

Logitech®

Driving Force GT

The official wheel of Gran Turismo™

- Force feedback
- 900-degree wheel rotation
- 28-cm (11-inch) rubber-overmold rim
- 24-position realtime adjustment dial
- Gas and brake pedals

The official wheel of Gran Turismo™, the Logitech® Driving Force™ GT is designed from the ground up to provide an exceptionally realistic PLAYSTATION®3 racing experience. Its advanced force feedback technology recreates bumps, crashes and traction loss with jaw-dropping realism, while the 900-degree wheel rotation accurately replicates the steering dynamics of many real cars. A comfortable, 28-cm (11-inch) rubber-overmold rim provides a slip-free grip; the 24-position realtime adjustment dial (a first on a force feedback racing wheel) lets you fine-tune brake bias, traction control and other settings on the fly for unprecedented control over your car's performance characteristics. And the full-size gas and brake pedals deliver instant response.

SCIENCE WINS.
