Choose The High **Quality** Alternative

Elite Image® offers a full line of remanufactured ink and toner cartridges available in the USA and Canada. The current selection of Elite Image® cartridges includes compatible products for Brother, Canon, Dell, HP, Lexmark, and many more. Our line includes both monochrome and color toner, inkjet, MICR, thermal transfer and extended yield cartridges. As we expand our selection of Elite Image®, we are committed to two core principles: Quality and Reliability.

### Elite Image® Quality

Our imaging supplies are designed, engineered, and manufactured for optimum performance and print quality. Developed and engineered by trained professionals in the industry's most sophisticated research and development environments, Elite Image® cartridges contain high quality inks, toners and internal components, all carefully matched by printer type to produce clear, crisp results every time.

### Why Choose Elite Image®

- 100% Quality Guarantee
- High quality, low cost alternative over the national brands
- TAA Compliant\*
- Eco-friendly recycling program
- Print quality & page yield equal to OEM

### Elite Image® Affordability

Elite Image® offers a true alternative to expensive national brand supplies. By switching to Elite Image®, users can experience significant savings on printing without sacrificing quality or performance.

### The Elite Image® Quality Difference:

- All cartridges 100% quality tested
- Use only high quality cores and components
- Engineered to meet or exceed national brand performance
- 100% No-Risk Quality Guarantee

### ECOPATH

#### EcoPath Recycling

Designed for flexibility and ease-of-use, EcoPath Recycling is available to all Elite Image® customers and provides a means for the responsible collection and reuse or remanufacture of empty ink and toner cartridges.

EcoPath is committed to reusing or recycling 100% of a cartridge's components, ultimately limiting the number of cartridges sent to landfills. Just as importantly, EcoPath respects and adheres to the EPA's solid waste disposal hierarchy, segregating all components suitable for reuse as opposed to automatically recycling them. Reuse is the preferred method of solid-waste disposal as it emits less carbon into the atmosphere and produces products of higher economic value than recycling.

For more information or to enroll in the EcoPath program, please visit [www.ecopathrecycling.com](http://www.ecopathrecycling.com)

The Support you Need, When You Need it

#### World-Class Customer Support

Elite Image® customers can rest assured that the high quality imaging supplies they purchase are backed by world-class customer support. Our Technical Support line is available to Elite Image® customers in both English and French during regular business hours (M-F 8:00am – 5:00pm EST), or online.

Our customer service team provides professional service through effective training and active listening. Our technical support staff is highly trained in printer and cartridge technologies, and can identify and resolve the root cause of print quality issues, often without a potentially disruptive visit by an on-site technician. If the issue necessitates, a replacement cartridge will be sent immediately and/or Elite Image® Technical Support will arrange for a qualified technician to visit the user's site.
