GLIDES OR CASTERS

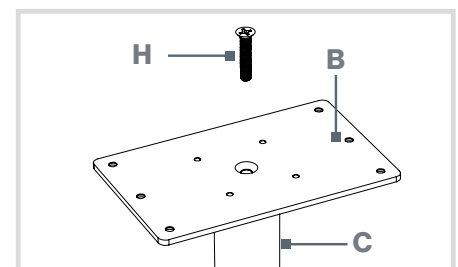

ASSEMBLY STEPS

CORRECT
PLATE
DIRECTION

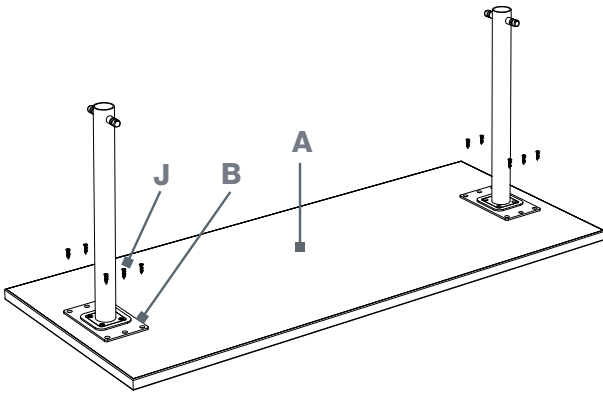

1. Lay the tabletop (**A**) upside down on a piece of cardboard or a carpeted surface.

2. Install (4) M6 flat head bolts (**I**) through mounting plate (**B**) into column (**C**).

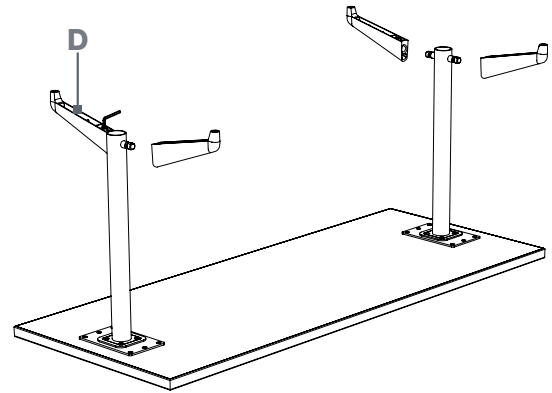

3. Install (1) M8 flat head bolt (**H**) through 5x8 mounting plates (**B**) into steel columns (**C**).

FOR MISSING PARTS OR QUESTIONS, PLEASE CALL CUSTOMER SERVICE AT 888-705-0777.

4. Attach 5x8 mounting plates (**B**) onto the bottom of the table top (**A**) using (8) Phillips wood screws (**J**)

5. Ensure that all mounting pins are secure on the column. If necessary, use a 14mm wrench to tighten.

6. Place (4) aluminum feet (**D**) onto pins (feet should be parallel to the short edge of the table).

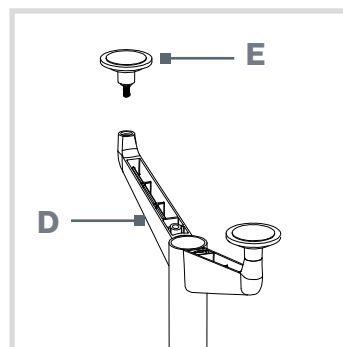

Additional Installation Note for C-Foot Variety Tables:
Install **longer aluminum feet** on the **USER** side and **shorter aluminum feet** on the **NON-USER** side.

7. Tighten (4) aluminum (**D**) feet onto pins using the 5mm Hex Key. (*Mounting hardware comes pre-installed in foot.*)

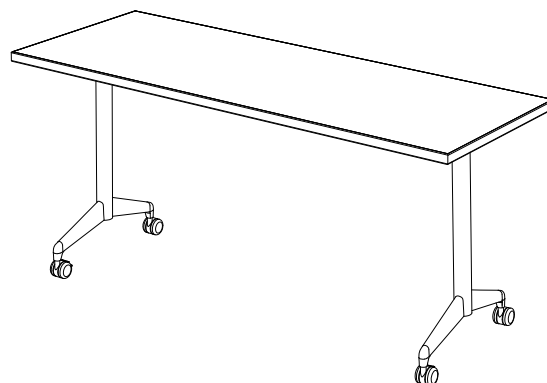

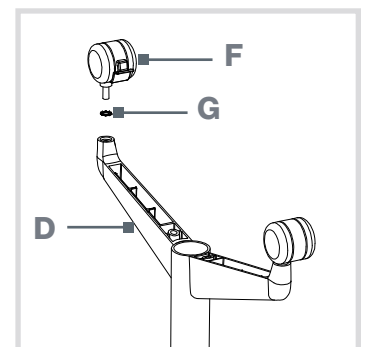

8. Attach (4) glides (**E**) to (4) aluminum feet (**D**) or attach (4) casters (**F**) & (4) lock washers (**G**) to (4) aluminum feet using included caster wrench (**K**).

9. Ensure both legs are fully attached to the tabletop, and carefully flip over the table.
