Tablet Management — for iPad

Highlights

- Design accommodates iPad Air, iPad (4th generation), iPad mini with Retina Display and iPad mini

- Multiple capacity options to sync, charge, transport and secure 16, 32 or 48 tablets

- Full 2.4A charging power for Apple devices

- Lightning™ cables installed

- Charge all tablets simultaneously with one power cord to the wall socket

- Switch from charge to sync mode by connecting a Macintosh computer or PC. Charging status is visible using the Individual Status Indicator (ISI) LED feature

- Desktop units are available and can be secured to a worksurface

- Up to 47% smaller and lighter (unloaded) than competitive product

Sync and charge. Lightweight, compact, easy to maneuver, secure and cost-effective design.

Pre-installed Lightning cables

Sync, charge, secure and manage up to 48 devices. Fully assembled with Lightning cables installed, this cart is ready to roll right out of the box. This compact cart accommodates iPad Air, iPad (4th generation), iPad mini with Retina Display and iPad mini devices. Durable steel doors with robust three-point lock and key assembly provide strong theft deterrence.

Ready to Roll

- Fully assembled with Lightning cables installed, this cart is ready to roll right out of the box. Just plug in your iPad devices to get started. Sync, charge, transport and secure up to 48 tablets.

Top-Rated Sync & Charge

- Improved charging system provides a full 2.4A charging current per device — charging an iPad Air in less than 4 hours.
- Built-in syncing capability; simultaneously sync up to 48 devices by connecting your laptop via the cart USB port.
- Made for iPad certified
- Compatible with iPad Air, iPad (4th generation) and iPad mini devices. Lightning cables come pre-installed so the cart is ready to charge immediately.
- Accommodates most iPad cases — including the popular Otterbox Defender™ and Griffin Survivor™ for the iPad Air.
- LED Individual Status Indicators (ISI) monitor charging progress of each tablet.

Super Compact Design

- Carts feature a small footprint making them easy to maneuver through tight aisles and easy to store
- Up to 47% smaller, 47% lighter (unloaded) than competitive product.

Solid, Durable Construction

- Steel tube and aluminium extrusion framework; steel access doors
- Durable, easy-to-clean exterior composed of high-grade fire-retardant ABS
- Clean, neat cable management within dedicated drawer located within each module. Secure drawer is separate from iPad compartment, limiting unauthorized access to cables.

Safe & Secure

- Tested and certified to UL 60950-1 and UL 1667 standards, FCC requirements and all applicable country-specific regulations
- Durable steel doors with three-point lock assembly provide strong theft deterrence; optional security bracket kit provides ability to secure entire cart to floor or wall.
- Fan and ventilation system maintains safe operating temperatures.
- Ergotron not only uses UL-certified components, but goes a step further to have UL certify the entire system to guarantee safe use within the classroom, healthcare, or enterprise setting. Tested and certified to UL 60950-1 and UL 1667 standards, FCC requirements, and all applicable country-specific regulations.

Up to **47% smaller and lighter** than competitive offerings

NEW! Laptop Locker
Safe and secure storage

An easy addition to Ergotron's Tablet Management Carts and Desktop 16 products, our Laptop Locker provides safe, secure storage for a laptop or other small accessories. Installs in place of existing top cover for a built-in solution. Includes six-point locking bracket.
