

MINOX

VISIBLE INNOVATION

DSC Silver
Digital Spy Camera

TOP SECRET

The legend lives on!

Seeing this camera makes most people immediately think of Bond, James Bond. This is small, really small. It's so wee it disappears in a clenched fist. Or in the heel of a shoe or other ingenious hiding place. The legendary MINOX spy camera has now reached the digital age.

MINOX DSC Silver – the next Spy Generation

The new generation of the legendary MINOX Spy Camera is designed in a stylish, highly desirable metal finish and is equipped with a new generation sensor providing a full 5.1 Megapixels of output for very impressive, high resolution images. Moreover the new DSC Silver provides the ability to focus on subjects as close as 23.6 inches. This outstanding masterpiece in minimalist design and photo technology packs remarkable features into dimensions of just 3.4 x 1.14 x 0.78 inches. The bright viewfinder allows spontaneous, fast shots, even in critical light conditions.

In total, these features make the new DSC a very sound optical notebook. The system has an additional external flash that can be docked on to the side of the DSC. And to provide the user with the accustomed convenience of a display for viewing video and image results, the flash has an integrated 1.5 inch TFT LCD monitor. The image data can be saved on micro SD memory cards of up to 16 GB, in addition to using the internal memory.

Only MINOX grants the License to Shoot

In addition to the external flash with display, the MINOX DSC comes with a leather case for carrying it, rechargeable batteries for camera and flash, a USB cable and a user manual with operating instructions.

www.license-to-shoot.com

The new image world of the small MINOX DSC has its own internet forum on "www.license-to-shoot.com". Original and exciting "Agent M Shots" can be placed on this site and contacts made to other "agents" all over the world.

Technical Data DSC

Image sensor	5.1 Mega Pixels, CMOS Sensor
Image resolution	Still: 2,608 x 1,956 pixels / Video clip: 640 x 480 pixels
