Verbatim

Technology you can trust

2011 Product Range

Optical Media . Hard Drives . Flash Memory . Accessories . LED & OLED

Introduction

For more than 40 years, Verbatim has been at the forefront of the evolution in data storage technology and today remains one of the most recognisable and respected names in industry.

Verbatim is now the No.3 brand in Europe for all recordable media* and the global No.1 brand** in optical media with a reputation for quality and reliability, both for the products that it sells and the service that it provides.

WORLD's No.1 Optical Media Brand

Optical Media

As the world's largest brand of optical media, Verbatim offers excellent reliability and wide-spread compatibility with its selection of recordable and rewriteable CD, DVD and Blu-ray discs.

With up to 50GB of storage capacity available on a single disc now, and 100GB discs being introduced to the market in 2011, Blu-ray provides the perfect solution for recording and playing high definition video and getting the best out of your new HD TV.

Blu-ray

Blu-ray discs offer 3 to 5 times the storage capacity of a standard recordable DVD disc, enabling the recording, rewriting and playback of high definition video (HD).

BD-R

BD-R are recordable discs with a 25GB storage capacity. For use in BD writers and recorders.

DVD-R PhotoSave

Verbatim's PhotoSave DVD allows you to quickly backup and archive up to 2,000* photos stored on your PC or digital camera. This recordable DVD searches and stores over 80 different types of photo and video files, protecting your valuable photo memories from hard drive crashes.

It's effortless! The PhotoSave software is integrated onto the blank DVD recordable disc. There is no software to install!

DVD-R PhotoSave

	CAPACITY	SPEED	PACK STYLE	PART NO
PhotoSave DVD	2000*	8x	25 Pack	43702

*Photos of 2MB each

1 Insert the PhotoSave DVD into your DVD-R drive. The software will launch automatically.

2 Import photos directly from your digital camera or PC via automatic photo search.

3 Click "record" to save your memories to DVD. PhotoSave DVD supports multiple recording sessions allowing you to add more photos later.
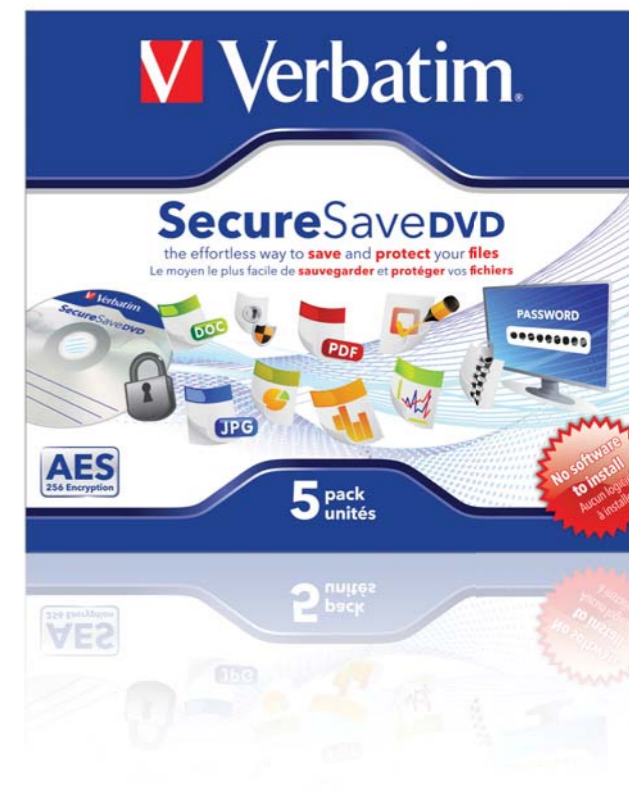

Secure DVD

SecureSaveDVD provides a simple means to save your personal, confidential data on DVD. Nearly everybody has such data on his or her computer hard disk, such as financial or tax data, confidential correspondence, contacts etc. In saving them on a SecureSaveDVD, the files are encrypted using AES256 so that if the DVD is lost or stolen, nobody unauthorised can access the data saved on the DVD.

Verbatim's SecureSave DVD allows you to quickly backup and protect your valuable files using top level 256 bit AES Encryption. With no software to install SecureSave DVD makes it effortless to ensure all of your files are safe and secure.

