

6 ft DisplayPort™ to DVI Active Adapter Converter Cable – DP to DVI 1920x1200 – Black

StarTech ID: DP2DVIMM6BS

The DP2DVIMM6BS 6ft active DisplayPort to DVI converter cable lets you connect your DisplayPort-equipped desktop or laptop directly to a DVI monitor or projector with no additional adapters or cables required -- a cost-effective solution for enabling your new DisplayPort computer to work with an older VGA monitor or projector.

For guaranteed compatibility with virtually any DisplayPort output the active DisplayPort to DVI adapter supports multimode (DP++) as well as single-mode DisplayPort signals. Unlike passive adapters, this ensures the DP2DVIMM6BS can be used with graphics cards that are not capable of outputting multimode DP++ signals, such as ATI® Eyefinity cards.

Plus, because the converter cable supports video resolutions up to 1920x1200 you can convert a DisplayPort video source to DVI without sacrificing video quality.

The DP2DVIMM6BS is backed by a 2-year StarTech.com warranty and free lifetime technical support.

Applications

- Use with single-mode DisplayPort video outputs that are not capable of outputting multimode DP++ signals, such as ATI® Eyefinity video cards
- Connect your DVI display device (monitor, projector) directly to a DisplayPort output device
- Ideal for using your DVI monitor as a secondary display
