PadDock™ Pivot

Dual Arm Locking Tablet Stand

Deploy iPads® and other tablets in offices, schools, hospitals, professional offices, retail stores and other public areas with the PadDock™ Pivot Dual Arm Locking Tablet Stand.

Elegantly designed, PadDock™ Pivot holds your tablets precisely where you want them, while unobtrusively keeping them safe from theft.

Designed to secure and hold any 9" to 11" tablet, PadDock™ Pivot's locking tablet cradle rotates 360° for viewing in any orientation, while tilting through a 165° range to provide your best viewing angle.

Perfect for retail, education, medical and professional environments, PadDock™ Pivot's adjustable arm positions your mobile tablets precisely and securely.

- ***Deploy iPads and standard full-sized mobile tablets in customer-facing environments.***
- ***Ideal for education, medical, retail and professional office applications.***
- ***Holds tablets precisely while unobtrusively helping keep them safe from theft.***

PadDock™ Pivot

Dual Arm Locking Tablet Stand

Holds Tablets Securely

The PadDock™ Pivot Dual Arm Locking Tablet Stand holds Apple® iPads® and other 9" to 11" tablets. The secure tablet dock rotates 360° for multidirectional viewing and is an ideal way to use your tablet as a second screen on your office or home desktop.

Helps Keep Tablets Safe

When using iPads or other tablets in customer-facing environments, a major concern is security. The PadDock™ Pivot Dual Arm Locking Tablet Stand secures your mobile tablets with a key lock in the holder and physical C-clamp wrench locking at the base mount.

Using iPads for Business

Utilize the power of iPad or other popular tablets in customer-facing applications such as retail stores, schools, hospitals, restaurants, entertainment venues and professional offices with the PadDock™ Pivot Dual Arm Locking Tablet Stand.
