VisionTek®

The VisionTek VHCDI to 4x DVI-D Adapter lets you connect a VisionTek or other brand graphics card equipped with a VHDCI output to up to four DVI-D Single Link displays at resolutions up to 1200p WUXGA (1920 x 1200). Additionally, a single connector on the cable, when equipped with a supported DVI to HDMI adapter (sold separately), can transmit HDMI video and/or audio from supported graphics cards.

The VHDCI to 4x DVI-D adapter requires no additional drivers or power. DVI cables are required to connect to your display (sold separately). With the dual copper foil and braid shielding, our adapter provides the highest possible protection against signal interference.

VHCDI ⇨ DVI-D

NOTE: This adapter is not bi-directional. This adapter converts VHDCI to DVI only, not vice-versa.

VisionTek Display adapters offer a quick solution for your display needs. Our adapters work across all operating systems including Windows XP, Windows 7, Windows 8, and Windows 10. Where necessary, our adapters are active for expanded compatibility with multi monitor displays, docks, and digital signage. AMD Eyefinity is also supported with our adapters. Each VisionTek adapter has been extensively tested with HP, Dell, and Lenovo systems to ensure a wide range of system compatibility.

Key Features

- Supports resolutions up to 1200p (1920 x 1200 @ 60Hz).
- Connect your VHDCI device to up to four DVI-D displays or projectors. (Not reversible, only supports VHDCI to DVI-D)
