19}

- Supports up to 2x NVIDIA® RTX™ A6000 GPUs²⁰

- Supports up to 512 GB RAM (Xeon® processors) or 256 GB of RAM (Core™ X processors)²¹

- Supports up to 44 TB of storage²²

- Available with Windows 11 Pro or Windows 10 Pro²³

HP ZBook Studio G9

Stay engaged with patients in the most fast-paced medical environments with high-performance computing power in a lightweight, mobile frame.

- 16" diagonal screen size

- Supports CPUs up to Intel vPro® with Intel® Core™ i9^{18,19}

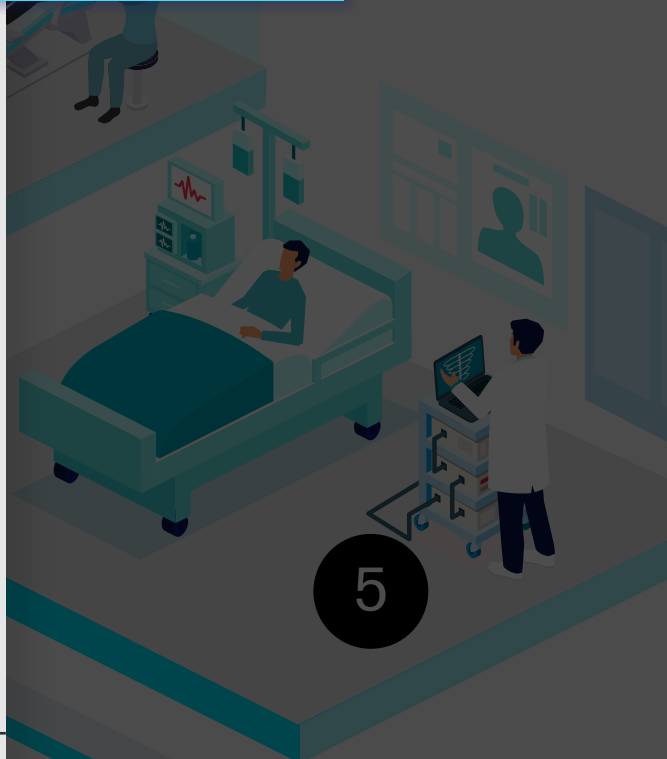

- Supports GPUs up to NVIDIA® RTX™ A5500 Laptop GPU or GeForce® RTX™ 3080 Ti²⁰

- Supports up to 64 GB of SODIMM DDR5 memory²¹

- Supports storage options up to 4 TB PCIe® Gen4 x4 NVMe™²²

- Available with Windows 11 or Linux® Ubuntu 20.04²³

- Configurable with preloaded data science software tools

Medical Devices for Dental

HP ZBook Fury G9

Power through CAD/CAM and CNC machining workloads for creating quality dental crowns with desktop-caliber editing performance in a highly mobile design.

High performance

High graphics configuration

Passed US Military Standards with high endurance to dust

HP Z2 Mini G9

Create 3D imagery of your patients' teeth structure from 2D x-rays and store captured images—even DICOM data—after 3D reconstruction. The HP Z2 Mini workstation packs an incredible amount of processing power into an ultra-compact frame.

High-end professional graphics card

Rapid reconstruction of 3D dental image for more throughput

Machines can handle good thermal heat management inside cabinet

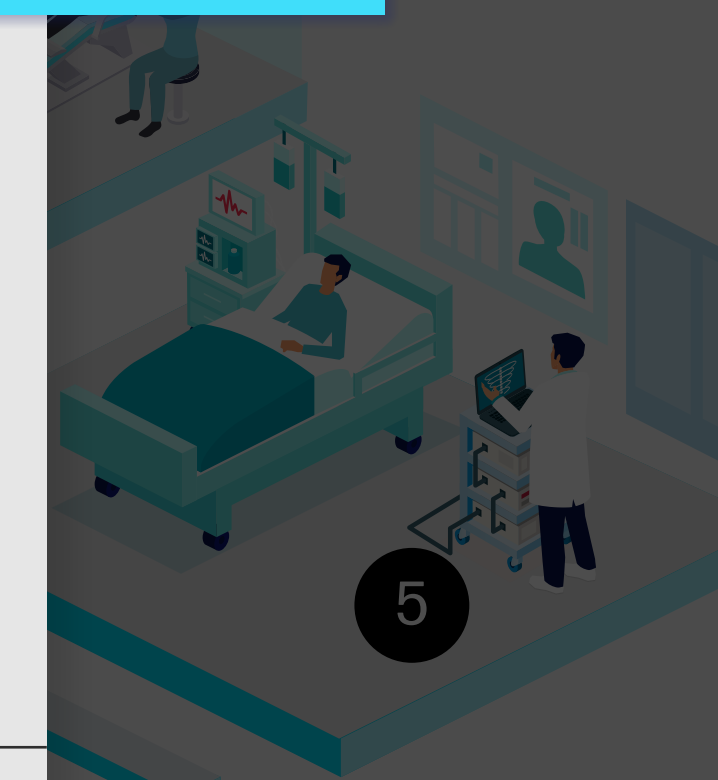

HP Z8

Perform non-contact 3D color scanning of the tooth pattern. Work with 3D scanned data in real time, and touch up imagery for quick and accurate care with noise removal, automatic alignment, smoothing, automatic fill-in-the-blank processing.

Highest CPU and GPU performance within HP Z family

Minimum 3 year lifecycle with extended lifecycle options

Rapid reconstruction of 3D dental image for more throughput

High performance

Flexible connectivity

Processor compatibility from Intel® Celeron® to Core™ i7 (8th Gen)

HP Engage Go 10

Get full mobile accessibility over all the systems you need to control at your building or job site.

10-year lifecycle¹

Dockable tablet

Up to 9-hour battery life

Light, hardened design, military standard; drop-rated

Option to attach to a mounting arm

HP Engage One Pro
(15.6" Diagonal)

Manage and support controls across liquid, oil, and gas utilities systems from a large, easy-to-use touchscreen.

10-year lifecycle¹

High reliability

High-brightness screen and anti-glare coating for visibility across lighting conditions

Flexible mounting options (wall, pole, in portrait or landscape, etc.)