Professional Optical Media

Verbatim's DataLifePlus professional optical media combines selected high quality media with specially developed printable surfaces. All DataLifePlus products are manufactured on selected lines using specifications which are up to 66% tighter than standard specifications. This means that it offers the best media; the best disc to disc consistency, the best burner and player compatibility and burning quality ever. It also results in less downtime for your hardware, fewer rejects and less cost for you. DataLifePlus comes with newly developed wide printable surfaces without any branding to suit your printing needs. Select the inkjet surface compatible with the professional printers or the new thermal surface, which is now compatible with both thermal sublimation and thermal transfer printing.

Hard Drives

Looking to add more storage capacity to your laptop, desktop PC or Mac? Verbatim's range of external hard disk drives provides easy and safe back-up for all your digital files from photos and videos to business documentation.

Choose from Verbatim's selection of Pocket, Portable, Desktop and Networked Hard Drives offering 250GB to 8TB of storage and a variety of interface combinations for all your digital content, whether it's for work or for play.

Verbatim Sync Software is included, giving you the flexibility to work on any PC anywhere in the world! The 'Dmailer' backup software provides file encryption and creates 'back-up' settings from your PC/laptop hard drive to your Pocket Hard Drive.

Being FAT32 formatted; it is compatible with both Windows and Mac operating systems.

Specifications

External Power: USB port
Interface: One USB Mini-B port
Backup Software: Dmailer Backup Software and Verbatim Sync Software **
System Requirements: Windows 2000, XP, Vista, and Windows 7, Mac OS x 10.1 and higher
Pre-formatted HDD: FAT32 to work with Windows and Mac OS
Unit Dimensions: 90mm x 64mm x 14mm
Unit Weight: 85 grams
Pack Contents: Pocket Hard Drive, Draw string Carry Pouch, USB 2.0 Cable, Quick Start Guide

**Included on the hard drive

Portable Hard Drives

Pocket Hard Drive

Slim line, pocket sized mobile storage for file backup on the go!

The Verbatim Pocket Hard Drive, which is small enough to slip easily into a trouser or jacket pocket, comes in a sleek design with a tough aluminium base and a highly polished piano black surface.

Desktop Hard Drives

2-Disk RAID Hard Drive

The Verbatim 2-Disk RAID storage solution offers several RAID modes including BIG, RAID-0 and RAID-1 providing high speed and reliability for both professional and home use. Available in a USB/eSATA II combination, each drive includes Nero BackItUp & Burn Essentials software to ensure your favourite music, photos, video and critical data are safe.

Mode Settings

BIG
Default setting that provides maximum storage with data saved in sequence to both disks.

RAID-0
Data is saved (striped) across both drives and accessed in parallel to provide highest data transfer rates.

RAID-1
Half of the capacity is used to store your data on one disk and the data is mirrored (copied) to the second disk for safety.

PowerBay

The **PowerBay DataBank NAS** is a robust and secure four-bay cartridge-based hard drive system, offering up to eight terabytes of storage capacity and addressing the fast growing market for network attached storage for small- and medium-sized businesses. The "hot-swappable" cartridge system enables users with no IT expertise to easily remove and exchange protected HDD cartridges without having to turn off system power.

Also available is the P**owerBay DataBank Removable Hard Drive System**, a single-bay solution that can be used in combination with the PowerBay NAS or as a standalone replacement for tape systems.

Go to **www.verbatim-europe.com** for more details on this product.

Specifications

DataBank 4 Bay NAS Drive

External Power: 120VAC input
Interface: 2 x 10/100/1000 Ethernet port (RJ45) for connection to network, 2 x USB 2.0 host ports (type A), 1 x eSATA port
System Requirements: Windows 2000 / XP / Vista / 7 / Mac OS X 10.1 or higher / Linux
Supported HDD File Systems: EXT 2 / EXT 3 (internal HDD), FAT32 (R/W) and NTFS (Read only) for external USB HDD
Drive Rotational Speed: 7200 rpm
Removable Hard Drive: Enclosed hot swappable hard drive system (4 drives)
Pre –Formatted HDD: EXT 2
Unit Dimensions: 170mm x 183mm x 230mm (W x D x H)
Unit Weight: 6.7KG depending on capacity
Package includes: DataBank NAS Drive, Ethernet Cable, EU & UK power cable, Front panel lock keys (x2), User Manual, Software instruction guide, CD ROM with Acronis Backup Software / MagicalFinder network support utility / User Manuals

