

Industrial Garbage Bags 2800 Series - High Density

High-density premium quality resin. Our thinnest and lightest series with exceptional strength. Ideal for heavy wet trash. The **2800 Bag Series** Industrial Garbage Bags frosted and black are made from quality high molecular weight - high density resin. Premium quality resins and the newest bag making technology ensure optimum quality control and consistency. These bags have exceptional strength and are ideal for heavy, wet trash. These bags are in roll form and each roll is easily dispensed from the perforated tabs on the side of each case.

Product Code	Width x length	Strength	Microns	Colour	Bags / case	Rolls / case	Bags / roll	Skid East	Skid West

Labels are colour coded to indicate strength.

INDUSTRIAL AND INSTITUTIONAL CAN LINERS & GARBAGE BAGS

www.cttgroup.com

W. Ralston Canada operates manufacturing facilities in Eastern and Western Canada serving both the retail and industrial markets. Ralston is a leading manufacturer of Trash Bags, Can Liners, Films and Vapour Barriers with product innovation such as blends of virgin & recycled plastics, antibacterial agents, and certified compostable plastics.

Ralston is committed to ongoing product development in positive support of solid waste management issues.

2100 Series

Compostable

- Certified compostable by BNQ 9011-911 and BPI ASTM D6400

2400 Series

Food Grade

- Clear
- Approved for food contact by Agriculture Canada

2500 Series

Premium Black

- Virgin rich blend of recycled post industrial LLDPE and premium
- Hexene Resin
- The 2500 Series is our thickest line

2600 Series

Value Plus - Black

- Economical lighter gauge
- Recycled resin
- EcoLogo™ - Certified Garbage Bags CCD-126

EcoLogo
Certified Garbage Bags
CCD-126

2700 Series

Recycled - Black

- Similar to the 2500 Series
- Lighter gauge with a higher content of recycled resin

2800 Series

High Density - Frosted

- Made from quality high molecular weight - high density resin
- These bags have exceptional strength and are ideal for heavy, wet trash.
- Packed in mini-rolls

2900 Series

Transparent and Colours

- Made from Hexene resin allowing significant downgauging, while still maintaining superior characteristics
- Transparent is EcoLogo™ - Certified Garbage Bags CCD-126

Ralston Quality Plastics
100%  **CANADIAN**

Each Series has its own unique formulation providing the broad spectrum of qualities and economies necessary to satisfy this demanding market.

- Complete range of sizes.
- Available in different colours (2900 Series).
- Outstanding elongation and tear characteristics.
- Custom sizes and colours also available.

User Friendly Cartons!

- Unique one-at-a-time end dispensing cartons allow easy access and ease of stacking.
- All cases have colour coded wrap around labels clearly identifying series, size, count, colour and strength.
- All linear low density series case counts are the same by strength and size.
- Cartons are 70% recycled material with minimum 50% post consumer.