HP Z4

Manage process control for chemical engineering systems from a single, powerful device with a comparatively small footprint.

Supports CPUs up to Intel® Xeon® W-2245 or Intel® Core™ i9-10980XE^{18,19}

Supports up to 2x NVIDIA® RTX™ A6000 GPUs²⁰

Supports up to 512 GB RAM (Xeon® processors) or 256 GB of RAM (Core™ X processors)²¹

Supports up to 44 TB of storage²²

Available with Windows 11 Pro or Windows 10 Pro²³

Media and Entertainment

Create without limits

When content can be created anywhere—in a studio, on location, or from the comfort of home—technology needs to be equally flexible. From powerful desktop towers to thin-and-light laptops with incredible battery life—and everything in between—Z by HP is up to the challenge.

THE HP ADVANTAGE

All devices in the Z by HP family are designed for extreme performance in even the most demanding professional workflows. But the vision behind our Z by HP devices goes beyond powerful processing and graphics. Our workstations are built to last—and to enable your customers to captivate and amaze audiences year after year.

BUILT TO ENCOURAGE PEAK CREATIVITY

The HP Z8 desktop can accommodate dual NVIDIA® RTX™ A6000 GPUs as well as 56 CPU cores

Our thin-and-light HP ZBook Studio is VR-capable with up to an NVIDIA® RTX™ A5000 GPU

All HP laptops, desktops, and workstations offer high capacity storage and memory in flexible configurations

HP Solutions

Data Science and AI

Get rapid results from your most demanding datasets, train data models, and create data visualizations with Z data science laptop and desktop workstations—optionally preloaded with the optimal data science software stack.

HP Anyware

HP Anyware is the enterprise software IT needs to keep people productive with secured access to their digital workspaces without a VPN. Built on the same technology that won both Teradici and HP Engineering Emmys in 2020, the flexible deployment options future proof IT against ever-evolving infrastructure, network, and hybrid workforce needs.

Broadcast: Be on-air ready and connected to remote broadcast studios during mission-critical broadcasts—no matter what.

Game development: Create amazing, interactive gaming experiences with high frame rates, low latency, and amazing responsiveness from anywhere—studio, home, or on a secret vacation.

Media and entertainment: Visualize and interact with media workloads from anywhere while meeting the Motion Picture Association of America (MPAA) content security best practices or ensuring Trusted Partner Network (TPN) compliance.

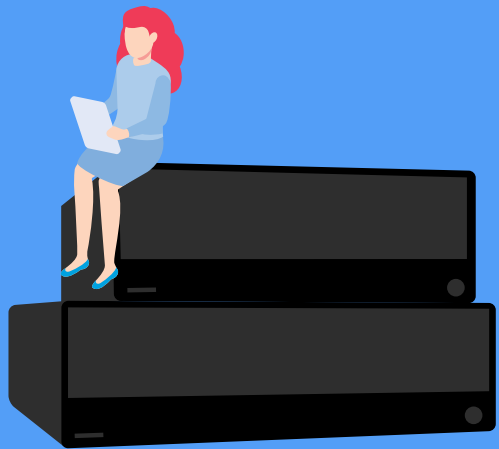

HP OEM Portfolio

Whatever application your industry demands, the HP OEM Compute Solutions portfolio of devices and accessories can help you deliver.

All-in-One Devices

The convenience of a computer and monitor combined into one compact package.

Modular and Desktop Devices

Flexible towers and workstations that can be modified as needed to fit the needs of any work environment.

Mobile and Convertible Devices

2-in-1 devices that can transform to help anyone stay in the zone from just about anywhere.

HP Edge Solutions

A smart ecosystem of sensors, devices, and software made to help power business at the edge.

Peripherals, Displays, and VR

Cutting-edge display devices and peripherals needed to push the boundaries of the possible.

HP OEM Portfolio

Whatever application your industry demands, the HP OEM Compute Solutions portfolio of devices and accessories can help you deliver.