Key Features:

User Interface: HTTP web browser
Power Management: Power Saving (Disk idle spin-down), Automatic power recovery, Schedule Power On/Off
Disk Management: RAID 0 / 1m+s / 5 / 5+s / 6
RAID + Mirroring (use eSATA drive): 0+mirroring, 5+mirroring, 6+mirroring
Folder Management / User Management / Backup Management
Network File Protocols: FTP / SMB / NFS
Network Service Protocols: DHCP Client / SMB / SMTP / HTTP / FTP / NTP

Removable Hard Drive System Single Bay

External Power: +12 VDC input
Interface: 1 x USB 2.0 port / 1 x eSATA port
System Requirements: Windows 2000 / XP / Vista / 7 / Mac OS X 10.1 or higher / Linux
Supported HDD File Systems: FAT32 / NTFS / EXT2
Drive Rotational Speed: 7200 rpm
Removable Hard Drive: Enclosed hard drive
Pre –Formatted HDD: FAT-32
Unit Dimensions: 170mm x 230mm x 50mm (W x D x H)
Unit Weight: 2.5KG depending on capacity
Package includes: Removable Hard Drive System, AC adaptor + EU & UK cables, USB 2.0 cable, eSATA cables x2, Front panel lock keys (x2), Foot pads x4, User Manual, Software instruction guide, CD ROM with Acronis Backup Software / User Manuals.

Flash Memory

With fast read and write speeds and high levels of shock resistance and durability, flash memory devices provide the perfect solution for convenient and safe transport of data.

Our wide selection of SSD, USB Drives and Memory Cards, including hardware encrypted devices for ultimate security, offer everything you may need for personal or professional use.

Memory Cards

SecureDigital XC

(SD eXtended Capacity) class 10 memory card is designed to handle large volumes of data at lightning speed.

The UHS-I bus interface provides speeds of up to 104MB per second and the exFAT file system enables the card to efficiently organise the large data files.

SecureDigital XC

	CAPACITY	PART NO
Secure Digital SDXC Class 10	64GB	44024

HD Video SDHC

The ultimate product for high definition camcorder videos, Verbatim HD Video SecureDigital High Capacity (SDHC) cards features higher data transfer speeds (minimum 9MB/s(66x) write speed and 20MB/s (133x) read speed) for faster next shot recovery, smoother video capture and playback. They also offer faster image transfer to your PC, printer or photo kiosk.

- Netbook USB Drive

Netbook computers by their nature need to be small and lightweight, which means that many of them come with limited SSD storage. With Verbatim's new Netbook Storage USB Drive, users can easily add 8, 16 or 32GB of storage to their netbook without increasing the size of its footprint.

The USB Drive plugs into the USB port and due to its very small size, can be semi-permanently left in the netbook.

USB Drives

Store 'n' Go - Clip-it USB

DESIGNED BY **ARMAN EMAMI**

reddot design award
best of the best 2010

The award-winning Verbatim Clip-it USB Drive is the first USB Drive that can also be used as a paperclip. Designed by Arman Emami, Clip-it has been awarded the accolade of Red Dot 'Best of the Best' 2010. Available in a range of vibrant colours, Verbatim's Clip-it USB drive combines flash storage with the simple functionality of a paperclip, making it a wonderfully practical solution for daily business or private users.

Secure 'n' Go - Secure Data USB Drive

The new Store 'n' Go Secure Data USB Drive addresses the burgeoning need of private users to keep data safe when being carried around.

The secure USB drive offers a powerful 256bit AES hardware-encryption and mandatory password which ensures that the data on the drive is always encrypted and secure. For added security, the USB device erases all data after 20 wrong password attempts.

It is available in three storage capacities - 4GB, 8GB and 16GB.

