4XEM 4-Port PoE 10/100Mbps Ethernet Switch

4XEM Part- 4XLS5004P

Introducing the 4XEM 4-Port PoE+ (Plus) Ethernet Switch – your trusted solution for seamless networking in any environment. Built to meet industry standards such as IEEE 802.3i for 10BASET, IEEE 802.3u for 100BASETX, IEEE 802.3x Flow Control, and IEEE 802.3 af/at for Power over Ethernet (PoE) PSE, this switch ensures optimal performance and compatibility with your network devices.

With its compact design, this switch features 4 RJ-45 ports, where ports 1-4 support PoE functionality, and 1 Uplink port to effortlessly expand your network. The switch boasts a high bandwidth of 1.0 Gbps across its ports, providing lightning-fast data transfer speeds. Its impressive packet forwarding rate of 744K ensures smooth data traffic.

The 4XEM 4-Port PoE+ Switch also boasts an extensive address database size of 2K for efficient network management. The ethernet switch also features LED indicators for system power and PoE maximum power. Per port, you can easily monitor link/activity, speed, PoE activity, and PoE error. When you purchase the 4XEM 4-Port PoE+ Ethernet Switch, you'll receive a comprehensive package that includes the switch itself, a DC power adapter, power cord, and a user manual.

Features:

- Simplified Networking: Easily expand your network with 4 PoE+ ports and 1 Uplink port, all in one compact device.
- Fast Data Transfer: Enjoy lightning-fast data transfer speeds with a 1.0 Gbps bandwidth and a 744K packet forwarding rate.
- Plug-and-Play Installation: Connect effortlessly with AC 100-240V power input and user-friendly LED indicators for quick setup.
- Energy Efficiency: Save on energy costs with a low 65W power consumption, while still enjoying robust performance.
- Versatile and Durable: Operate in various environments with a wide temperature range, ensuring reliability and longevity.
- Hassle-Free Monitoring: Stay informed with LED indicators for system and port statuses.

Applications:

- Home
- Connections
- Office
- Servers
- Networking