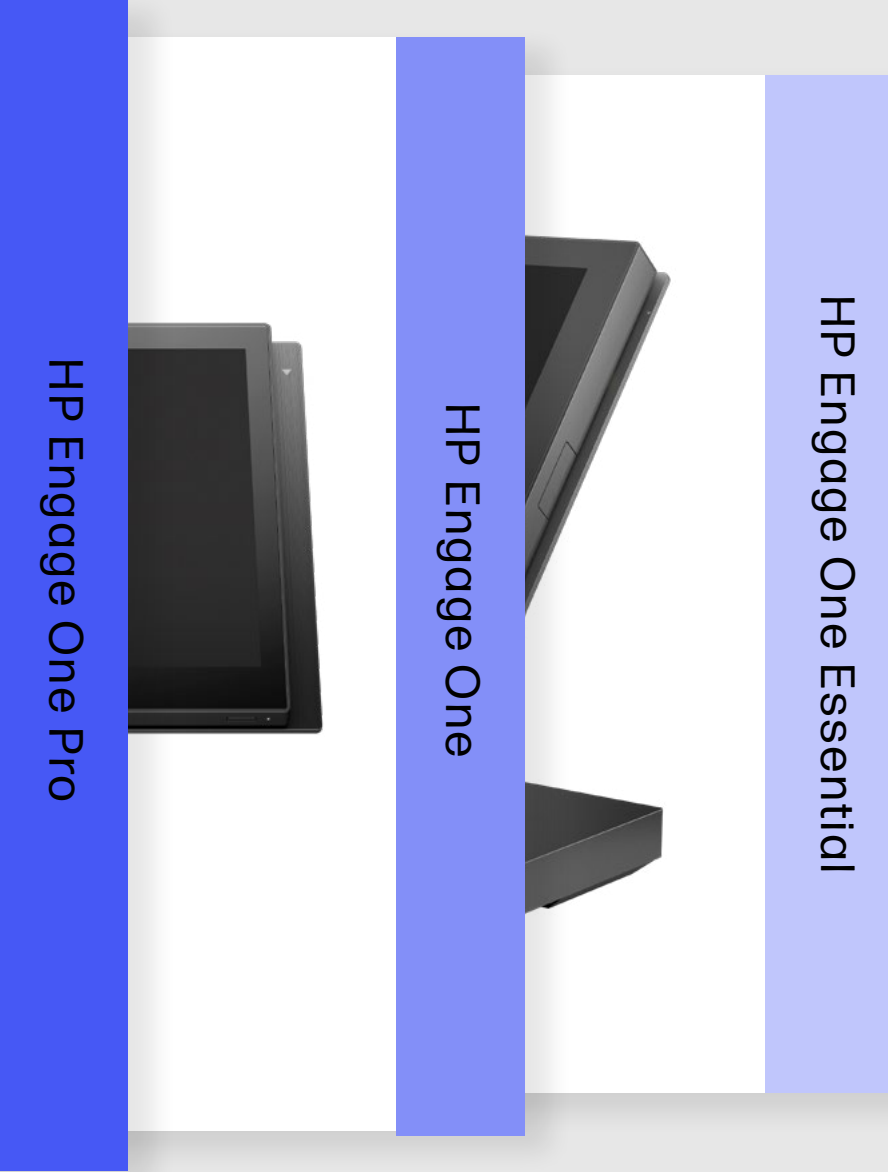

All-in-One Devices

HP Engage All-in-One touch-based platforms are designed to stand the test of time.

HP Engage One Pro

Purpose-built to meet the needs of a variety of industries, with robust features like IP44 rating and an aluminum column and chassis, the HP Engage One Pro combines powerful computing and a premium anti-glare FHD touchscreen in a slim, but durable device. It is offered in three screen sizes, up to 23.8" diagonal, and features integrated peripheral options² and hidden cable management. Multiple mounting options² help the HP Engage One Pro integrate into any solution.

HP OEM Portfolio

Whatever application your industry demands, the HP OEM Compute Solutions portfolio of devices and accessories can help you deliver.

