

MAN & MACHINE presents

# Slim Cool LP

Compact medical keyboard

**Space constraints are no obstacle to infection control. Our hygienic white Slim Cool Low Profile keyboard is fully sealed, seamless and long term resistant to cleaning with surface disinfectants, but only needs 14cm x 30 cm of your valuable space.**

Thanks to its Tru Lock locking mechanism, one touch is all it takes to prevent unwanted commands or screen gibberish during a clean. The USB cable can stay connected. We understand that cleaning can go beyond a quick wipe.

You can go ahead and submerge our medical keyboards for a more thorough disinfection. Our medical keyboards comply with the industry standards for your electrical and operational safety. All of this without compromising usability.

## 7 Requirements for a Medical Grade Keyboard

- Fully sealed
- Disinfectable
- Hygienic white
- Lockable
- Easy to use
- Electrically safe
- No drop hazard

The Slim Cool Low Profile keyboard sets itself apart by its key height optimized for easy-wipe cleaning combined with the modern typing feeling of a laptop.
