## 2-Port USB 2.0 Automatic Printer Switch

IOGEAR's USB 2.0 Automatic Printer Switch allows two PCs and/or Macs to share one printer or multi-function printer. Simply submit a print job and the printer automatically\* switches to the preferred computer. The switch also enables two computers to easily share one external hard drive, scanner, or any USB device. No more plugging and unplugging between computers. \*\*Automatic Switching software requires Admin rights

### Features

- Automatically\* switch from one computer to another when connecting to a USB printer or multi-function printer
- Easily share a USB 2.0 device between PC and Mac without a network setup
- Simply press a button to switch a USB device between computers - No software installation required
- Active-port LED lights indicate which computer has access to the USB device
- Switch-lock function prevents other users from switching the USB device and ensures data access consistency
- USB 2.0 support with data transfer rate up to 480Mbps and USB 1.1 backward compatible
- No external power supply needed

\*\*Automatic Switching software requires Admin rights

### Requirements

#### For PC Users

- Windows 7, Windows 8.1, Windows 10
- Available USB port
- Chrome Book
- Linux®, Unix and other USB supported systems\*

\*Additional drivers and support may be needed
