DC300

High Rise Sit-Stand Desk Converter with Adjustable Height

High Rise™ Collection

The DC300 High Rise Sit-Stand Desk Converter is a simple solution to a common workplace problem: too much sitting. Studies show that sitting for prolonged periods of time is detrimental to your health. The DC300 transforms any sit down desk into a sit OR stand desk. The 28" wide by 23" deep surface is raised up to 15.5" for ergonomic placement of laptop computer, keyboard, mouse, or papers while standing. Gas strut design allows easy custom height adjustment of both desk and monitor with the twist of a knob. The monitor holder is also height-adjustable.

Need a break from standing? Simply push the surface down to desktop level. Sleek wood construction and a durable laminate coating provide years of use with a modern style. The rear portion of the desk is tapered to fit corner cubicles. Heavy steel base prevents tipping.

1 year warranty.
