

Power to print your world

PIXMA For Home Range Guide

you can

Canon

 **PIXMA**

It's easy to be creative with the stylish, compact range of PIXMA All-In-One printers, which includes colour options to fit your lifestyle. Real value software lets you organise and print your photos, even direct from Facebook.

PIXMA for your home

With more flexible connection options than ever before, it has never been simpler to share your PIXMA around the home, print via the Internet and from your smartphone or tablet devices. The eye-catching Intelligent Touch System provides easy, light-guided operation and for extra convenience the PIXMA MG6350 now comes with a large touch screen.

Large-capacity XL cartridges are available for high quality, cost-effective printing. Eco-friendly features include paper-saving automatic double-sided printing and energy-saving automatic power on and off functions. Choose the perfect photo printer or All-In-One printer, scanner and copier for your home and enjoy PIXMA's outstanding quality results, every time.

My Image Garden

My Image Garden

**Experience the full potential of
your PIXMA**

Simplify how you organise and print your photos with My Image Garden software. It brings together all the tools you need to inspire your creative ideas, while making it easier to view and arrange your images. Thanks to Auto Face Recognition and other intelligent features, it automatically finds photos on your PC, even those long forgotten, and makes it simple to use them to create and print photo collages, cards, calendars and disc labels. A selection of fun photo filters is also available. With PIXMA All-In-One printers, My Image Garden will also manage scanning documents and photos, using text recognition to create and edit PDFs.

**CREATIVE PARK
PREMIUM**

CREATIVE PARK PREMIUM

**The simple way to create professional
looking photo prints, greeting cards,
calendars and more**

CREATIVE PARK PREMIUM is an online service for Canon genuine ink users that lets you download photos, illustrations, paper crafts, and much more, from internationally-recognised photographers and artists. New content is being added all the time, as a constant inspiration for your creativity. Simply browse, download and print the content from My Image Garden.

Full HD Movie Print

Full HD Movie Print

Capture the best moments from your movies

Full HD Movie Print is one of the many features of My Image Garden software that allows you to turn your magic movie moments into beautiful prints. Simply play your HD movie and select frames to print as a single photo, merge several frames into one for artistic effects or spread a number of clips out to tell a story. Full HD Movie Print is available from select Canon Digital IXUS, PowerShot and EOS cameras as well as Legria camcorders.

Print Your Days

Print Your Days app

Print your memorable photos from Facebook

Select a special image or create a beautiful collage from your Facebook photos and those of your friends in one simple operation – then print them out as a vivid, eye-catching reminder of fun times. Simply log in to your Facebook account from your PC and search for Print Your Days to start using this great app.

Get connected

Wi-Fi

Connect wirelessly around the home

With Wi-Fi you can easily share your printer between multiple PCs and print from anywhere around the home.

Mobile Printing & AirPrint*

Wireless printing from smartphones and tablets

Using the Easy-PhotoPrint app you can wirelessly print from and scan to mobile devices around in the home. Apple® AirPrint™ support also allows you to print wirelessly from any of Apple's portable devices, including the iPhone, iPad and iPod touch.

PIXMA Cloud Link with Google Cloud Print

Enjoy the freedom of Internet printing

Browse and print favourite photos from your online albums at CANON IMAGE GATEWAY** or Google's Picasa, directly from the screen of your All-In-One PIXMA. Print on demand calendars, stationery and other templates direct from the Cloud. Print Google Docs, emails, photo and pdf attachments from virtually anywhere using Google Cloud Print.

* AirPrint and Apple logo are trademarks of Apple Inc.

** Where available.

Easy-to-use, intelligently designed

Compact, easy maintenance designs

Innovative designs save space in your home

Canon's new FastFront design, used in FINE cartridge models, means ink and paper are easily accessed from the front of your All-In-One, providing a more compact and smaller footprint. As a result, your PIXMA can be put closer to a wall or even placed on a shelf. The Snap Edge design on individual ink models gives a low profile look and simplifies maintenance. Ink tank replacement has never been easier, with the ink cover opening from the printer edge so there's no need to lift the scanner unit.