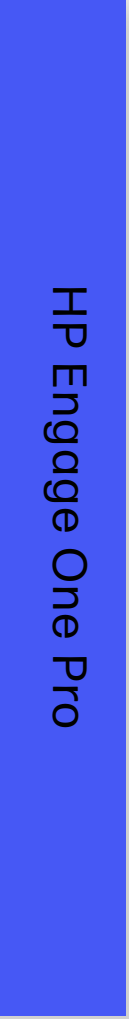

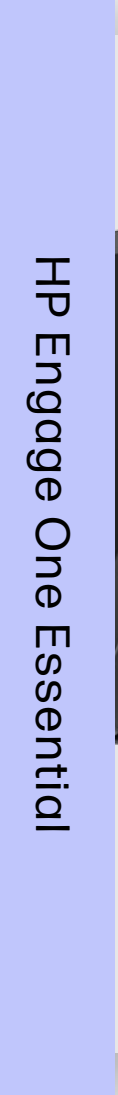

All-in-One Devices

HP Engage All-in-One touch-based platforms are designed to stand the test of time.

HP Engage One

Transform your business solutions with a versatile system that enhances the user experience and supports your critical computing needs. The HP Engage One combines computing and touchscreen into a slim, but powerful device with built-in security, durability, and flexibility at the core of its industry-leading design.

HP OEM Portfolio

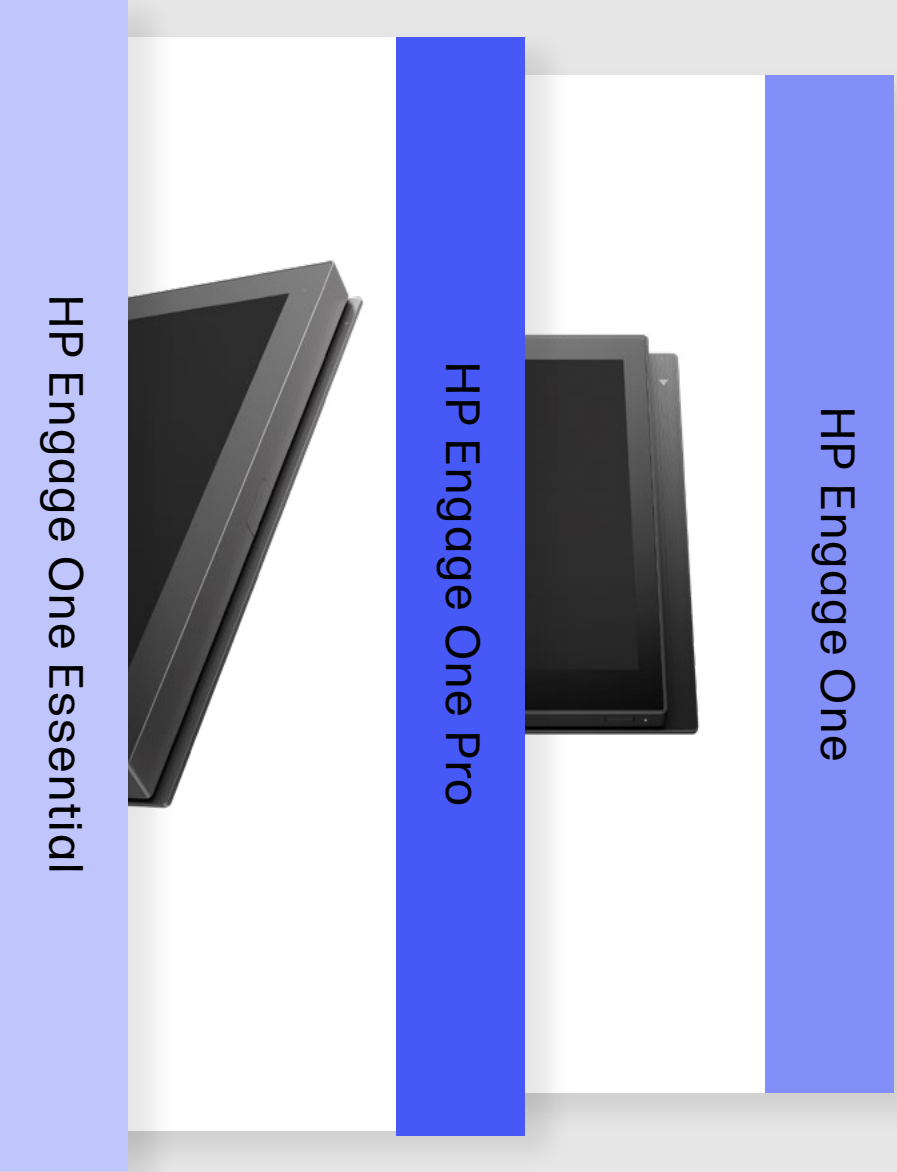

Whatever application your industry demands, the HP OEM Compute Solutions portfolio of devices and accessories can help you deliver.

