# PRGS Projector Mount Kit

FOR PROJECTORS UP TO 50LB (22KG)

The PRGS Projector Mount is kitted with the versatile CMJ455 Suspended Ceiling Plate Kit, which allows a projector to be mounted into a 2' x 2' false ceiling system. The kit offers hassle-free adjustability for both projector mount placement and image alignment. The projector mount can be placed anywhere within a standard ceiling grid, and the PRGS-455 offers precision gear image alignment that can be easily controlled by adjusting the knobs for tilt and roll. The kit can be used with or without an extension column and offers electrical knockouts.

- Two adjustment knobs to control tilt and roll image alignment and accurately hold image position, virtually eliminating any sag or drift
- Pre-installed security screws provide tilt and roll locking ability to prevent tampering and adjustments
- Low profile design allows projector to be flush with the ceiling
- Open frame assembly provides easy cable routing through the projector mount itself
- Quick release mechanism to easily service projector
- Includes tie wire for a 3' drop, turn buckles, and fasteners for mounting
- Specifications:
  - Pitch: +15°/-20°
  - Roll: ±5°
  - Swivel: 360° (during installation)