Secure 'n' Go - Security Consumer USB

	CAPACITY	PART NO	HARDWARE ENCRYPTION
Secure 'n' Go Secure Data USB Drive	32GB	44072	256bit

Secure 'n' Go - Small Business Security Pack

For professionals - doctors, engineers, tax consultants, architects etc. - where security of information is vital, the new Secure 'n' Go Small Business Security Pack offers a complete and easy-to-use solution incorporating data encryption and endpoint protection.

The 256bit AES hardware encrypted USB drive ensures that all data saved on it is 100% secure, and the embedded endpoint protection software can be loaded on PCs to only allow approved, encrypted USB drives access to the data on the computer.

Easy to handle, quick to install and intuitive to use, it is ideal for organisations that may not have a full time IT administrator but still require a robust security solution for their data.

SSD

What is SSD?

Flash-based, solid-state drive (SSD) solutions are increasingly finding their way into laptops, servers and other devices, offering rugged, fast and power-efficient removable storage.

With no moving parts, it is completely silent and doesn't have the risk of "mechanical" failure as associated with hard disk drives.

What is PCI Express?

PCI Express, officially abbreviated as PCIe, is a computer expansion card interface introduced by Intel in 2004. It was designed as a much faster interface to replace PCI, PCIX, and ACP interfaces for computer expansion cards and graphics cards. The PCI ExpressCard slot is completely different from those of the older standard PCI slots or those for PCI Extended (PCIX).

SSD

SSD ExpressCard

Verbatim's SSD ExpressCard is a hot pluggable, high performance solid state disk (SSD) drive suitable for use in any 34mm or 54mm ExpressCard slot equipped laptop or notebook computer.

Paper

Give your images respect they deserve - print them on high quality paper! You'll be amazed at the difference when you use your home and office printer - your colours will be more vibrant, your blacks richer and your images sharper. Whether your preference is glossy or matt stock, with different sizes and weights of paper (even double sided), Verbatim Photo Paper will bring your photo collection to life.

Paper Type - 6x4"/15x10cm

	PRINTER	SIZE	WEIGHT	SHEET/PACK	PART NO
Glossy Photo Paper	Inkjet	6x4"/ 15x10cm	200gsm	20	45018
Glossy Photo Paper	Inkjet	6x4"/ 15x10cm	200gsm	100	45014
Glossy Photo Paper (Promotion Pack)	Inkjet	6x4"/ 15x10cm	200gsm	100 + 100	45012

Toner - Monochrome

Precisely matched to OEM printer specifications, Verbatim's Monochrome all-in-one Laser Toner Cartridges and Toner Kits provide a high toner density resulting in clean, solid print images every time.

Through the world leading expertise in organic photo-conductor (OPC) and toner technology of its parent company Mitsubishi Chemical, Verbatim can offer a range of toner products that guarantee perfect print results while providing a lower cost per printed page.

LED Lighting

LED

The lighting market is changing. LEDs and OLEDs are now positioned to replace classic lighting technologies in residential and professional spaces. They will bring huge energy efficiencies and offer innovative solutions to support every conceivable application. Verbatim is at the forefront of this change, introducing a selection of LED and OLED lights that incorporate the know-how of its parent company, Mitsubishi Chemical Corporation – one

of the largest chemical companies in the world with more than 50 years experience in developing lighting materials.

The technology behind each Verbatim LED lamp is focused on efficiency, comfort and respect for the environment. LED's by their nature are more efficient in converting electricity into light. They also have a very long lifetime; less waste is produced, reducing the impact on the environment. The combination of the comforting light that LED lamps produce and the peace of mind which comes with caring about the environment in which we live contribute to the Verbatim lighting experience.

Offering optional comforting warm light or brilliant cool light, Verbatim LED lamps have modern, yet timeless designs and provide a direct replacement of classic incandescent or halogen lamps incorporating popular bases including E27, B22, E14, GU5.3 and GU10. They are all energy saving, long life, shock and vibration proof and emit no ultraviolet or infrared radiation. They are also all equipped with TCS (Temperature Control System) to avoid overheating and to ensure a full product lifetime. Come with us on our journey into light's future.

To find out more, go to **www.verbatimlighting.eu** Verbatim – Technology you can trust.