All-in-One Devices

HP Engage All-in-One touch-based platforms are designed to stand the test of time.

HP Engage One Essential
Confidently enhance reliability with a fanless, fully sealed design to protect from dust and liquid intrusion (IP54 certified¹⁶), and a 3-year onsite warranty⁶—all in a sleek package. The HP Engage One Essential brings agility by providing a variety of integrated peripheral options, as well as a choice of VESA® mounts or stands, including a swivel option.

HP OEM Portfolio

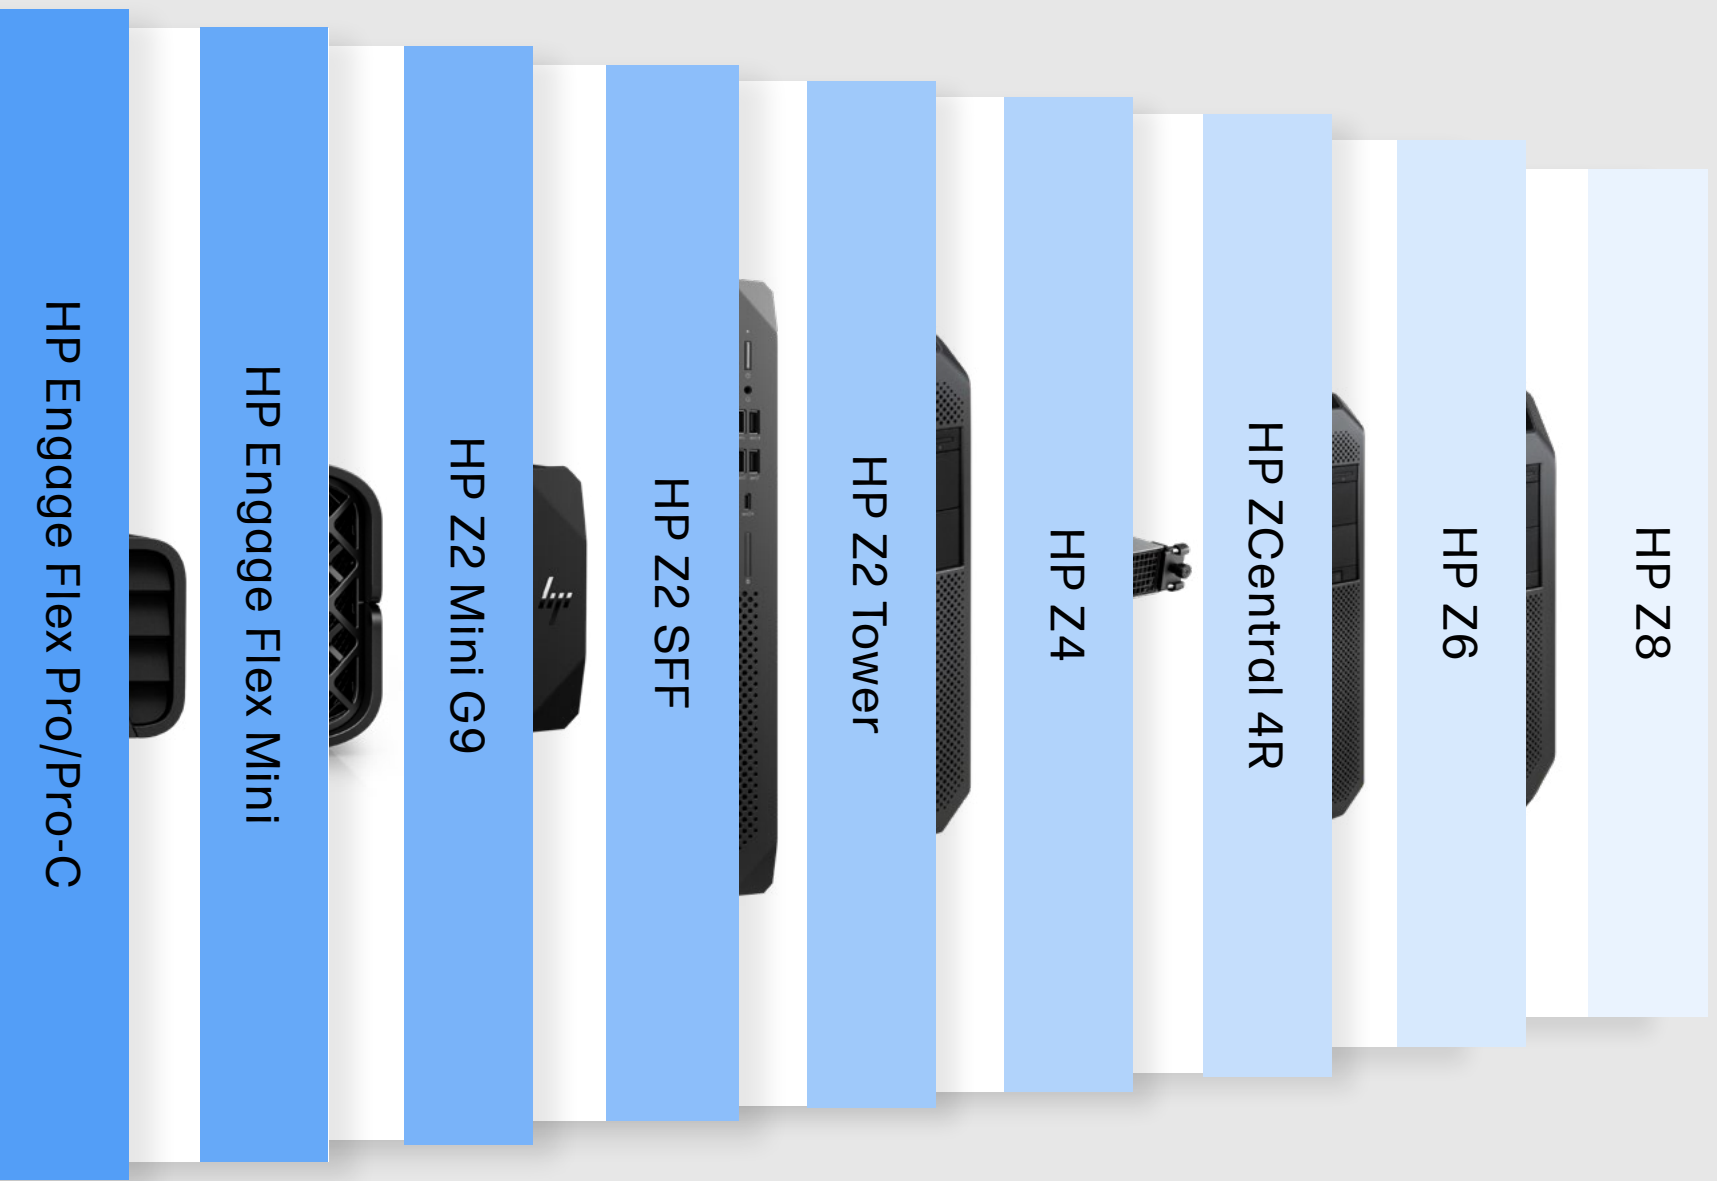

Whatever application your industry demands, the HP OEM Compute Solutions portfolio of devices and accessories can help you deliver.

Modular and Desktop Devices

Create the solution ideal for your environment with highly configurable and ready-to-deploy modular and desktop options.

HP Engage Flex Pro/Pro-C
Efficiently optimize your solution with HP Engage Flex Pro devices. Long lifecycle, maximum performance, and reliability meets highly configurable connectivity and accessory options in a compact size. The petite, yet powerful HP Engage Flex Pro-C is 30% smaller than the Flex Pro. The HP Engage Flex Pro family benefits from a 3-year standard onsite warranty⁶ and extended service contracts up to five years.

HP OEM Portfolio

Whatever application your industry demands, the HP OEM Compute Solutions portfolio of devices and accessories can help you deliver.

