4XEM 2-Port VGA Splitter 250 MHz

4XEM Part- 4XVGASP2502

4XEM's 2-Port VGA Video Splitter simultaneously delivers high resolution VGA video from a single source to up to two separate monitors. With support up to 250MHz VGA video bandwidth and resolutions up to 1920 x 1440, this high performing splitter offers superior image quality. Monitors can be positioned up to 213ft away from the VGA video source. Simple to install and featuring side connection ports, this durable unit can lay flat on or under your workspace. Perfect for classrooms, tradeshows, or in-store displays when you need high quality video on two monitors.

Features:

- Supports 250MHz video bandwidth
- Supports distances up to 213ft
- Supports resolutions up to 1920×1440
- Simple plug and play installation
- Compatible with VGA, SVGA and Multisync monitors
- High quality construction and high-resolution support
- Maintains signal strength for clean, sharp imaging

Applications:

- Home
- Connections
- Office
- Servers
- Networking

What is VGA?

A Video Graphics Array (VGA) connector is a three-row 15-pin DE-15 connector. The 15-pin VGA connector was provided on many video cards, computer monitors, laptop computers, projectors, and high definition television sets. On laptop computers or other small devices, a mini-VGA port was sometimes used in place of the full-sized VGA connector.

Many devices still include VGA connectors, although VGA generally coexisted with DVI as well as the newer and more compact HDMI and DisplayPort interface connectors.