Classic Shaped Lamps

Classic A 7W, 200-240V, E27, dimmable, 260lm, warm white

Classic A 10W, 200-240V, E27, dimmable, 500lm, warm white

Classic B 4W, 200-240V, E14, 110lm, warm white

NR63 8W, 200-240V, E27, dimmable, 350lm, warm white

Classic A 7W, 200-240V, B22, dimmable, 260lm, warm white

Classic A 10W, 200-240V, B22, dimmable, 500lm, warm white

NR63 8W, 200-240V, E27, dimmable, 350lm, cold white

Reflector Types

MR16, 6.5W, 12V, GU5.3, dimmable, 280lm, warm white

PAR16, 8W, 200 - 240V, GU10, dimmable, 350lm, warm white

MR16, 6.5W, 200-240V, GU10, dimmable, 280lm, cold white

MR16, 4W, 200-240V, GU10, dimmable, 280lm, warm white

MR16, 6.5W, 12V, GU5.3, dimmable, 280lm, cold white

PAR16, 8W, 200 - 240V, GU10, dimmable, 350lm, cold white

OLED is a lighting device composed of ultra thin films of organic molecules that create light. Multiple times thinner than a human hair, OLED lighting can be made flexible and as light as a feather. They provide brighter, more dynamic lighting, are mercury free and use even less power than LEDs.

Mitsubishi Chemical Corporation (MCC) has decided to use the unique qualities of OLEDs, integrating them into printable whole injecting material (HIM) with newly researched light emitting technology. This allows the mass production of the world's largest class of lighting area, about 14cm square.

Illumination appliances containing MCC OLED technology, which offers high quality colour lighting with dimming and full colour tuning capabilities, will be launched through Verbatim's worldwide sales network in 2011.

Products will be on show at Fuori Salone, Zona Tortona 2011, Milan, 12-18 April.

To find out more and get an invitation to the display, please register on www.verbatimled.eu

Experiencing light like never before:

OLED – Velvet Lighting

OLEDs (Organic Light Emitting Diodes) promises a paradigm shift in lighting design which will have designers, planners and architects glowing with excitement. They offer high quality, soft, colourful lighting with a luxurious feel; as smooth and as rich as velvet.

Green Button - Energy Saving

The GREEN BUTTON software reduces energy consumption and extends the drive's life expectancy by automatically placing the Verbatim Store `n` Go into sleep mode after a programmed period of time or by the user manually clicking on the GREEN BUTTON on the desktop.

When Green Button function is not activated or not in use.
430 mA*

When Green Button function is activated and hard drive is suspended.
340 mA*

* The mA indicated are achievable in a testing laboratory environment. Actual performance may vary and will depend upon the hardware / software specifications / settings of the device in which the item is used.

Green button software enables you to control when to suspend the hard drive to save energy.

When the hard drive is idle, you can just click the "suspend now" button and turn the hard drive to "sleep mode" to save energy.

Core Technologies

Verbatim has always been at the forefront of technological innovation. We are able to maintain our leadership and market the very latest products and technologies due to the extensive research and development that is undertaken by parent company Mitsubishi Kagaku Media in Japan.

We pride ourselves on our 'Core Technologies'.

AZO™ Ultimate resistance to UV light for increased protection and reliability. High quality picture and sound with more than 100 years archival. Used in BD-R LTH type, DVDR and CD-R discs.

SERL™ A special recording layer present on Verbatim's CD-RW, DVD/ RW and BD-RE media that ensures noise-free recording time and time again.

HARD COAT A specially created tough coating for DVD media and Blu-ray Discs that is superbly resistant to harmful scratches.

CRYSTAL A tough, clear surface layer for increased protection against accidental surface damage.

M·A·B·L™ Metal Ablative Recording Layer. A specially created inorganic recording layer present on Verbatim's BD-R media ensures excellent recording compatibility and prolonged stability for archival life.

Medi Disc CD-R and DVD-R targeted toward the medical industry for storing valuable patient information. Using tighter specifications for better compatibility and recording quality. Uses AZO.

Support Services

To maintain and deliver our promise of guaranteed customer satisfaction, we have provided online support services to help you with any questions you may have regarding product releases, downloads, technical issues and useful links.