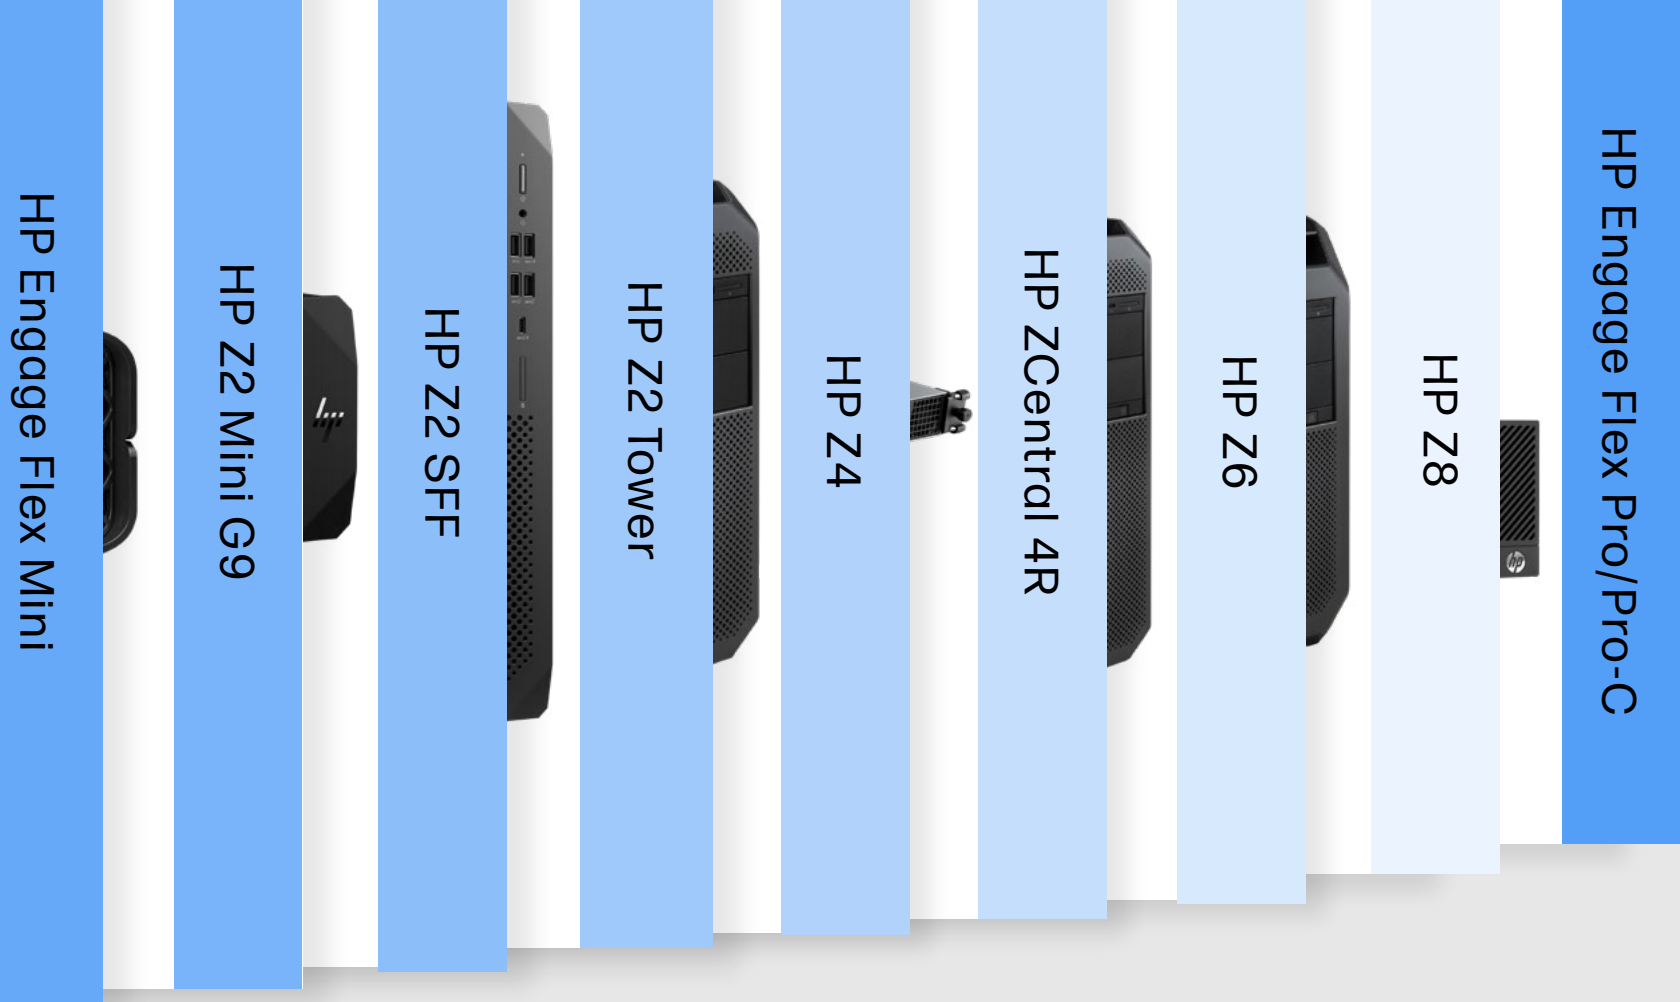

Modular and Desktop Devices

Create the solution ideal for your environment with highly configurable and ready-to-deploy modular and desktop options.

HP Engage Flex Mini

From development to production of integrated solutions, space can be a challenge. The HP Engage Flex Mini's surprisingly small form factor fits where you need it to. Its mini-desktop configuration delivers the power and flexibility your solution needs without getting in the way.

HP OEM Portfolio

Whatever application your industry demands, the HP OEM Compute Solutions portfolio of devices and accessories can help you deliver.

Modular and Desktop Devices

Create the solution ideal for your environment with highly configurable and ready-to-deploy modular and desktop options.

HP Z2 Mini G9

The deceptively small HP Z2 Mini Workstation packs an incredible amount of processing power into a sleek and stylish design that's barely larger than the palm of your hand. Easy to upgrade and easy to mount, store, or hide away, this ultra-petite workstation can put high-end performance anywhere you need it.

Modular and Desktop Devices

Create the solution ideal for your environment with highly configurable and ready-to-deploy modular and desktop options.

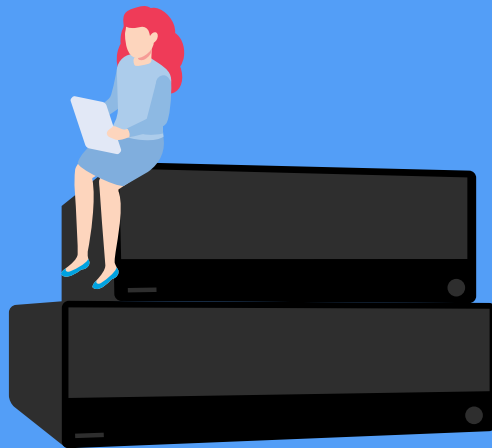

HP Z2 SFF

Some projects require a powerful workstation that can be easily upgraded to meet changing demands. The HP Z2 Small Form Factor (SFF) Workstation comes ready for even the heaviest workloads with full-spec graphics processing capabilities of a typical tower configuration at a fraction of the size.

HP OEM Portfolio

Whatever application your industry demands, the HP OEM Compute Solutions portfolio of devices and accessories can help you deliver.

