Spacedec Freestanding | Triple SD-FS-T

The Spacedec SD-FS-T is designed to mount three 24" 8kg monitors on either a freestanding low footprint base or via a bolt through mounting option (both included). It has been designed for quick and easy installation and set up. The SD-FS-T is an extremely durable mounting solution featuring a curved "cockpit" style configuration which provides superior ergonomic viewing and no-fuss space saving operation. This fully adjustable and robust product is ideal for multi-screen users, particularly in commercial and "onsite" environments. Monitor height, tilt, pan and landscape to portrait rotation can be easily adjusted. This product also features outstanding cable management for neatly and safely housing up to 12 x 8mm diameter cables.

Mounting hole pattern:
75mm x 75mm;
100mm x 100mm
200 x 100mm (via optional adaptor plate
AC-AP-2010; sold separately)

Maximum weight carrying capacity:
3 displays up to 8kgs (17.5lbs) each

Product key features:

- Strong steel and aluminium construction
- Easily accommodates up to three 24" monitors (each up to 600mm wide in a landscape configuration)
- Independent monitor position adjustment allows for a combination of variable screen sizes
- Bolt Through and Freestanding base mounting options (both included)
- Integrated cable management
- All mounting hardware included