Intelligent Touch System

**Whatever you want to do,
PIXMA makes it simple**

Canon's Intelligent Touch System provides intuitive and easy to follow light guided touch panel operation, with a large touch screen TFT display integrated into the stylish PIXMA body surface.

Direct Disc Print

Direct Disc Print

Personalise your discs for family and friends

Direct Disc Print tray lets you print directly onto printable discs. Design your own label from a favourite image, add text, or copy an existing Blu-ray Disc™/DVD/CD label to a new one. Whatever you choose, PIXMA gives your discs a smart, professional finish.

Efficiency

Auto Duplex Print

Auto Power On/Off

Save energy with your PIXMA

Thanks to the Auto Power Off feature, printers can automatically switch themselves off if left idle for a set amount of time. For your convenience Auto Power On restarts them automatically when you start printing.

Auto Duplex Print

Save paper with double-sided printing

Most PIXMA printers and All-In-Ones have integrated Auto Duplex, which enables automatic double-sided printing for professional-looking documents. It also reduces your paper consumption and helps the environment in the process.

Easy-WebPrint EX

Easy-WebPrint EX

Take control of web printing with Easy-WebPrint EX

Tired of the way websites never seem to print out the way you want them to? Easy-WebPrint EX is a plug-in for Microsoft Internet Explorer that makes it simple to select key sections of a web page before 'clipping' them to a single document for printing.

Quiet Mode

Reduce printing noise

Quiet Mode significantly reduces operating noise, for near-silent printing around the home.

Superior quality

FINE

Experience superb photo lab quality

FINE is Canon's unique printing technology at the heart of every PIXMA printer. It enables fast photo printing and superb photo lab quality thanks to microscopic ink droplets and precise ink placement.

Hybrid Ink System

Hybrid System

Crisp text and vibrant colours through a combination of inks

Each PIXMA from the Home Range uses two types of inks for stunning quality document and photo printing. Dye inks are used for exceptional quality photo prints with vivid colours, while black pigment inks produce crisp, clear prints of small letters and sharp lines.

ChromaLife 100+ and ChromaLife 100

Print beautiful, long lasting photos at home

A combination of genuine Canon ink and Canon photo papers provides more vibrant and beautiful photos and preserves memories for a lifetime.

Print Speeds

Know and compare real print speeds

Canon uses the latest agreed International Standards (ISO) to measure the print and copy speeds. This way, you can be absolutely confident of the performance when using any of our printers or All-In-Ones.

PIXMA For Home Range

PIXMA printers and All-In-Ones are the perfect fit for your home. Discover what they can do and find the one to suit you.

Save money on ink Print more for less

Some things work better together. That's why it makes sense to use Canon genuine inks and photo papers, designed in harmony with PIXMA devices, to deliver the best possible results.

Ideal if you print a lot, XL cartridges allow you to print more pages than standard ones and will need replacing less frequently. More cost-effective, XL cartridges are now available for individual inks as well as FINE cartridge systems.

Multipacks

Save 10% per page*

High yield XL inks

Save 50% per page**

* Maximum saving based on purchase of Canon multipack vs 2 single inks at Canon RSP.

** Based on Canon RSP, compared to equivalent non XL Canon cartridge, using ISO/IEC24712 yield.

Canon photo papers and speciality media

PIXMA brings fun to photo printing, with a range of creative media to suit every project and application. From presentation and photo paper to stickers and T-shirt transfers, PIXMA takes your creativity in new directions, helping you get more out of your images.

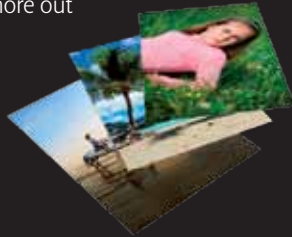

Photo Paper Plus Glossy II
