

Antimicrobial Waterproof Silicon Touchpad Keyboard AKB-270

www.adesso.com

Product Overview

The Adesso® AKB 270UB Antimicrobial Waterproof Silicon Touchpad Keyboard is designed for high traffic applications. The keyboard is easily cleaned with soap and water. It is made with antimicrobial material that protects against germ buildups between washings. The keyboard has a USB interface that easily connects without having to install specific drivers. Aside from these incredibly practical and hygienic features, the keyboard is made for smooth and quiet performance.

Durable Waterproof Design

The keyboard is wrapped with an advanced silicon material that will protect it against oil, water and dust.

Antimicrobial

The silicon material also offers the ability to remove germs with liquid disinfectants or soap and water or disinfectants.

Built-In Touchpad

Integrated built-in touchpad eliminates the need for a mouse and saves valuable desk space. The built-in touchpad puts cursor control at your fingertips!
