# Ella®

Thoughtfully designed to make a statement in any workplace.  
Precisely engineered for the ultimate in performance.  
Introducing Ella – elegance redefined.

## Ella Features

### Unique Form, Unmistakable Performance

*Ella's elegant design has been precisely engineered to deliver unparalleled performance across the arm's entire range of motion.*

### See the Big Picture

*With support for a single monitor up to a 43-inch screen size or two monitors with a 30-inch screen size, Ella allows you to work the way you want without sacrificing style.*

### Aesthetic Adaptability

*Whether you want to fit in or stand out, Ella can match your style. Choose from finishes of white, silver or black and complement with optional customizable inserts to create a look that fits your workspace.*

### Instant Transformation

*Ella installs entirely from above the desk surface and requires very few adjustments during setup, making installation fast and easy.*

# Ella®

Ella, the next-generation monitor arm from Innovative, continues our commitment to making ergonomics beautiful. Offering effortless movement and sure-footed stability for monitors up to an astonishing 43" screen size, Ella's groundbreaking design is only surpassed by its unparalleled performance.

# tambient® Lighting Solutions

Lighting Quotient knows lighting. Innovative knows ergonomics. Together, we've made flexible, lighting solutions for active workspaces. tambient lighting solutions offer a cost-saving alternative to traditional overhead and supplemental lighting systems all while improving employee well being by giving each user control of their workspace.

## tambient Features

### Flexible

*Lighting that ensures occupant alignment, where focused tasks and collaboration can coexist.*

### Functional

*Lighting that anticipates an active workplace and promotes enterprise productivity.*

### Responsive

*Lighting that is controlled by building management and users alike.*

### Personal

*Lighting for the "New New" open paradigm that embraces individual well-being and enhances vital connections between people, place and collective purpose.*

# How it Works

Uplight and downlight in every luminaire.

Uplights connect to room controls and provide glare-free, indirect ambient light for collaboration and general office tasks.

Individually controlled downlights provide personalized lighting for focused work.

Pushbutton on each luminaire for personal task light control.

Additional pushbutton is optional for personal control of uplight in private offices.

Sensors, room switches, and dimmers install without wires and operate without batteries.

# tambient® Monitor Support Options

## Dynamic Monitor Support with tambient

- Dynamic monitor height adjust.
- Supports two monitors, optional configuration for monitor and laptop.
- Square mast design.
- Optional USB hub integration in mount base.
- Available in white, silver or black.

## Static Monitor Support with tambient

- Static monitor height, dynamic height adjust arms optional.
- Modular solution is expandable from one to three monitors.
- Round mast design.
- Optional USB hub integration in mount base.
- Available in white, silver or black.

# The Innovative Advantage

For over 30 years, Innovative has been a leader in designing and manufacturing ergonomic, space-saving monitor arms and mounts for flat panel monitors, notebooks, and tablets. What began as a family-owned operation in 1986 has grown into a global company that is on cutting edge of ergonomic monitor arms, laptop mounts, and sit-stand solutions. The vast majority of Innovative's products are manufactured out of its headquarters in Easton, PA.

## Customer Focus

Innovative's employees take pride in enhancing the way users interface with technology. Our experienced team of sales representatives, in-house engineering and prototyping resources enable us to work with you to find the right solution for your specifications. Call us today to speak with a representative about your project: 800.524.2744.

## Quality

Innovative leads the way in exceptional quality by combining product performance with award winning design. Most products are tested to 30,000 cycles, far exceeding BIFMA industry standards. Innovative's mounting solutions are built to withstand the demands of today's office environment and most products are backed by a 10 year warranty.

## Designed + Assembled in USA

Innovative proudly designs and assembles a majority of our products in the USA. By designing our products onsite, Innovative is able to work closely with our customers from start to finish, providing them with a high quality product that meets their needs, has a high standard of performance and exceeds their expectations. Our in-house design team works on small to large quantity projects with highly configurable options.

## Award-Winning Design

Innovative products have been recognized by such prestigious international design organizations as red dot and iF, as well as design competitions sponsored by Business Week, Contract and Buildings magazines.