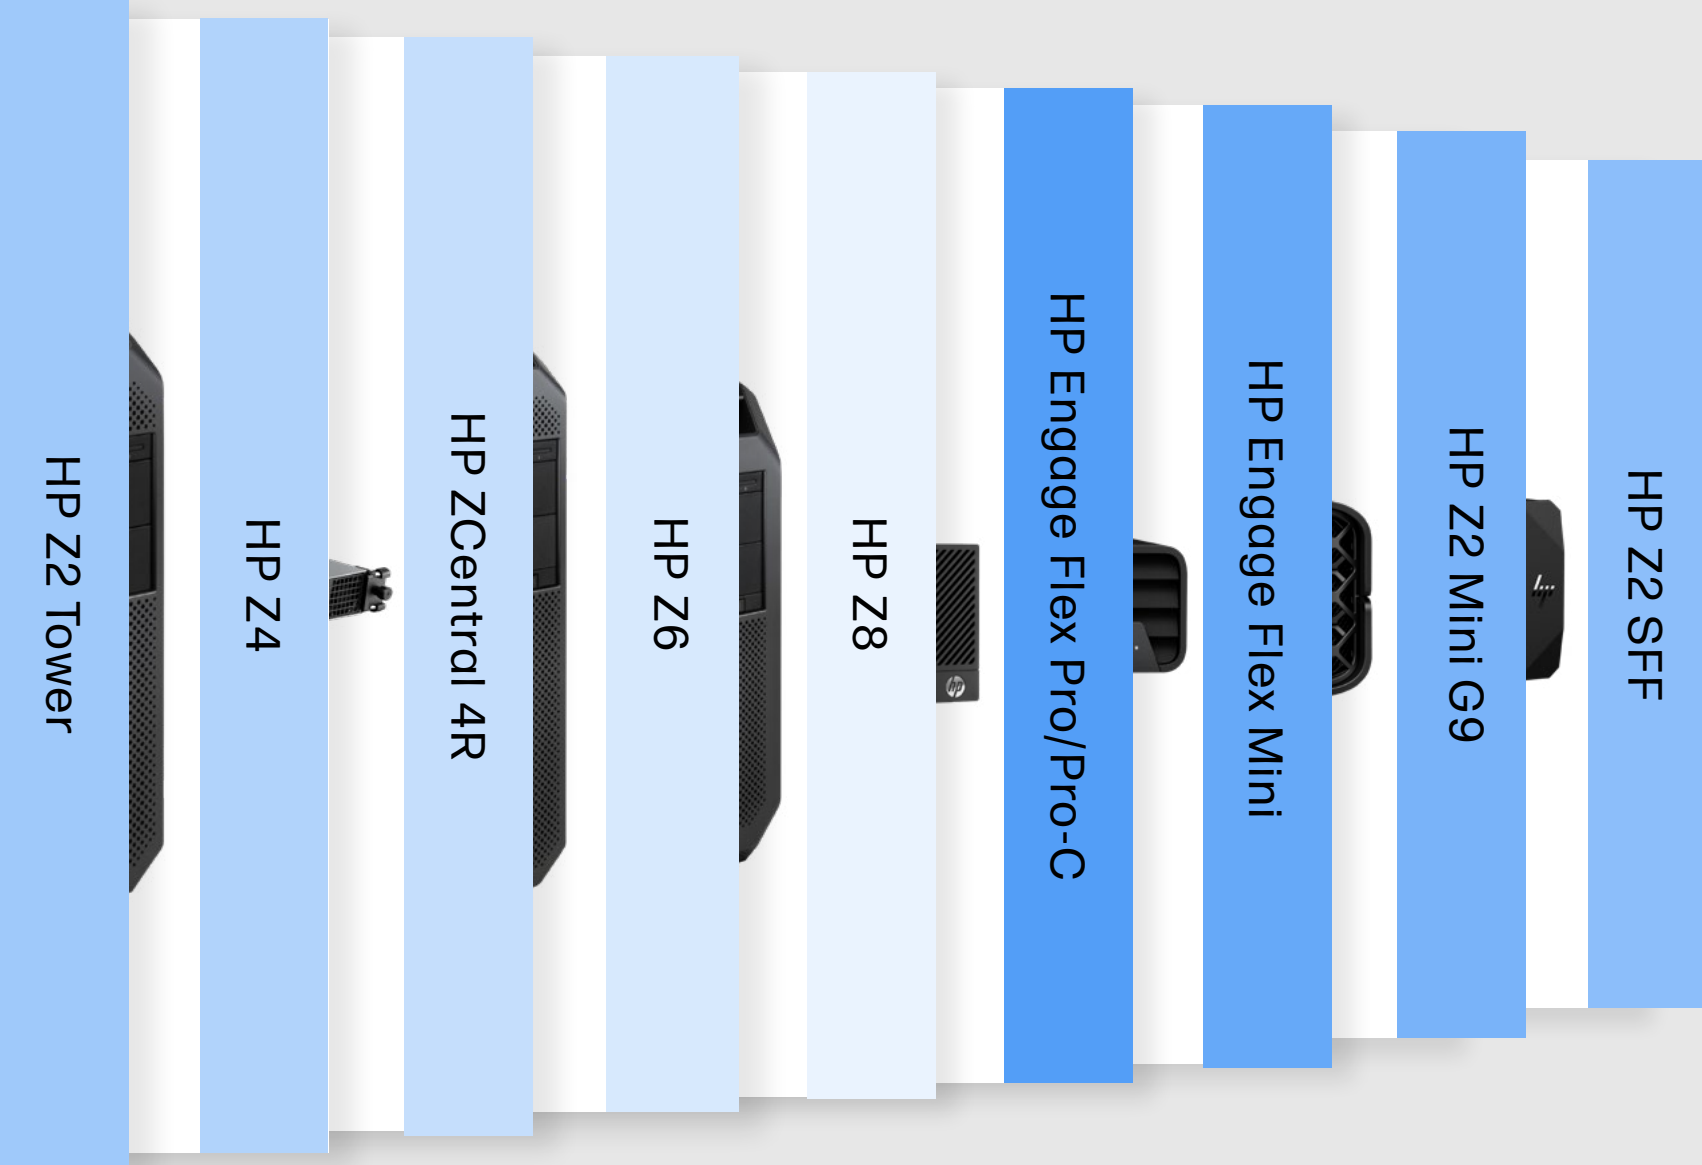

Modular and Desktop Devices

Create the solution ideal for your environment with highly configurable and ready-to-deploy modular and desktop options.

HP Z2 Tower

The fully customizable HP Z2 Tower Workstation Desktop PC is a robust, flexible workstation perfect for modern computing projects where performance matters. Built to reliably handle multi-threaded apps and resource-intensive tasks, the Z2 Tower is here to help you step into a new level of productivity.

HP OEM Portfolio

Whatever application your industry demands, the HP OEM Compute Solutions portfolio of devices and accessories can help you deliver.

Modular and Desktop Devices

Create the solution ideal for your environment with highly configurable and ready-to-deploy modular and desktop options.

HP Z4

The HP Z4 Workstation Desktop PC comes ready with cutting-edge components and hardware for handling computationally demanding tasks with ease. Get yours with high-performance processing and graphics options for today's most demanding workloads—and easily modify and upgrade to fit tomorrow's needs.

Modular and Desktop Devices

Create the solution ideal for your environment with highly configurable and ready-to-deploy modular and desktop options.

HP Z6
No matter what the future holds, you'll have all the performance you need for heavy workflows like visualization and computation design, and still have room to expand your workstation as demands change.

HP OEM Portfolio

Whatever application your industry demands, the HP OEM Compute Solutions portfolio of devices and accessories can help you deliver.

Modular and Desktop Devices

Create the solution ideal for your environment with highly configurable and ready-to-deploy modular and desktop options.

HP Z8
For your most demanding workloads, meet our most powerful workstation. The HP Z8 Workstation Desktop PC comes with cutting-edge components and the highest level of processing and graphics power right out of the box. And its highly expandable design gives you the room to scale things up.

HP OEM Portfolio

Whatever application your industry demands, the HP OEM Compute Solutions portfolio of devices and accessories can help you deliver.

Mobile and Convertible Devices

Embrace new mobile workflows with a durable product built to be used wherever you need it.

HP Engage Go 10

The versatile HP Engage Go 10 can be used in a fixed mode or on the move. This durable, extended-lifecycle 10" diagonal tablet with an integrated barcode scanner² and optional fingerprint reader combines the power of a traditional system with the agility of a mobile device. The slim tablet can be securely docked to an optional base and undocked by authorized staff only. Its incredibly resilient, lightweight design and long-lasting battery are optimized for integration within your mobile solutions.

© Copyright 2022 HP Development Company, L.P.

The information contained herein is subject to change without notice. The only warranties for HP products and services are set forth in the express warranty statements accompanying such products and services. Nothing herein should be construed as constituting an additional warranty. HP shall not be liable for technical or editorial errors or omissions contained herein.

¹ 10-year product lifecycle available on HP Engage One Pro, HP Engage Flex Pro, HP Engage Flex Pro-C, and HP Engage Go 10.

² Optional features, accessories, and mounting hardware sold separately or as add-on features.

³ Tested up to 10,000 wipes with select germicidal towelettes over a 3-year period. See wipe manufacturer's instructions for disinfecting and the HP cleaning guide for HP-tested wipe solutions at "How to Sanitize Your HP Device" Whitepaper.

⁴ Factory services such as software loading, BIOS settings, and component additions are available to configure your product at time of manufacture.

⁵ HP's total test process which includes a minimum of 120,000 hours of rigorous multi-tiered testing per computing platform. HP Total Test Process is not a guarantee of future performance under these test conditions. Accidental Damage or damage under these test conditions requires an optional HP Accidental Damage Protection Care Pack.

⁶ Terms and conditions may vary by country. Certain restrictions and exclusions apply. Other warranty variations may be offered in your region. On-site service may be provided pursuant to a service contract between HP and an authorized HP third-party provider, and is not available in certain countries. Global service response times are based on commercially reasonable best effort and may vary by country.

⁷ HP services are sold separately and are governed by the applicable HP terms and conditions of service provided or indicated to the Customer at the time of purchase. The Customer may have additional statutory rights according to applicable local laws, and such rights are not in any way affected by the HP terms and conditions of service or the HP Limited Warranty provided with your HP Product.

⁸ HP Care Packs are sold separately. Service levels and response times may vary depending on your geographic location. HP services are governed by the applicable HP terms and conditions of service provided or indicated to the Customer at the time of purchase. The Customer may have additional statutory rights according to applicable local laws, and such rights are not in any way affected by the HP terms and conditions of service or the HP Limited Warranty provided with your HP Product.

⁹ HP Engage Go: EMC Compliant- Certified for IEC60601-1-2, CISPR 32 (EN55032) and CISPR 35 (EN55035). HP Engage One: EN 60601-1-2:2015 Edition 4. HP Engage Flex Pro: EN 60601-1-2:2015 Edition 4. HP Engage One Pro: EN 60601-1-2:2015 Edition 4.

¹⁰ HP BIOSphere Gen6 features may vary depending on the platform and configuration.

¹¹ HP Sure Click requires Windows 10. See https://bit.ly/2PrLT6A_SureClick for complete details.

¹² HP Sure Run, Sure Recover, and Sure Sense are supported on Win 10 Pro & Win 10 IoT Enterprise 2019 LTSC; but not on Win 10 IoT Enterprise 2016 LTSC.

¹³ Windows 10 MM14 battery life will vary depending on various factors including product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See www.bapca.com for additional details.

¹⁴ MIL-STD testing is not intended to demonstrate fitness for U.S. Department of Defense contract requirements or for military use. Test results are not a guarantee of future performance under these test conditions. Accidental damage requires an optional HP Accidental Damage Protection Care Service.

¹⁵ HP Omnicept SDK required for integration of HP VR Spatial Audio. Unity and Unreal Engine plug-in are required, plug-ins provided.

¹⁶ HP Engage One Essential All-in-One System is IP54 Certified. Test results are not a guarantee of future performance under these test conditions. With optional payment & VESA® Hubs is void. Accidental damage requires an optional HP Accidental Damage Protection Care Pack.

¹⁷ All specifications represent the typical specifications provided by HP's component manufacturers, actual performance may vary either higher or lower.

¹⁸ Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.

¹⁹ Intel, the Intel logo and Intel vPro® are trademarks of Intel Corporation or its subsidiaries. Intel vPro® requires Windows 10 Pro 64 bit or higher, an Intel vPro® supported processor, Intel vPro® enabled chipset, Intel vPro® enabled wired LAN and/or Wi-Fi 6E WLAN and TPM 2.0. Some functionality requires additional 3rd party software in order to run. Features of Intel vPro® Essentials and Enterprise vary. See <http://intel.com/vpro>.

²⁰ Optional feature that must be configured at purchase.

²¹ Optional, configurable feature.

²² For storage drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 35 GB (for Windows) is reserved for system recovery software.

²³ Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows is automatically updated and enabled. High speed internet and Microsoft account required. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.windows.com>.

²⁴ VR application compatibility required. 30 day trial of HP Omnicept can be downloaded from the HP Developer Portal (<https://developers.hp.com/>). Functionality is limited to sensor data after the trial period. To continue full functionality, resale model requires Royalty License; per seat Developer and Runtime License is required for Enterprise and Government customers. Available in select countries. For complete details see hp.com/omnicept.

Intel®, Pentium, Celeron, the Intel logo, Intel® Core™, and Core Inside are trademarks or registered trademarks of Intel Corporation or its subsidiaries in the United States and other countries. USB Type-C™ and USB-C™ are trademarks of USB Implementers Forum. ENERGY STAR and the ENERGY STAR mark are registered trademarks owned by the U.S. Environmental Protection Agency. Microsoft and Windows are either registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries. Linux® is the registered trademark of Linus Torvalds in the U.S. and other countries. 2017 Google LLC All rights reserved. Google, the Google Logo and Android are registered trademarks of Google LLC. DisplayPort™ and the DisplayPort™ logo are trademarks owned by the Video Electronics Standards Association (VESA®) in the United States and other countries. NVIDIA and the NVIDIA logo are trademarks and/or registered trademarks of NVIDIA Corporation in the U.S. and other countries. All other trademarks are the property of their respective owners.

²⁵ Wireless access point and Internet service required and sold separately. Availability of public wireless access points limited. Wi-Fi 6 (802.11ax) is backwards compatible with prior 802.11 specs. The specifications for Wi-Fi 6 are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11ax WLAN.
